

Hampshire Fostering Service

26 September 2018

Finding **H**omes for
Hampshire Children

Who do we target to become foster carers?

A large target graphic with three concentric red rings and a white center. Three darts are shown: a yellow one at the top, a blue one on the left, and a pink one at the bottom. All three darts have hit the center bullseye.

People with existing knowledge, skills and experience in caring for children, either personal or professional, and individuals who are caring, sensitive and dedicated to the children we are looking to place with them.

Those wishing to become foster carers need:

- To be aged over 21
- Have a spare room
- Have childcare experience

What are the difficulties we face when trying to recruit foster carers?

Financial concerns

Spare room

People already known to us

Foster Carer Recruitment

	2016-17	2017-18	Apr - Aug 18
No of enquiries	781	644	246

How we support our carers

- Support and supervision
- Matching
- Buddying
- We support foster carers at meetings for the child
- We facilitate support groups for foster carers
- Work with Hampshire Fostering Network
- Learning and development

Helping children stay in foster homes

- ‘Matching’ and choice is crucial for placement stability
- We work with children’s social workers
- We provide support to foster carers
- We help carers have the right skills and experience and look from the child’s point of view

THE MEASURE OF SUCCESS

Foster Carer Survey

What was your primary reason for becoming a foster carer?

Foster Carer Survey

Fostering is often a stressful task. Causes of your stress:

Foster Carer Survey

Importance of these elements of support to Foster Carers (% thought 'Very important' and 'Important')

Foster Carer Survey

Levels of satisfaction with the quality and quantity of support you receive from your current fostering service?

	Very satisfied	Satisfied	Neutral	Dissatisfied	Very dissatisfied
■ 2016	25%	48%		20%	6%
■ 2017/2018	11%	53%	21%	13%	2%

Where can we make changes?

Our improvement work

- **Recruitment** – The aim of this work is to increase the number of HCC foster carers. The programme of work will explore all current HCC recruitment methods to identify areas to improve or develop.
- **Service Development**- this is a wide area of work that will explore alternative ways to deliver the fostering service aiming to improve foster carers' satisfaction and retention.
- **Foster carer support** – this is a focussed piece of work that will explore the support foster carers currently receive and look at improvement and development options.
- **Payments and processes** - This piece of work is a focussed piece of work to improve our current payments systems to foster carers. The new approach to being able to provide a fostering allowance to back up carers is a result already seen from this work stream.
- **Comms, stakeholder management and culture change** – this work stream will explore our current communication methods with foster carers but also more widely and explore their effectiveness and identify development areas.
- **Specialist Respite Care (SRC)** - This work stream will evaluate the current referral and matching process for SRC, the training requirements and will produce updated guidance for this specific area of care.
