EXECUTIVE DECISION DAY NOTICE

Executive Lead Member for Adult Social Care and Public Health
Decision Day & Executive Member for Younger Adults and Health
and Wellbeing Decision Day

Date and Time Tuesday, 24th January, 2023 at 2.00 pm

Place Remote Decision Day

Enquiries to members.services@hants.gov.uk

Carolyn Williamson FCPFA
Chief Executive
The Castle, Winchester SO23 8UJ

FILMING AND BROADCAST NOTIFICATION

This decision day is being held remotely and will be recorded and broadcast live via the County Council's website.

AGENDA

Executive Lead Member for Adult Social Care and Public Health

Deputations

To receive any deputations notified under Standing Order 12.

NON KEY DECISIONS (NON-EXEMPT/NON-CONFIDENTIAL)

1. 2023/24 REVENUE BUDGET REPORT FOR ADULTS' HEALTH AND CARE (Pages 3 - 28)

To consider a report of the Director of Adults' Health and Care, Director of Public Health and the Director of Corporate Operations, setting out proposals for the 2023/24 budget for Adults' Health and Care in accordance with the Councils Medium Term Financial Strategy (MTFS).

2. CAPITAL PROGRAMME FOR 2023/24 TO 2025/26 (Pages 29 - 42)

To consider a report of the Director of Adults' Health and Care and the Director of Corporate Operations seeking approval for the submission of the Adult Services and Public Health capital programme to the Leader and Cabinet.

3. FUNDING FOR CAPITAL GRANT FOR DRUG / ALCOHOL INPATIENT DETOXIFICATION UNIT (Pages 43 - 48)

To consider a report of the Director of Adults' Health and Care seeking approval for grant funding to support commissioned inpatient medically managed drug / alcohol detoxification services.

Executive Member for Younger Adults and Health and Wellbeing

Deputations

To receive any deputations notified under Standing Order 12.

NON KEY DECISIONS (NON-EXEMPT/NON-CONFIDENTIAL)

4. DEMAND MANAGEMENT AND PREVENTION GRANT AWARD (Pages 49 - 62)

To consider a report seeking approval for making grant awards to the voluntary and community organisations outlined in the report as part of the Demand Management and Prevention Programme.

ABOUT THIS AGENDA:

On request, this agenda can be provided in alternative versions (such as large print, Braille or audio) and in alternative languages.

ABOUT THIS SESSION:

The press and public are welcome to observe the public sessions of the decision day via the webcast.

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Lead Member for Adult Social Care and Public Health
Date:	24 January 2023
Title:	2023/24 Revenue Budget Report for Adults' Health and Care
Report From:	Director of Adults' Health and Care, Director of Public Health and Director of Corporate Operations

Graham Allen, Director of Adults' Health and Care

Contact name:

Simon Bryant, Director for Public Health

Dave Cuerden, Finance Business Partner

Tel:	03707 795574		graham.allen@hants.gov.uk
	03707 793256	Email:	simon.bryant@hants.gov.uk
	03707 793845		dave.cuerden@hants.gov.uk

Section A: Purpose of this Report

1. The purpose of this report is to set out proposals for the 2023/24 budget for Adults' Health and Care in accordance with the Councils Medium Term Financial Strategy (MTFS) approved by the County Council in November 2021. It also proposes a revised budget for Adults' Health and Care for 2022/23.

Section B: Recommendation(s)

To approve for submission to the Leader and the Cabinet:

2. The revised revenue budget for 2022/23 as set out in Appendix 1.
3. The summary revenue budget for 2023/24 as set out in Appendix 1
4. The proposed fees and charges as set out in Appendix 2.

Section C: Executive Summary

5. This report provides the summary outputs of the detailed budget planning process undertaken by Adults' Health and Care for 2023/24 and the revised budget for 2022/23. For the first time in many years, this process has been

undertaken in a high inflationary environment, which presents particular challenges in balancing budget certainty for Directorates with levels of affordability for the Council. The budget for Adults' Health and Care therefore represents a prudent assessment of the funding level required to deliver services, with additional corporately held risk contingencies playing an important role to mitigate the impact of financial uncertainty on service delivery.

6. The Autumn Statement delivered by the chancellor on 17 November announced significant additional resources for local government through social care grants and greater Council tax flexibilities, in addition to the usual index linked increases in business rates income. This funding, including the opportunity to increase council tax, provides a partial solution to meeting the Council's budget shortfall. However, the cost pressures facing the County Council have worsened further over the current year, with extra funding required for children's social workers, Home to School Transport and growth in Younger Adults. Substantial budget gaps therefore remain across the MTFs, despite the announced increases in local government funding and SP2023 savings factored into Directorate budgets in 2023/24.
7. The Council's new organisational structure, implemented from 1 January 2023, draws a clear distinction between our public facing service Directorates, place shaping activity, and organisation facing enabling functions. This structure places a key focus on the Council's priorities emerging from the Hampshire 2050 Commission of Inquiry, ensures that all enabling functions are centrally managed to facilitate maximum efficiency and effectiveness and ensures that services are delivered in the most coordinated and consistent way possible to maximise value for our residents. As detailed work on later phases of the restructure progresses it is likely that further, more minor changes to budgets may be required and this report therefore represents an interim position that will be fine-tuned during the period to 2023/24.
8. The anticipated delay to delivery of some aspects of the remaining Transformation to 2019 (Tt2019) and Transformation to 2021 (Tt2021) programmes has been factored into our financial planning, and one-off Directorate funding will be provided where required to bridge the forecast savings gap in 2023/24. As of September 2022, £32.2m of Tt2019 and Tt2021 savings have yet to be delivered across the Council, however expected early delivery of Savings Programme to 2023 (SP2023) savings totals £21.5m during the current year. Of the required £80m SP2023 savings, £71m are due to be achieved next year, and plans are in place to deliver the remaining savings by 2024/25. The report discusses the specific issues impacting delivery of the savings programmes for Adults' Health and Care in Sections F, G and H.
9. The report also provides an update on the business as usual financial position for the current year. As at the end of October and the outturn forecast for the Directorate for 2022/23, is a budget over spend of £8.1m after all agreed additional support, attributable completely to Adult Social Care. Whilst there is a forecast underspend on Public Health of £1.4m this will be set aside within the ring fenced Public Health Reserve at year end and is not available to offset any of the pressure in Adult Social Care.

10. The proposed budget for 2023/24 analysed by service is shown in Appendix 1.
11. The report also reviews the level of charges for the provision of services which require approval and provides a summary of these charges in Appendix 2.
12. This report seeks approval for submission to the Leader and Cabinet of the revised budget for 2022/23 and detailed service budgets for 2023/24 for Adults' Health and Care. The report has been prepared in consultation with the Executive Lead Member and will be reviewed by the Health and Social Care Select Committee. It will be reported to the Leader and Cabinet on 7 February 2023 to make final recommendations to County Council on 23 February 2023.

Section D: Contextual Information

13. In July 2022, Cabinet received a report updating on the development of the next Medium Term Financial Strategy against a potential budget gap of £180m to £200m to 2025/26. This took account of the expected local government pay award, the impact of rising inflation on contract prices and anticipated regulatory changes, resulting in a significant increase on the £157m budget deficit reported to Cabinet in February 2022.
14. Since that time, the cost pressures facing the County Council have worsened further, with substantial extra funding required for children's social workers, Home to School Transport and growth in Younger Adults. These pressures have arisen due to a combination of sustained increases in demand following the pandemic, surging inflation and labour shortages in both in-house and contracted services. The financial crisis that has recently hit the country, with an extended recession being expected, has also worsened the longer term funding outlook for the sector; with no Fair Funding Review, no new two year deal for local government and the announcement in the Autumn Statement that government spending will grow by just 1% per year in real terms from 2025/26. This is significantly lower than the 9.4% increase provided to local government through the 2021 Spending Review.
15. However, the Government has acted to prioritise Social Care spending to 2025, with additional grant funding provided to support hospital discharges and to help meet the increasing costs of both adults and children's care packages. To specifically support hospital discharges a total of £1bn additional funding will be distributed to Local Authorities and Integrated Care Boards in 2023/24, this funding is required to be pooled within the Better Care Fund. It also extends beyond the additional £500m national allocation made in 2022/23 for hospital discharges. A further £1.3bn will be distributed through the general Social Care Grant. This funding has been repurposed from the monies previously earmarked for implementation of the Adults Social Care charging reforms, which have been delayed until October 2025.

16. Councils will also be permitted to increase Council Tax by a maximum level of 2.99% plus a further 2% for the social care precept. The extended Council Tax flexibilities will remain in place until 2027/28 and could generate an additional £14m - £15m per year for the Council, or around £45m by 2025/26. Current levels of inflation also increase the index linked uplift which Councils receive on business rates income. The September 2022 CPI was 10.2% and if this was applied to our retained business rates and top up grant from the Government this would yield an extra £13m next year after allowing for the downturn in the economy.
17. Setting a budget in a high inflationary environment, which the council has not experienced for many years, presents particular challenges in balancing budget certainty for Directorates with levels of affordability for the Council, given the potential for the position to worsen or improve substantially throughout the year in line with changes in the economic picture. The budget for Adults' Health and Care therefore represents a prudent assessment of the funding level required to deliver services, with additional corporately held risk contingencies playing an important role to mitigate the impact of financial uncertainty on service delivery.
18. Directorate budgets have been adjusted to take account of SP2023 savings, however substantial budget gaps remain across the MTFs, despite recently announced increases in local government funding. The Directorate will therefore continue to look to improve efficiency wherever possible, driving collaboration across the organisation and with our wider partners, maintaining a focus on process improvement including maximising the benefit of new technologies, and ensuring our operating models and governance arrangements are lean and responsive to the needs of our residents. This will put the Council in the strongest possible position as it looks to a successor savings programme to meet the substantial medium term challenge that the council faces.
19. Central to our focus on continual improvement is the Council's new organisational structure, which draws a clear distinction between our public facing service Directorates, place shaping activity, and organisation facing enabling functions. This structure places a key focus on the Council's priorities emerging from the Hampshire 2050 Commission of Inquiry, ensuring we can deliver a vision for the county which safeguards Hampshire's economy and future prosperity, quality of life, and protects and enhances the character and environment of Hampshire. This is, of course, alongside our fundamental role of ensuring we can continue to deliver services to our most vulnerable residents.
20. As well as delivering management efficiencies, the new structure will ensure that all enabling functions are centrally managed to facilitate maximum efficiency and effectiveness, as well as reducing duplication. Combining the public facing services delivered by the previous Culture, Communities and Business Services and Economy, Transport and Environment Directorates within a new Universal Services Directorate, will ensure that services are

delivered in the most coordinated and consistent way possible to maximise value for our residents.

21. The 2022/23 budget has been restated to reflect the revised structure and the 2023/24 budget has been prepared on the new basis. However, as detailed work on later phases of the restructure progresses it is likely that further, more minor changes to budgets may be required to ensure budget allocations accurately match the services and roles aligned to each Directorate. Any budget changes as a result of this further work will be contained within the overall organisational budget guidelines agreed by Cabinet in December 2022, accepting that total budgets for individual Directorates may vary within the overall control total agreed. The figures presented in Appendix 1 therefore represent an interim position that will be fine-tuned during the period to 2023/24.
22. Adults' Health and Care has been developing its service plans and budgets for 2023/24 and future years in keeping with the County Council's priorities and the key issues, challenges and priorities for the Directorate are set out below.

Section E: Directorate Challenges and Priorities

23. The purpose of this report is to set out the medium term position for the Directorate and this section is to outline those longer term challenges that are faced. It follows that this report will not then focus on the pandemic but will highlight where opportunities and potential longer term challenges have arisen as a consequence of the pandemic.

ADULT SOCIAL CARE

24. The current year has been another incredibly challenging year for Local Authorities across the breadth of the country, in particular for those councils that have responsibility for Adult Social Care that will have seen ever more rapidly increasing prices and real growth in client numbers, particularly those with complex need. Hampshire is no different. These financial challenges are well known and driven by various key factors including:
 - Number of eligible clients continuing to increase at a faster rate, particularly for those over 85 that are the most vulnerable and have the most challenging conditions,
 - Growing complexity of care needs, for example the increasing prevalence of multiple conditions including higher levels of dementia,
 - Severe shortages in the care workforce, resulting in greater use of higher cost agency staff,
 - Cost of living increases, including fuel costs that have led directly to increases in the price paid for care, and,

- Significantly greater increases in the numbers and costs associated with supporting children with disabilities and complex needs transitioning to adulthood.
 - All of the above need to be considered against the backdrop of a year where the Fair Cost of Care exercise was undertaken which undoubtedly affected providers expectations in respect of fee rates.
25. In addition to those key pressures highlighted within paragraph 24, there are many other factors, (such as the financial challenges being experienced by NHS organisations) which have a direct bearing on social care pressures. Regulation and the National Living Wage (NLW) are also impacting on direct provision and the independent sector in terms of increasing cost pressures being passed onto the County Council. These pressures are also not unique to Hampshire and are representative of the position nationally.
26. The Government's commitment to the NLW will continue to have an impact on the purchased care budget with greater pressure expected in 2023/24. The increase in the NLW from April 2023 was confirmed within the Autumn Statement and will see it rise to £10.42 from £9.50, an increase of £0.92, (9.7%). The NLW will undoubtedly put further strain on the price of care alongside general inflation during 2023/24, both of which are significantly higher than the ability of the County Council to increase revenues.
27. In the last year, as expected, the underlying demand in clients requiring adult social care services and the average price paid for it has grown significantly and has recently exceeded previous expectations. Over the next twelve months this growth is likely to exceed both the previous assumptions and the available funding currently set aside within the MTFs. The detail of this most prominent challenge is outlined further within Section G of this report.
28. Historically most of the volatility of client numbers and variability of risk has tended to concentrate within the Older Adults sector and whilst that remains true, and there has been significant growth within this sector, the growth has remained broadly in line with previous predictions throughout 2022/23. However, as Younger Adults is now the largest single paid for care budget, it also carries a substantial amount of risk, and that risk has materialised during 2022/23. Whilst in the past Younger Adults has had a consistent and yet slightly more predictable year on year pressure in the past year this has not remained the case. We have seen unprecedented levels of client growth, material price increases to prevent significant volumes of providers having to hand back care, and a number of clients in crisis that require high cost emergency placements.
29. The opportunity to utilise spare capacity within the HCC Care Residential units through the sale of Discharge to Assess beds, (D2A) to the NHS to support timely discharges from hospital has continued throughout 2022/23 and is planned for 2023/24. This now represents a significant income stream to the Directorate that it is essential is maintained. In light of the announcement made

during the Autumn Statement there would now appear to be specific resources set aside for the NHS to continue these vital services through to 2024/25.

30. It was announced within the Autumn Statement that local authorities will now be able to raise 2% through the adult social care precept in 2023/24. This represents a change from the previous level of 1%. This increase in available funding will need to be seen in the round given the other resources announced for social care in the Provisional Local Government Finance Settlement, but what is clear, is that even with the increased resources they are not sufficient to keep pace with price and growth demand expected for next year.
31. There continues to be a focus on the Directorate's support for the NHS in maintaining the faster flow of patients out of NHS hospitals and this is likely to continue into the medium term. Throughout 2022/23 one off funding made available by the NHS locally has supported the continuation of the discharge services but it was insufficient to meet the costs in the full year. The discharge funding for 2022/23 announced prior to the Autumn Statement has secured those services for the remainder of the year. As highlighted in paragraph 29 above, there is now confirmed dedicated resources being made available through grants to support this work from 2023/24 through to 2024/25. In the current year it is forecast that Adult Social Care will have recovered over £28m for services commissioned to support discharges on behalf of the NHS.
32. The key discharge services further developed over the past year that will need to be maintained are as follows:
 - Discharge to Assess, (D2A) capacity as a vehicle to both step clients down from hospital and step people up to prevent a hospital stay. This includes both bedded services provided by HCC Care and non-bedded services commissioned from the independent sector.
 - Integrated Intermediate Care, (IIC) arrangements to adequately meet the reablement and rehabilitation demands across the County seamlessly through teams from both Health and Social Care backgrounds.
 - Single Point of Access, (SPoA) a multi-disciplined team across Health and Social Care functions with the singular aim of completing all of the necessary processes together in a timely way to discharge clients from hospital safely through to their physical arrival at the optimum destination for their care journey – this will mainly be their home.
 - Enhanced working within the Hampshire Equipment Store to ensure that vital equipment is accessible seven days a week to aid faster discharges.
33. The supply of affordable and sufficient staffing resource within the sector continues to be a major challenge, the County Councils In-House Residential and Nursing Care homes are not shielded from this. Accordingly in the current year due to the staff shortages and the lower than normal occupancy level the directorate has continued to keep two homes temporarily closed. This has enabled the service to be better placed to adequately resource the remaining

homes and in doing so has led them to become more cost effective in the short term. Despite this the Directorate has still been required in year to offer further financial incentives to lower paid staff to both attract new staff and retain the resources currently held. This approach is significantly more advantageous than paying the high cost agency staff fees that would be the alternative.

34. Accordingly, there continues to be significant progress in sustainably eliminating the overspends seen in prior years and delivering the required savings within HCC Care as can be evidenced from the minor underspend position reported in 2022/23. The Directorate has invested both time and short term financial resources to address the previous issues both through structural changes and development of IT solutions. There is still more work to do to in 2023/24 to fully deliver the efficiencies and savings, but the Directorate are well positioned for this to be achieved in the early part of the year through a new staffing blueprint.
35. As already highlighted the demand from people of working age with physical and in particular learning disabilities is growing ever more rapidly and, although positive work to improve value for money in commissioning has created good financial and quality outcomes, the increase in demand through transition from childhood is significantly outweighing this most significantly because a greater number of these clients will be at an extraordinarily high cost. Advances in medical care have had a positive impact on life expectancy and have meant that people with very complex needs are surviving into adulthood when historically they might not have done so. They are also living a fuller adult life and are demanding support to live as independently as possible for significant periods.
36. Younger Adults now represents the major growing pressure on Adult Social Care budgets. Accordingly, the Directorate have focussed efforts through previous transformation rounds and will continue to do so through SP2023 to minimise the impact of this pressure where possible whilst improving outcomes and life experiences for service users, including identifying and helping to secure employment opportunities. This will be achieved through further innovation (including multi-million pound investment in Technology Enabled Care and modern Extra Care housing / Supported Living) alongside efficiencies and service reductions. Additionally, the strengths-based way of operating, coupled with Least Restrictive Practise approaches and planned increased use of volunteers have been increasingly working to mitigate costs and provide better alternatives for clients within the Younger Adults' service area.
37. The purchase of care for clients within their own home continues to be a challenging area for the Directorate, and in all likelihood, greater dependency will be placed on providers into the future across all client groups. The impact on the workforce highlighted earlier in this report within care home settings is just as prevalent with home care providers. The Directorate does on occasion still have difficulty securing home care for all clients immediately, although the position has significantly improved within the last year. The Directorate continues to work with the sector and local care groups to explore potential initiatives to bring new entrants into the workforce as well as encourage new

providers into Hampshire. Work continues to expand upon the gains made from the introduction of the non-residential framework and associated payment process with further streamlining and simplifying of the transactional engagement with providers, having successfully expanding it to all other client groups. Evidence to date would support that it has improved relationships with providers and reduced their back-office costs resulting in greater levels of care provision being available at comparatively affordable rates even during this period of very high inflation. The Directorate will continue to seek to improve and make further gains.

38. During 2023/24 the Directorate is planning to introduce a new Residential and Nursing framework within Older Adults that is anticipated to help deliver both greater financial security for the successful providers through sustainable and fair rates of care and to provide the council with a greater degree of control over both the current price paid and future increases. Currently the Directorate, in this area, are exposed to pure market forces that is enabling the average price to be perpetually driven up with each and every new purchase made.
39. The other key priority is the Adults' Health and Care Transformation Programme, which is currently forecast to successfully complete delivery of the £55.9m Tt2019 savings by the end of 2022/23. Additionally, the Directorate are set to secure all but £11.4m of savings required for Tt2021 by the end of 2022/23 of which £10.6m is set to be delivered in 2023/24.
40. In 2022/23 this delayed transformational savings is being supported with cash from the planned corporate support and the agreed Covid-19 support package. Into 2023/24 it is expected that the Directorate cost of change will support the remaining delayed savings for Tt2021 of £0.8m. Furthermore during 2023/24 it is forecast that the Directorate will have achieved £34.7m of the targeted £40.6m SP2023 savings. The delayed savings of £5.9m will need to be supported with funding from the Directorate cost of change.
41. It is essential all savings are achieved within the recently revised timeframes in order to minimise the need to draw on the Directorate's Cost of Change reserve. Avoiding the need to draw on this reserve maintains the Directorate's ability to adequately support the forecast transformation costs associated with these programmes and any requirements to offset service pressures in the short term.
42. The Directorate is committed within the next year to delivering the implementation of a brand new IT social care system, (Care Director) that is likely to be rolled out by the 2nd or 3rd quarter of the financial year. This will inevitably represent a further challenge for the Directorate in respect of both securing available resources and the significant risk associated with the control of data and processes during the switch to a new system. The Directorate in collaboration with IT are carefully managing the risks within the programme to ensure the safe transition.
43. In the first quarter of 2023/24 the Directorate will embark upon a fundamental review of its operational arrangements to ensure that its working practices

across social care, from assessments through to all financial interactions with providers and clients, are optimised as far as possible. Thereby placing the Directorate in the best possible position to continue to deliver suitable and safe services into the future to those most in need of social care support.

44. Finally, during 2022/23 the Directorate commenced work to prepare for the Social Care Reforms that were due to commence from October 2023. With the decision by government to postpone the implementation date to 2025 much of this work has been stepped down except for where opportunities were identified to improve or make services more efficient such as introducing digital tools to support care and financial assessments.
45. The Directorate also delivered, in accordance with the required timescales, its analysis of the Fair Cost of Care work it had undertaken, which will be published in line with Government requirements. In addition to all of the issues identified above the impact of this work, in particular on provider expectations regarding fee rates should not be underestimated and accordingly is likely to represent a significant challenge to manage those expectations throughout 2023/24, in particular alongside the inevitable difficulties of being within a period of very high inflation.

PUBLIC HEALTH

46. The past year has continued to be exceedingly challenging for Public Health. The continued response to the pandemic, particularly in the first half of the year has been a significant draw on the time of the management and leadership of Public Health, not least because whilst there was sufficient additional funding made available, this comes with its own challenges to ensure it is spent appropriately and is targeted to where it will have most impact. This year also saw the emergence of health issues related to the pandemic and protection measures including increased weight and poorer mental and emotional health.
47. It is expected that the conditions on the Public Health grant for 2023/24 will be the same as those in 2022/23, specifically in relation to the basis of the ring-fence. It is anticipated that the level of the grant for 2023/24 will be announced in the new year. It is also expected that there will be an allowance for inflation and the recently agreed uplift to NHS pay for our commissioned services, but it is unknown at what percentage. When greater clarity is provided the budget will be updated accordingly.
48. During 2022/23 the Public Health team, did not have any new savings required either as part of the Councils savings programmes or through any historical reductions in the grant. In addition, all savings previously required to be delivered have now been met in full. However, the Public Health team continue to take advantage of opportunities to make the service more efficient and prioritise the funding available to those services that make the most difference to the residents of Hampshire. This includes closer work with the NHS to better align services, where appropriate, to deliver those improved service outcomes for the residents of Hampshire.

49. In 2022/23 the ring-fenced Public Health grant received by Hampshire was increased by £1.5m to £54.4m. This increase has been used to cover the recurring inflationary costs incurred by providers most notably the increase in staff cost experienced by the NHS providers for the years 2021/22 and 2022/23. In addition, the grant increase was to cover specialist sexual and reproductive health service activity to enable Pre-exposure prophylaxis for HIV which was previously funded through a standalone grant. At this time there has not been any confirmation of the actual grant level in 2023/24, the budget has therefore been set on the minimum expectation of a grant equivalent to that received in 2022/23 of £54.4m. When the ring-fenced grant and all other grants received and utilised by Public Health in 2022/23 are confirmed for 2023/24 with specific allocations these will be added to the budget. With the strategic partnership with the Isle of Wight some income is received for the delivery of the statutory public health functions and staffing for the Isle of Wight Council.
50. Within the current year Public Health resources have continued to include a residual element of funding remaining from the Covid-19 response. From a financial perspective any forecast costs relating to this funding are expected to be met from those resources. Therefore, the current year financial variance for the Directorate represents a position that is largely unaffected by the impact of Covid-19 as is shown within Section F.
51. Despite the recent grant increases and the likelihood of a further inflationary increase in grant for 2023/24 there remains significant challenges for delivery of the County Council's core public health responsibilities and for wider work to improve the public's health. Continued careful planning, delivery and evaluation of evidence-based interventions will ensure that the available Public Health resources are focused on the key public health priority areas identified in the Public Health Strategy 'Towards a Healthier Hampshire', which will be replaced by a new strategy in early 2023.
52. The refreshed strategy will seek to reduce the prevalence of the conditions contributing the most to years lived in ill health, namely smoking, cardiovascular disease, diabetes, unhealthy weight, low physical activity and poor mental health by acting on the risk factors, environment and conditions which combine to drive them. Recognising the links between health and wealth, the refreshed strategy will align with the vision and strategic direction set out through the Hampshire 2050 Commission and with other key strategies that shape Hampshire as a place.
53. A key priority is to ensure efficient delivery of the public health mandate to best meet the public health needs of Hampshire's residents and to continue to ensure that these services are providing best value for money. These include the mandated services: the National Child Measurement Programme, (NCMP) delivered through the school nursing service; delivering quality assured NHS health checks with the aim of both reducing future ill health, particularly cardiovascular disease and dementia, and the associated demand for health and social care services; enabling access to comprehensive good value for money sexual and reproductive health services through transformation, providing public health expertise and leadership to NHS commissioners and to local

Integrated Care Systems to inform the planning and commissioning of health services and the delivery of health protection and public health emergency planning responsibilities and cooperation with the criminal justice system in respect to violence prevention.

54. A focus on improved outcomes, narrowing the gap in outcomes for groups at most risk of ill health and increased quality in the public health commissioned services remains our key priorities alongside leadership of public health for Hampshire.
55. There is compelling evidence that what happens at the start of life is vital in laying the foundations for good adult outcomes. The Healthy Child Programme (0-19) is an evidence based universal prevention and early intervention public health programme that is offered to all families. These services are supported by a mandate that requires universal delivery of five key child 'development reviews. It supports parents and promotes child development, leading to improved child health outcomes and reduced inequalities while ensuring that families at risk are identified at the earliest opportunity. To ensure that we get the best outcomes for children and families the Public Health team is working in partnership with Children's Services and NHS colleagues to transform and provide collaborative services for children and young people and their families. Effective use of resources will help to maximise the universal nature of the service, as well as to provide an enhanced offer to vulnerable families, to get the best possible outcomes in the six high impact areas, focus on prevention, and early identification of children and families at risk of future health and social problems. The Public Health nursing service, commissioned in 2021/22 has continued to support Hampshire's vulnerable families at a time of resource constraint and national staffing challenges through an active partnership between commissioner and provider.
56. The proportion of our population making unhealthy lifestyle choices, which will impact on their future health and care needs, remains a real public health challenge in Hampshire. These choices already have an impact on public services and lead to considerable costs to the system. This is likely to get worse over time. Focusing on prevention and making a healthy lifestyle 'the norm' for people of all ages is key to keeping people healthy, in employment and independent for longer and to reducing future demand for services. We continue to work to achieve this through appropriate nutrition, reducing obesity, promoting physical activity and supporting people to stop smoking and to drink sensibly. The Stop Smoking Service is accessible to the whole population and aims to increase quit rates, through focussing on population groups for whom smoking prevalence is still high. This requires strategic leadership and collaboration to change the system alongside effective services for the population.
57. With an increasingly older population, tackling social isolation and malnutrition, preventing falls and maintaining mobility in our vulnerable and older residents remain important areas of focus for our work with colleagues in Adult Social Care and the NHS.

58. Public Health leadership of violence reduction has further progressed through the local Violence Reduction Unit for Hampshire. This sees the team working closely with the Office of the Police and Crime Commissioner and Hampshire And Isle of Wight Constabulary. Domestic abuse is a serious public health problem; Public Health leadership of the strategic partnership is driving work across the system to reduce domestic abuse. The Domestic Abuse service for victims and perpetrators provides further impetus to this work and has an increased focus on reducing the impacts of domestic abuse on children to prevent long term sequelae and impact. In 2022/23, this work continues to be supported by a specific additional grant to support domestic abuse services.
59. Poor mental health represents a significant burden of disease in the County and increases the risk of developing physical illness and of premature mortality. We will continue our work to improve the mental wellbeing of our communities and the focus on preventing suicide. The Mental Health Partnership and plan has been further developed this year. Promoting emotional wellbeing, resilience and good mental health in children is a priority for both our health visiting (through action on maternal mental health and promoting attachment) and school nursing services. An updated Emotional Health and Wellbeing Strategy continues to be implemented. Partnership working across the County Council, the NHS, voluntary sector and service users will help to drive this agenda forward.
60. The substance misuse service delivers a robust drug and alcohol treatment system that fully meets the diverse needs of the Hampshire population and empowers and enables people to recover from alcohol and/or drug dependency. Through a transformation programme the service will take a family approach and deliver a comprehensive treatment service. Wider system work continues to support responsible drinking and promote safe and healthy places for people to live and work. An additional grant (SSMTRG) was received specifically to improve substance misuse services in line with the national drugs strategy and to increase access to Inpatient detoxification. This aspect was led by Hampshire County Council on behalf of 18 other Local Authorities.
61. Sexual and reproductive health services and substance misuse services, being demand led, are challenged by the number of patients requiring these services. However, they are continuing to meet the demand through service transformation to ensure that the right service is provided at the right time in the right way for those who need it including through upstream preventative work and shifting more activity from face to face to digital interventions where appropriate. These approaches, begun prior to the pandemic, have been further developed during the response to Covid-19.
62. The Director of Public Health (DPH) continues to deliver the Health Protection responsibilities through partnership work with the UK Health Security Agency, and NHS England. The County Council's health protection responsibilities have been significantly stretched this year with the added responsibilities of Covid-19 pandemic leadership, Outbreak Control Plan, local contact tracing service and leadership and coordinating testing services. This will continue to be a core part of the Directorates work in the coming year. The Emergency

Planning responsibilities are delivered through work with the Emergency Planning teams in the County Council and wider Local Resilience Forum (LRF) partners.

63. To ensure delivery of the Joint Strategic Needs Assessment on behalf of the Hampshire Health and Wellbeing Board the team continues deliver key analysis for partners including working with the developing Primary Care Networks. Our leadership of Population Health Management will enable more effective delivery of healthcare for the system. Our leadership of Covid-19 intelligence work has led to continued intelligence analysis and enabled services to be needs led and tackle inequalities.
64. Nationally and within the Hampshire and Isle of Wight ICS there is a welcome renewed focus on population health and prevention. The northeast of Hampshire is part of the Frimley Integrated Care System where there are similar focuses on population health, prevention and delivery through place. The DPH provides leadership to both these work programmes supported by the Public Health consultant team.
65. Hampshire County Council is now in the fourth year of a formal partnership to provide the leadership of public health on the Isle of Wight, (IOW). This arrangement commenced in September 2019 following eighteen months of interim leadership support. The partnership will be reviewed on an ongoing basis but at present is still demonstrating successes. The partnership has increased Public Health capacity across the councils, maintaining the high quality of services across Hampshire, building resilience whilst improving the quality of service delivery on the Island. We will continue to work in partnership to respond to the pandemic and any other emerging health protection risks appropriately.

Section F: 2022/23 Revenue Budget

66. Enhanced financial resilience reporting, which looks not only at the regular financial reporting but also at potential pressures in the system and the achievement of savings being delivered through transformation, has continued through periodic reports to the Corporate Management Team (CMT) and to Cabinet.
67. The budget for Adults' Health and Care has been updated throughout the year and the revised budget is shown in Appendix 1. The revised budget shows an increase of £27.1m of which Adult Social Care is a £6.1m increase and Public Health a £19.2m increase.
68. The Adult Social Care increase is made up of the following:
 - £6.1m corporate support for Tt2019 and Tt2021 slipped savings.
69. The Public Health increase of £19.2m is made up of the following:

- £13.1m of carried forward Contain Outbreak Management Fund and Track and Trace grants.
- £3.3m grant for Domestic Abuse services of which £1m is carried forward from 2021/22 and £2.3m is the 2022/23 allocation.

70. The anticipated business as usual outturn forecast for 2022/23 is a budget over spend of £8.1m, which relates in its entirety to Adult Social Care. In addition, there is a forecast underspend on the Public Health grant of £1.4m but this is required to be placed in the Public Health Reserve at year end where it will be used to support further investment in transformational activity in later years.

ADULT SOCIAL CARE

71. There are some key variances within the £8.1m adverse, (net of planned support) position reported, of which all material variances are contained within the budget for purchased care. It had previously been forecast that the Directorate would require additional funding in year of £35m to support the growing pressure on care budgets. The actual pressure in year has grown to £42m with much of the additional pressure coming from within Younger Adults.

72. The pressure in Younger Adults is the direct result of both an increasing need to renegotiate uplifts for specific packages of care, or run the risk of the package being handed back, and a steady increase in client numbers particularly those in crisis that are notoriously expensive to place. These high cost clients can cost circa £3,000 to £4,000 per week whilst the cost of the in year additional uplifts has been £1.5m in 2022/23. As outlined in this report these factors will have an inevitable adverse impact on the budget position for 2023/24 compared to the previous forecasts.

73. The inflationary pressures and subsequent increase in costs felt by providers has led to unprecedented increases in average prices paid by the Council, furthermore this has also had a knock on impact for the ability of the Directorate to deliver savings in accordance with the plan for the year. There has been a further delay of savings delivery in year of £2.1m. Despite this it is still anticipated that by March 2023 the residual Directorate savings for Tt2019 will be achieved.

74. The Cost of Change balance is forecast to be £8.1m by the end of the year, a reduction of £46.6m from the starting balance of £54.7m. Most significantly £21.9m of the reduction is due to a reciprocal arrangement with the NHS that spanned over 2021/22 and 2022/23 that has facilitated keeping funding that originated with the NHS available for vital discharge services during 2022/23. The remaining draws on the Cost of Change balance reflect the need to offset the reported overspend of £8.1m in addition to offsetting the delayed savings of £2.1m as well as programmed project costs to deliver savings of £14.5m.

PUBLIC HEALTH

75. The anticipated favourable outturn forecast for 2021/22 of £1.4m is the result of reduced activity, in some considerable part due to the continued impact of

Covid-19. This saving is distributed across much of the contracted services including NHS Health Checks, Sexual Health and the Children and Young people contract that is in the first year. All of the saving will be placed within the Public Health Reserve at the end of the year.

76. In addition to the Public Health revenue budget there is planned spend of £2.5m from the Reserve of which £1.5m is for one off spend primarily relating to trying to catch up with activity not undertaken during the height of the Covid-19 pandemic. The residual £1m is just the first year of planned investment as part of a longer term programme in Public Health to deliver longer term efficiencies through greater alignment with Council Directorates as well as the NHS.
77. The closing balance of the Public Health reserve is currently forecast to be £7.8m by 31 March 2023, a reduction of £1.1m from the £8.9m opening balance. As previously stated, this resource will be utilised in future years to continue to deliver transformational change in addition to providing one off funds to catch up on key contracted services that delivery of has slowed during the pandemic.
78. All additional expenditure pertaining to Public Health in continued response to the Covid-19 pandemic has been managed within the specific grants that have available in year including the Contain Outbreak Management Fund, Test and Trace grant and the Practical Support grant.

Section G: 2023/24 Revenue Budget Pressures and Initiatives

79. As outlined within Section F, the Directorate business as usual position is currently showing a forecast pressure of £8.1m in 2022/23. Of this total £7m relates specifically to care provision. At the start of 2022/23 an additional £35m of additional support was planned for, the £7m pressure therefore reflects a total pressure of £42m compared to the previous forecast. Correspondingly this level of increase in costs will only have a part year effect in 2022/23 and will therefore lead to a further additional pressure in 2023/24.
80. In summary it had previously been forecast that the £35m pressure in 2022/23 would increase to £45m in 2023/24. Working from the same baseline the current forecast for 2023/24 is a pressure of up to £59m which represents an increase of £14m on the previous forecast of £45m. Please note the likely pressure is held entirely within the budgets for Older Adults and Younger Adults care packages with Younger Adults being the main cause for the additional increase of up to £14m. All other service areas of the Directorate, including Public Health, are not currently anticipated to be a pressure for 2022/23 or beyond.

ADULT SOCIAL CARE

81. The anticipated spend on Older Adults care packages included within the proposed budget for 2023/24 is broadly in line with the previous forecast

pressure for 2023/24, although this is subject to delivery of all savings as currently planned and detailed later within the report.

82. The position for Younger Adults care packages is more complex. The position has been monitored carefully throughout the year and up to month 6 the combined position for Older and Younger Adults had broadly been in line previous forecast assumptions, albeit with Older Adults being less of a pressure thereby offsetting the increase in pressure within Younger Adults. From month 6 the Older Adults forecast pressure has continued to increase up to the level previously assumed, largely caused by a faster than expected increase in client numbers and a persistent increase in the average rate paid for care purchased, due to cost of living changes. Younger Adults in the same timeframe also continued to increase, giving rise to the current position where there is an up to £14m full year effect additional potential pressure in 2023/24.
83. The cause of this additional pressure in Younger Adults is due both to increases in 2022/23 and expected new increases in 2023/24 and are set out below:
- Additional inflationary uplifts agreed Corporately to specific providers during 2022/23 with a full year effect of £2.6m in 2023/24.
 - Increase in the number of high cost clients, often in crisis that needed immediate specialist placements. There has been an increase of over 10 clients with a package of over £3,000 per week since July 2022.
 - Increase in the average price paid for care due to inflationary pressures that providers have passed on to the Council, that if not met could lead to clients being handed back with the risk that the replacement package would be significantly higher in cost.
 - The expected cost of known clients transitioning to adults during 2023/24 is more than double the level the Directorate has seen in previous years.
84. This position, including growth in prices and volumes will be monitored closely throughout the remainder of the current year to better assess the likely pressure in 2023/24. However, it should also be noted that the level of general inflation is significantly impacting providers, alongside severe difficulties in securing staff at reasonable hourly rates, both of which will represent a significant challenge in 2023/24 in comparison to the funding the County Council has available for annual uplifts. There is a very real risk that further pressures could materialise during 2023/24 should these issues persist.

PUBLIC HEALTH

85. Whilst it is expected that the Public Health Grant will be increased for inflation in 2023/24 a confirmed allocation has not yet been provided. In the absence of confirmed allocations for local authorities, the Public Health grant for 2022/23 had been assumed as the starting point for this budget setting round. The grant allocation for 2022/23 is £54.4m for Hampshire County Council. Should the ring-fenced grant allocation increase from this level this will be reflected

within the Public Health budget for 2023/24 at a later date alongside all other confirmed grants for Public Health in 2023/24.

86. It should be noted that any inflation included within the 2023/24 allocation will need to be sufficient to offset the cost of the NHS pay award in the same year where it is the responsibility of the Public Health budget to fund the associated NHS provider cost increases. Any shortfall will represent a recurrent pressure that would need remedial action to resolve. In the short term this pressure could be met from the Public Health reserve.
87. During 2022/23 the Public Health Team have developed a specific plan to utilise the balance of funds available within the Public Health Reserve over the next 3 years. As highlighted previously the starting reserve balance for 2023/24 is forecast to be £7.8m which is more than sufficient for the planned investment in transformational activity and any potential, as yet unidentified, pressure that could materialise within 2023/24.

Section H: Revenue Savings Proposals

88. Savings targets for 2023/24 were approved as part of the MTF5 by the County Council in July 2020. Proposals to meet these targets have been developed through the SP2023 Programme and were approved by Executive Members, Cabinet and County Council in October and November 2021.
89. It is anticipated within the 2023/24 proposed budget that full year savings of £34.8m will be achieved in 2023/24 from SP2023 with the shortfall of £5.9m against the target of £40.6m being met from the cost of change reserve in 2023/24 until the saving can be delivered in later years.
90. The main reasons for the shortfall relate to:
 - The challenges the Directorate faces to deliver savings on care during a period where client numbers and degree of complexity are significantly on the rise. This cost pressure has been further compounded by both the inflationary pressures providers of care are experiencing as well as the severe shortage in appropriate care staff leading to providers paying high agency costs in order to supply the required care. These factors lead to a further increase in the price paid by the Council for care and therefore makes savings delivery exceedingly challenging.
91. It is currently anticipated that all Tt2019 savings will be being complete by the end of 2022/23. Furthermore, it is anticipated within the 2023/24 budget that £11.4m of Tt2021 savings against a residual target of £12.2m will be achieved in 2023/24. The shortfall of £0.8m will be met from a combination of planned corporate cash flow support and the cost of change reserve.
92. Although these savings are built into the proposed 2023/24 budget it should be noted that a separate exercise to review all high risk savings across the County Council is currently being undertaken. The outcome of this review will be reported within the February report to Cabinet and Full Council.

93. Rigorous monitoring of the delivery of the programme will continue during 2023/24, to ensure that the Directorate is able to stay within its cash limited budget as set out in this report.

Section I: 2023/24 Review of Charges

94. For Adults' Health and Care, the 2023/24 revenue budget includes income of £88.4m from fees and charges to service users. This is an increase of £14.9m (20.3%) on the revised budget for 2022/23. This increase is largely reflective of the planned increase in benefits from April 2023 and the increasing volume of clients that the Directorate is supporting.
95. Details of current and proposed fees and charges for 2023/24 where approval is sought for changes are outlined in Appendix 2.
96. The charges proposed for eligible social care services reflect the full cost rate applicable for County Council clients where they are assessed as being able to afford this cost. Furthermore, where these services are purchased by external organisations this charge reflects the basic cost whereby additional specific charges will be levied dependent on the additional resources required to safely support the client.

Section K: Budget Summary 2023/24

97. The budget update report presented to Cabinet on 13 December 2022 included provisional cash limit guidelines for each Directorate. The cash limit for Adults' Health and Care in that report was £507.5m, a £62.4m increase on the previous year. The increase / decrease comprised:
- An increase of £58.5m as per the MTFs for corporate support to meet demography and complexity pressures
 - An increase of £26.9m for inflation
 - An increase of £2.6m as a result of an assumed increase in the BCF/IBCF grants
 - An increase of £14.9m as a result of a precept increase and grant draw for SP2023
 - A reduction of £40.6m for SP2023 savings
98. At that stage, the cash limit guidelines did not include the following items which have now been added (and will be included in the February budget report), increasing the cash limit to £506.1m:
- A reduction of £1.4m as a result of changes to national insurance and pension contributions
99. Appendix 1 sets out a summary of the proposed budgets for the service activities provided by Adults' Health and Care for 2023/24 and show that these are within the cash limit set out above.

100. In addition to these cash limited items there are further budgets which fall under the responsibility of Adults' Health and Care, which are shown in the table below:

	2023/24	
	£'000	£'000
Cash Limited Expenditure	674,273	
Less Income (Other than Government Grants)	(168,166)	
Net Cash Limited Expenditure		506,107
Less Government Grants:		
• Local Community Voices	(102)	
• Independent Living Fund	(4,082)	
• Improved Better Care Fund (incl. Winter Pressures)	(33,278)	
• War Widows Pension Grant	(482)	
• Social Care in Prisons Grant	(102)	
• Social Care Reform Grant	(3,209)	
• Health Watch	(579)	
• Vulnerable Persons Relocation Scheme	(149)	
• Afghan Project Integration Fund	(616)	
• Public Health Grant	(54,412)	
Total Government Grants		(97,011)
Total Net Expenditure		409,096

Section L: Consultation, Equalities and Climate Change Impact

101. Consultation on the budget is undertaken every two years when the County Council considers savings to help balance the budget. All savings proposals put forward by the County Council has an Equality Impact Assessment published as part of the formal decision making papers and for some proposals stage 2 consultations are undertaken before a final decision is made by the relevant Executive Member.

102. This report deals with the revenue budget preparation for 2023/24 for the Adults' Health and Care Directorate. This takes account of the savings proposals agreed by the County Council in November 2021 including the Equality Impact Assessments prepared at that time. Any revised impacts and subsequent consultation that has been required have been reported to the

relevant Executive Member as savings proposals have been further developed and implemented.

103. Hampshire County Council utilises two decision-making tools to assess the carbon emissions and resilience of its projects and decisions. These tools provide a clear, robust, and transparent way of assessing how projects, policies and initiatives contribute towards the County Council's climate change targets of being carbon neutral and resilient to the impacts of a 2°C temperature rise by 2050. This process ensures that climate change considerations are built into everything the Authority does
104. This report deals with the revenue budget preparation for 2023/24 for the Adults' Health and Care Directorate. Climate change impact assessments for individual services and projects will be undertaken as part of the approval to spend process. There are no further climate change impacts as part of this report which is concerned with revenue budget preparation for 2023/24 for the Adults' Health and Care Directorate.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

This report does not contain any new proposals for major service changes which may have an equalities impact. Proposals for budget and service changes which are part of the Savings Programme 2023 were considered in detail as part of the approval process carried out in Cabinet and County Council during October and November 2021 and full details of the Equalities Impact Assessments (EIAs) relating to those changes can be found in Appendices 4 to 8 in the November Council report linked below:

<https://democracy.hants.gov.uk/mgAi.aspx?ID=45388#mgDocuments>

For proposals where a Stage 2 consultation was required the EIAs are preliminary and will be updated and developed following this further consultation when the impact of the proposals can be better understood.

Budget Summary 2023/24 – Adults' Health and Care Directorate

* Only applicable to NHS Customers. Minimum rate - actual charge will be subject to individual need

Other charges

Service users' contributions for non-residential care (chargeable services) are calculated on the actual cost of the care provided to service users.

In line with corporate policy all other charges will be increased by an inflation rate of 9.2%.

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Lead Member for Adult Social Care and Public Health
Date:	24 January 2023
Title:	Capital Programme for 2023/24 to 2025/26
Report From:	Director of Adults' Health and Care and Director of Corporate Operations

Contact name: Graham Allen and Dave Cuerden

Tel: 03707 795574
03707 793845

Email: graham.allen@hants.gov.uk
dave.cuerden@hants.gov.uk

Purpose of this Report

1. The purpose of this report is to seek approval for the submission of the Adult Services and Public Health capital programme to the Leader and Cabinet.

Recommendation(s)

To approve for submission to the Leader and Cabinet:

2. To approve for submission to the Leader and Cabinet the capital programme for 2023/24 to 2025/26 as set out in Appendix 1 and the revised capital programme for 2022/23 as set out in Appendix 2.

Executive Summary

3. This report seeks approval for submission to the Leader and Cabinet of the proposed capital programme for 2023/24 to 2025/26.
4. The report has been prepared in consultation with the Executive Lead Member and will be reviewed by the Health and Adult Social Care Select Committee. It will be reported to the Leader and Cabinet on 7 February 2023 to make final recommendations to County Council on 23 February 2023.
5. The report considers the schemes which it is proposed to include in the capital programmes for 2023/24, 2024/25 and 2025/26 and also presents the revised programme for 2022/23.
6. This report highlights that as part of the Medium-Term Financial Strategy Update and Transformation to 2021 Savings Proposals Report that was approved by Cabinet in October 2019 investment of up to £70m in Older Persons and Younger Adults Extra Care was approved subject to a satisfactory business case being produced for each scheme.

7. The proposals contained in this report are derived from the departmental service plans which have been developed to support the priorities of the Strategic Plan.

Contextual information

8. Executive Members have been asked to prepare proposals for:
 - a locally resourced capital programme for the three-year period from 2023/24 to 2025/26 within the guidelines used for the current capital programme including the third year, 2025/26, at a similar level to 2024/25.
 - a programme of capital schemes in 2023/24 to 2025/26 supported by Government grants as announced by the Government.

The capital guidelines are determined by the Medium-Term Financial Strategy which is closely linked to 'The 'Serving Hampshire's Residents - Strategic Plan 2021 – 2025' with its strategic aims and Departmental Service plans to ensure that priorities are affordable and provide value for money and that resources follow priorities.

Locally resourced capital programme

9. The cash limit guidelines for the locally resourced capital programme for the Adult Services service set by Cabinet are as follows:

	£000
2023/24	481
2024/25	481
2025/26	481

10. Executive Members may propose supplementing their capital guidelines under the 'prudential framework' agreed by Cabinet at its meeting on 24 November 2003, as amended by Cabinet in February 2006, thereby integrating more closely decisions on revenue and capital spending in support of strategic aims. The additions may include virements from the Executive Member's revenue budget or use of temporary unsupported borrowing, to provide bridging finance in advance of capital receipts or other contributions.

Revised 2022/23 capital programme

11. The revised 2022/23 capital programme for Adults is shown in Appendix 2 and totals £35,176. The changes since the capital programme was approved in January 2022 are summarised below:

	2022/23
	£000
Approved Programme	14,733
Addition in year – Kershaw Centre	400
Carry Forward from 2021/22	<u>20,043</u>
Total	<u>35,176</u>

12. The schemes carried forward from previous years of £20.043m were agreed by Cabinet on 19 July 2022. These predominantly relate to the Extra Care Housing (£0.906m), Adults with a Disability Accommodation (£3.795m) and Younger Adults Extra Care, (£15.185m) programmes.
13. In addition to the carry forwards against schemes in the 2021/22 capital programme, Cabinet also agreed that unspent balances from starts within the capital programmes from prior years of £12.722m. This related to previously committed funding due to reduced costs on the Nightingale Lodge and Oak Park projects within the Extra Care Housing Transformation programme. This will enable additional projects to be completed against the funding for the programme of £45m that was agreed by County Council in February 2012, to be funded from prudential borrowing.

Health and Safety

14. A range of essential health and safety liabilities at our in-house residential care and nursing homes were identified through inspections at a total cost of £4.3m over two years. This was reported to Cabinet on 24 November 2020. This programme has been extended by a further £1.71m to reflect further works identified through a series of detailed asset management surveys across the estate. Accordingly, a programme of works is being undertaken as part of what was the Culture Communities and Business Services revenue budget with £1.71m that has been vired from the Adults' Health and Care Revenue Budget to fund the work.
15. This portfolio of buildings remains the highest priority in the HCC estate in terms of health and safety, compliance and operational risk management, with a consequential ongoing demand for routine and one-off investment in maintenance and improvement. It is anticipated that further requests for funding will be made as the estate continues to age and liabilities are identified.
16. Accordingly, any further requests for funding in the forthcoming year, as outlined above in paragraph 16, to support the maintenance of the estate, will also be informed by the review of the longer-term strategy to ensure that where appropriate, investment is targeted to sites that are included within the longer-term vision.
17. Additionally, it should be noted that the longer-term strategy for the portfolio of buildings will take into consideration the pressure highlighted within the Adult Services and Public Health Revenue Budget report, specifically where

internal provision, with capital investment may help to mitigate these revenue pressures.

Transformation of Adult Learning Disability Services

18. On the 27 October 2011, the Executive Member for Policy and Resources approved the Adult Learning Disability (LD) Business Case for the early implementation phase of LD transformation and the broader programme. The business case links to the consultation of the transformation proposals reported to the Executive Member for Adult Social Care on 16 May 2011.
19. The Executive Member for Policy and Resources Decision Day on 21 July 2011 approved that 100% of LD capital receipts to be reinvested in LD service re-provision.
20. The Executive member for Policy and Resources on 9 March 2017 approved the revised Business case plan. The financial position has evolved since October 2011 largely as a result of the value likely to be secured by selling surplus property and the consequent impact on prudential borrowing. The business case improved with the use of the Community Grant funding of up to £3.4m.
21. The LD Transformation programme has been successfully delivering capital projects to update and improve the department's LD estate. In that time the programme has successfully delivered eight schemes through the delivery of new facilities and significant improvements to existing assets. The programme has one further scheme in its programme and is now operating within budget.
22. During 2022/23 the Executive Director for Adults' Health & Care, under delegated powers agreed for the addition of a £0.4m scheme within the LD Transformation programme to make necessary improvements to the Kershaw Centre to make it suitable for Day Opportunities use. The scheme is to be funded wholly by capital receipts.

Older Persons Extra-Care Housing

23. On the 24 October 2011 Cabinet approved the strategy to extend the development of Older Persons Extra-Care Housing. This included approval of an indicative maximum financial envelope of £45m of capital investment to deliver the programme of work, including transition cost.
24. Capital funding for the extensions to Westholme, Winchester and Oakridge, Basingstoke of £3m was formally approved by the Executive Member for Policy and Resources on 24 January 2013.
25. A review of the Older Persons Extra-Care programme was undertaken in early 2016 and the Executive Member for Policy and Resources reaffirmed the Older Persons Extra-Care programme to the original £45m capital envelope. With this in mind, further work on the remaining programme and project opportunities is being undertaken to ensure the most cost-effective programme is identified. Capital funding for future Extra-Care developments will be subject to the development of individual business cases.

26. On 26 September 2018 the Executive Member for Policy and Resources identified three sites for development opportunities in Gosport, New Milton and Petersfield, of which the latter is going through the planning process whilst the former two are in construction. This is in addition to previously approved schemes in other parts of the county, including the Nightingale site in Romsey, which was completed in the 2020/21 financial year.

Younger Adults Extra-Care Housing

27. The Executive Member for Policy and Resources approved the strategic business case for the Adults with a Disability Housing programme in April 2016. The business case approved a borrowing envelope of up to £35m to support the programme to transition service users with a learning and/or physical disability from an existing care home setting to a shared house or individual groups of flats.
28. An update was taken to the Executive Member for Policy and Resources in July 2020, which outlined the progress of the delivery of the last of three tranches of new or refurbished accommodation. The current position is below:

	£000
Spend Tranche 1-3: Complete	29,900
Deregistration allocation:	428
Re-provision allocation:	650
Land Value Transfer:	1,300
Unallocated budget remaining:	2,722
Total	35,000

After spending across the three tranches, and allocated funds for planned and approved future spend, there is currently £2,722m left unallocated from the originally agreed funding approval of £35m.

In addition, during 2021/22 a further £15.185m funding had been approved to be added to this programme. Plans for additional schemes up to the value of the £15.185m and any underspend from the original £35m, inclusive of the currently unallocated £2.722m will continue to be developed. In accordance with financial procedures each individual new scheme will be added to the programme subject to approval of an appropriate business case.

Proposed capital programme 2023/24 to 2025/26 – locally resourced schemes

29. The Adult services capital programme for locally resourced schemes reflects the strategic aims of enabling people to live safe, healthy and independent lives, enjoy a rich and diverse environment and be part of a strong and inclusive community. It includes contributions towards the costs of the following:

- Priority works on residential and nursing care premises to meet the needs of residents and service users to satisfy the requirements of regulators including the Care Quality Commission, The Fire Service and the Health and Safety Executive.

30. The detailed programme in Appendix 1 and expenditure for 2023/24 is summarised in the table below:

	£000
Operational building, including residential and nursing care, improvements	481
Total 2023/24 Budget	481

Capital programme supported by Government allocations

31. The locally resourced capital programme is supported by Government grant received from the Department for Levelling Up, Housing and Communities. In 2022/23 the amount of capital funding to Adult Services was £14.252m for the Disabled Facilities Grant (DFG). This funding forms part of the Better Care Fund – Pooled budget which is overseen by the Hampshire Health and Wellbeing Board.
32. The Secretary of State has not yet announced details of individual local authority capital allocations for 2023/24 or beyond. For planning purposes 2022/23 allocations are being assumed.
33. The DFG of £14.252m is capital money made available to local authorities as part of their allocations to award grants for changes to a person's home. There is a statutory duty for local housing authorities to provide grants to those who qualify. This part of the fund will be governed by the disabilities facilities grant conditions of grant usage as made by the Department for Levelling Up, Housing and Communities under section 31 of the Local Government Act 2003. Therefore, although officially part of the fund, the money cannot be used for other things and will be paid back out of the fund to the relevant district councils.

Capital programme summary

34. On the basis of the position outlined above, the total value of the capital programmes submitted for consideration for the three years to 2025/26 are:

	Schemes within locally resourced guidelines	Additional schemes funded within the prudential framework	Schemes supported by Government allocations (assumed)	Total
	£000	£000	£000	£000
2023/24	481	-	14,252	14,733
2024/25	481	-	14,252	14,733
2025/26	481	-	14,252	14,733

Revenue implications

35. The revenue implications of the proposed capital programme are as follows:

	Full Year Cost	
	Current Expenditure £000	Capital Charges £000
Schemes within the guidelines		
2023/24	-	22
2024/25	-	22
2025/26	-	22
	-----	-----
Total	-	66
	-----	-----

Conclusions

36. The proposed capital programme for Adult Services as summarised in paragraph 11 is in line with the guidelines set by Cabinet. In addition, it plans to use the allocated Government grants in full. The programme supports the delivery of services countywide and contributes to the strategic aims:

- Hampshire maintains strong and resilient economic growth and prosperity
- People in Hampshire live safe, healthy and independent lives.
- People in Hampshire enjoy a rich and diverse environment.
- People in Hampshire enjoy being part of strong, inclusive, resilient communities.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation).
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it.
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic.
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it.
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

Equalities Impact Assessments outcomes will be carried out on the individual schemes within the capital programme in order to comply with the requirements of the Equality Act 2010

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker	Executive Lead Member for Adult Services and Public Health
Date:	24 January 2023
Title:	Funding for Capital Grant for Drug / Alcohol Inpatient Detoxification Unit
Report From:	Director of Public Health

Contact name: Ileana Cahill, Public Health Principal

Tel: 0370 779 0499 **Email:** ileana.cahill@hants.gov.uk.

Purpose of this Report

1. The purpose of this report is to seek approval for grant funding to support the commissioned inpatient medically managed drug / alcohol detoxification services (provided by Inclusion, Midlands NHS Foundation Trust). The funding is part of the grant funding from Office for Health Improvement & Disparities (OHID).

Recommendation(s)

2. That the Executive Lead Member for Adult Services and Public Health approves the grant funding for one-off works of up to a maximum amount of £100,268 to be awarded to Midlands Partnership NHS Foundation Trust as detailed in this report.
3. That the Executive Lead Member for Adult Services and Public Health delegates authority to the Director of Public Health to finalise the proposals for works and the amount of the grant up to the maximum approved.

Executive Summary

4. The government has allocated additional funding to all local authorities in England to increase the capacity of inpatient medically managed drug / alcohol detoxification. This report seeks approval of grant funding (of up to £100,268) to be allocated to the locally commissioned inpatient medically managed drug / alcohol detoxification service (provided by Inclusion, part of Midlands NHS Foundation Trust). The grant funding will only be spent on one-off works (deemed to be capital by the Provider).

Contextual information

5. In 2021/22 funding was made available nationally by OHID to all local authorities to increase the capacity of inpatient medically managed detoxification Services. A medically managed drug / alcohol detoxification unit can deal with complex physical, mental health and behavioural issues and provide 24-hour nursing care. Medically managed detox provision for the most complex individuals is delivered by the NHS. While there are other, non-NHS medically managed inpatient detox units, it is only the NHS inpatient units that are Consultant Psychiatrist-led, enabling the NHS units to manage the most complex patients that other lower-level detoxification service providers feel unable to support. In 2021/22 the Central South Coast Consortium (comprising of 20 local authorities) was established with Hampshire as the lead authority. Funding from the consortium was pooled to open a new detoxification unit in Hampshire. This was the only unit in the country to be established with this funding, opened by Dame Carol Black who undertook an independent review of drug prevention, treatment, and recovery which contributed to the development of the government's drug strategy.
6. When the funding was extended for 2022/23 the consortium worked together to commission an inpatient drug / alcohol detoxification service in Hampshire. In July 2022, the Executive Member for Adults Health & Care & Public Health approved spend of this funding for drug / alcohol detoxification services.

Finance

7. Additional grant funding of up to £100,268 will be awarded to Midlands Partnership NHS Foundation Trust, who is the provider of inpatient detoxification services on behalf of the Central South Coast Consortium. The funding must be spent in this financial year (before the end of March 2023). All spend must be accounted for by the provider and evidenced in the provider's ledger. Any underspend or expenditure which cannot be accounted for will be transferred back to OHID.
8. Proposals for the grant funding by the provider must be agreed in advance with the Director of Public Health.

Legal

9. Under the NHS Act 2006 each local authority must take such steps as it considers appropriate for improving the health of the people in its area. This can include making grants.

Consultation and Equalities

10. The impact of the service will allow for better access locally to inpatient detoxification and improved pathways of care for individuals with complex needs. This will have a positive impact for those with complex needs and a substance misuse addiction and those living in areas of deprivation where there are higher levels of alcohol / drug harm. An additional Equality Impact Assessment will be undertaken once exact nature of projects agreed.

