1. The decision:

- 1.1. That Hampshire County Council (HCC) approves funding of £100,000 over 4 years, to procure an off-the shelf, externally hosted software database to manage supply chain information within its major projects construction frameworks.

2. Reason(s) for the decision:

- 2.1. The database is required to host data relating to HCC's major construction frameworks, enabling data to be collected via a browser-based secure log-in from authorised users outside of HCC, to capture information about supply chain activity, whilst meeting the security and architectural fit requirements of Hampshire County Council.

3. Other options considered and rejected:

- 3.1. None. It is considered a business need to capture this information to support the construction frameworks.

4. Conflicts of interest:

- 4.1. None

5. Dispensation granted by the Head of Paid Service:
