5. Petersfield Museum, East Hampshire

- 5.1 In September 2017, the Executive Member for Culture, Recreation and Countryside was approached by Petersfield Museum to ask whether the County Council would provide a capital grant towards the cost of transforming

its buildings. This involves preserving Petersfield Museum's heritage buildings whilst creating new exhibition spaces, particularly the old county police station in Petersfield purchased from Hampshire Constabulary in September 2016.

- 5.2 This project will help the Museum better serve its community with hireable spaces for community use, including a 50-seater lecture theatre, and offer increased opportunities for skilled volunteering.
- 5.3 The total cost of the work is £2.56m, of which the Heritage Lottery Fund has awarded a grant of £1.3m on condition that £1.2m match funding is secured by August 2018. The Museum has committed £300,000 of its own funds to the project and secured approx. £390,000 from Trusts, fundraising and the Petersfield Round Table. It has applied to Petersfield Town Council for £150,000, The Foyle Foundation for £150,000 and the South Downs National Park Authority for £50,000, leaving approx. £180,000 further to be raised.

Criteria for Community Buildings Capital Fund

What is funded?

The Community Buildings Capital Fund supports capital based projects including refurbishment and improvement of Hampshire community centres, village halls and charitable and voluntary organisations (which offer a full and varied open access community programme).

Hampshire County Council can fund up to a maximum of 50% of the total project costs not exceeding a maximum grant of £25,000.

The aim of this funding programme is to focus on projects which provide improvements that reduce running costs and develop facilities which support early intervention and prevention through helping people to stay safe, eat well, be active, access information and advice and connect with others.

Examples of eligible projects include:

- installation of insulation, new windows and a modern central heating system which could have a significant effect on heating costs as well as carbon footprint
- building of an extension onto an existing centre to accommodate the needs of other local community groups which were previously housed in an old, inadequate building with high maintenance and heating bills
- installation of a [Changing Place toilet](#) or improvements to access or facilities for people with disabilities to make community venues more inclusive. We would expect any applications for new buildings or large extensions to show consideration has been given to the development of a Changing Place even if it is not included in the final project.

The programme is not designed to be overly prescriptive and developed innovative ideas for projects are encouraged.

What isn't funded?

The following organisations are not funded under this scheme:

- Parish Councils
- Other local authorities
- Groups and organisations whose main priority is of an individual focus or single use e.g. playgroup, lunch clubs or youth groups
- Uniformed organisations
- School properties, including preschools
- Sports clubs or venues
- Theatres

The following projects are not funded under this scheme:

- The purchase of land.
- Equipment not directly attributable to the building i.e. we will fund fitted kitchen equipment and sound systems, but would not fund a television or hi-fi system. We will also not fund equipment intended for the use of a separate trading arm or commercial organisation using the premises.
- Capital works that have already been carried out. We cannot retrospectively fund projects; grants are awarded for works to be carried out in the future.

Organisations will not normally be awarded more than one grant per financial year and previously funded projects must be completed before a new application is made.

Grant criteria and eligibility

The Community Buildings Capital Fund is open to the following community based organisations who benefit a local community/local communities in Hampshire, support the priorities and outcomes of Hampshire County Council's [Serving Hampshire - Strategic Plan for 2017-2021](#) and improve the health and wellbeing for all, improving the quality of life for all, particularly those who are vulnerable or disadvantaged:

- Village halls (not parish-run halls)
- Community associations
- Charitable and voluntary organisations which offer a full and varied open access community programme.

These organisations must be properly constituted with clear and effective local governance and management structures.

Organisations will not normally be eligible for grants where they hold unallocated reserves in excess of one year's running costs. Where it is judged that unallocated reserves are unreasonably in excess of what is required or not allocated for legitimate purposes, those organisations may receive a reduced grant. All charitable organisations are expected to have an agreed reserves policy that addresses their financial risk.

Grant criteria

Capital based projects must fall into one or more of the following categories:

- Building repairs, extensions and refurbishments
- Capital improvements that reduce running costs
- Health and Safety issues
- Equipment that will become a permanent fixture within the building which improves access and/or increases usage (the exception to this are tables, chairs and storage units which will also be funded)
- Capital based feasibility studies.

Organisations need to demonstrate:

- The provision of open access community programmes/activities from the community building for the benefit of the local community.
- The impact the capital based project will make to the local community, the organisation and wider society (if appropriate).
- The local community has been involved in identifying the need for the project and support it.

Applicants will be expected to have obtained permission from the landlord to undertake the capital work. If required applicants will also be expected to have obtained (or engaged in the process of) planning permission and/or listed buildings consent (if appropriate) to carry out the works.

Where appropriate, depending on the grant sum requested, the organisation will be expected to submit supporting documentation. All documentation will be used, alongside the application form, to assess against the grant criteria.

Feasibility studies

In order to assist voluntary organisations apply for funds from other sources, Hampshire County Council may support the costs of feasibility studies. Applications will be considered for 50% of the costs of such studies up to a maximum of £500.

Old Basing Guide and Scout Hut (Basingstoke and Deane / Loddon)	Grounds maintenance equipment (£3,258)	The organisation seeks funding towards the purchase of a ride-on mower and multi-tool for grounds maintenance. As the grant criteria exclude equipment not directly attributable to the building and uniformed organisations are not funded through the scheme, the application does not meet eligibility criteria. The organisation is requesting more than the maximum proportion of project costs through the scheme. 1000 Hampshire residents are expected to benefit. Councillor Still was invited to comment. As the project is not eligible, it is recommended that the application is not supported. The organisation has been signposted to more appropriate funding opportunities.	£3,258	£0

The hall provides a venue for twenty-four user groups offering health and wellbeing, creativity and special interest activities for adults and children. New Forest District Council has agreed, subject to contract, to make land available for the extension, transferring ownership by way of a leasehold interest. 4,000 Hampshire residents are expected to benefit. The organisation has committed £4,000 of its own funds to the project and has secured £36,000 in local fundraising. It has applied for £5,540 from New Forest District Council, £4,000 from Sway Parish Council £2,000 and £2,000 from various Trusts (outcomes pending) with fundraising continuing for the remaining shortfall. Councillor Porter fully supports the application.</p> <p><i>Note 1:</i> The organisation was unsuccessful in an application to the Community Buildings Capital Fund 2016/17 for a similar project (decision date 11/07/2016) because there was only a short term remaining on the lease, the application was for significantly more than the maximum award of 50% of project costs and the organisation held more than one year's reserves at the time. These issues have now been addressed.</p> <p><i>Note 2:</i> Desk research suggests this is the only community hall in Old Alresford, although there are halls available for community hire in neighbouring villages within five miles.