Climate Change

11. Hampshire County Council utilises two decision-making tools to assess the carbon emissions and resilience impacts of its projects and decisions. These tools provide a clear, robust, and transparent way of assessing how projects, policies and initiatives contribute towards the County Council's climate change targets of being carbon neutral and resilient to the impacts of a 2°C temperature rise by 2050. This process ensures that climate change considerations are built into everything the Authority does.
12. The decision is strategic/administrative in nature and does not have any climate change considerations. However, having a local detox unit will prevent Hampshire residents from travelling out of county for treatment.

Conclusions

13. To approve the grant funding for 2022/23 which will enhance the existing commissioned inpatient detoxification service in Hampshire.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

- 2.1 The impact of the service would allow for better access locally to inpatient detoxification and improved pathways of care for individuals with complex needs. Unwell individuals will no longer need to travel extensively, and local substance misuse services will be able to ensure robust pathways into and out of detoxification to access additional support. This will have a positive impact for those with complex needs and a substance misuse addiction and those living in areas of deprivation where there are higher levels of alcohol / drug harm. A local service within Hampshire will improve access to treatment.

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Member for Younger Adults and Health and Wellbeing
Date:	24 January 2023
Title:	Demand Management and Prevention Grant Award
Report From:	Director of Adults' Health and Care

Contact name: Sarah Snowdon
Peter Stokes

Tel: 0370 779 1037

Email: Peter.Stokes@hants.gov.uk

Purpose of this Report

1. The purpose of this report is to seek approval for making a grant award to the voluntary and community organisations outlined in this report as part of the Demand Management and Prevention Programme

Recommendation(s)

2. That approval be given by the Executive Member for Younger Adult's and Health and Wellbeing for the following actions:
 - i) To award grants totalling £86,654 to cover a range of time periods between February 2023 and July 2024 as part of the Local Solutions Fund (as detailed in appendix A).

Executive Summary

3. This report seeks to:
 - Set out the background to the grants
 - Set out the reason for the recommendations
 - Consider the finance for the project
 - Look at key issues

Contextual information

Background

4. The Voluntary and Community Sector (VCS) contributes to improving people's quality of life. The grants programme is one of the ways in which the County Council supports the sector to support people to live fuller more independent lives.

5. A voluntary organisation may be considered for grant aid from the County Council only if its services, projects or activities are in compliance with the aims and objectives, priorities and policies of the County Council.
6. Grants are awarded to support services that are better provided by the voluntary sector e.g. the mobilisation of community resources to help vulnerable people maintain their independence.
7. A grant is defined as a sum of money to support a particular activity. It does not usually cover the entire cost of the activity and it is legally considered to be a one-sided gift, rather than a payment in exchange for services.
8. Voluntary and community organisations provide valuable locally based services that are often rooted in the communities which they serve. Significant benefit is produced through this activity, often through voluntary action and focused towards activity that clearly assists in providing early intervention and prevention initiatives. Grant funding by the County Council contributes to, and helps sustain, this activity.
9. As grants are a contribution to service or activity costs the economic benefit to the directorate can be significant, leveraging in additional funding, the benefit of volunteer time and therefore providing good value for money to the authority.
10. Organisations will not normally be eligible for grants where they hold balances in excess of one year's running costs. Those organisations receiving recurring funding which hold in excess of three months' running costs, and where they cannot demonstrate through their reserves policy that these reserves are justified, may receive a reduced grant. To establish the level of reserves, organisations are required to provide a set of their latest accounts and annual report with their application and before grant payment is made – in the case of organisations with an income of £10,000 or above, these must be independently examined or audited. If organisations have reserves in excess of three months, we will apply the reserves policy which is in line with the Charity Commission's policy on these matters.

Demand and Prevention Programme

11. Prevention, incorporating Demand Management is one of the three key areas identified to achieve the Vision of Adults' Health and Care, as detailed in the Adult's Health and Care Strategy 2018.
12. The Demand Management and Prevention work will build on people's strengths, enabling them to improve their health and take more personal responsibility for looking after themselves with support from their family, friends and community network. The Council will encourage this by making the healthy choice the easy choice and developing accessible, inclusive and readily available information and advice services. The Council will also carry out targeted prevention work for certain groups of people who are most at risk of poor health to keep them well and to avoid or delay the need for social care services. The Council will work with partners, in particular the NHS, GPs and the Voluntary sector to achieve the above aims.

Local Solutions Grant

13. It is recognised that across Hampshire there are local initiatives, support networks and services achieving positive outcomes for adults every day. A strength-based approach values these local provisions and seeks to enable them to further develop, be sustained and grow. This approach recognises that the County Council is often not the only, or the best, source of help for local people.
14. Local Solutions Grants seek to fund projects, which over time will reduce the demand seen on Hampshire County Council statutory services and support participants to live healthy and independent lives for as long as possible. Grants are awarded to projects operating in a specific location with one off funding given. All Local Solutions applicants are expected to demonstrate how the project will be sustained in the long term, beyond the life of the grant.
15. Services developed through the Local Solutions locality focused approach, are likely to enable early prevention support, as well as shaping options which may be attractive alternatives to some traditional services currently available for individuals, carers and families. The prioritisation of localities to focus upon within this approach has been informed by data on demographics, existing and projected social care demand, and feedback from stakeholders. This will help to ensure that local people have effective support available now and into the future.
16. The focus and criteria for each Local Solution Grant has been shaped by engagement with local stakeholders. This engagement has informed identification of the local priorities, the outcomes which are important to be achieved and the potential type of solution which could be developed. They are also aligned to the NHS programme to support self-management, which assists individuals to remain independent and minimising their need for social care. Some grants are more specific in what is being asked to be delivered and others outline more generally the focus of the change required. Across all, it will be looked for the successful bidder(s) to ensure local insight and expertise continue to shape the support and services as they further develop, in order to deliver positive outcomes. Local stakeholders and local Adult's Health and Care Community Teams were involved in the decision making to ensure that the grants recommended meet the community need.
17. In this paper Local Solutions grants are being proposed supporting older and vulnerable adults with a range of bespoke solutions and services across numerous localities in Hampshire. The grants within this paper reflect the innovation, flexibility and project sustainability which are characteristic of Local Solutions application and full details of the grants being proposed are contained in Appendix A of this paper

Grants for Consideration In this report (Additional Information in Appendix A) are as follows:
18. Hatch Warren Community Association (£14,980) – A project to support carers of young adults with learning disabilities across the Basingstoke district. Project will offer one-to-one intensive support and facilitated peer support activities and seeks to support approximately 50 carers to increase

confidence, skills, access to information, as well as increased mental and physical health and wellbeing. Hatch Warren Community Association currently deliver a successful independent living skills project for young adults with learning disabilities and through this project the need to support carers has been identified, which this project seeks to address.

19. SOCO Music Project (£4950) – A project to support 30 carers across a number of districts through a wellbeing singing programme. The project would offer respite support through the medium of facilitated singing and music session with a strong element of peer support build into the programme to strengthen the support networks for those carers involved.
20. Princess Royal Trust For Carers (£29,724) - A project which seeks to support 100 carers across various districts to respond to the increasing complexity of need and increasing demands and pressure placed upon informal carers. Offering specialist support and working with carers in crisis, through one-to-one support, signposting and advocating, the intention is that this provision will support potential carer breakdown which in turn will prevent cared for person's social care needs escalating. This project seeks to complement and respond to rising demand placed upon carers and will work alongside other carer support services being provided across the districts.
21. Recapture Life CIC (£21,000) – A project which would support structured independent living skills workshops alongside peer support groups for those living with dementia and their carers. Run by qualified CST therapists, sessions will aim to boost and maintain cognitive function whilst also building relationships to reduce social isolation and loneliness in participants. Skills workshops will be driven by the needs of those participating but will have the primary outcomes of ensuring people feel supported and are able to live safely and independently in their homes for as long as possible. Support for carers is a key element of the project not only providing peer support but also respite opportunities and the chance to connect to others with the same lived experiences.
22. Happy Healthy Healing Hut (£16,000) – A project builds on the successful (but now complete) project of the same name funded through Get Going Again (GGA) Grant Fund, extending it to the areas of Havant and East Hants where significant demand for the service is being seen from HCC Social Care Teams. The project would fund 12 sessions of intensive support from qualified therapists to around 50 housebound and vulnerable adults in the districts. Sessions focus on breaking down barriers to engagement in their communities and boosting confidence to achieve goals set around a strengths based approach. Whilst modelled on the GGA grant project if funded this project would develop to take in learnings from that and will focus support on those aged 70+ which is where greatest benefit is seen and take primary referrals from HCC Teams where demand is currently greatest.

Finance

23. The grant proposal in this report will commit additional expenditure totalling £86,654 over the financial years 2023/24 and 2024/25. Subject to approval of this report the total grants committed for payment will remain within the

agreed, (2023/24 & 2024/25) annual budget envelopes for the Demand Management and Prevention Programme.

24. Payments will be made in 2 instalments for all grants approved in this report. All Grant Agreements have conditions that enable the County Council to require repayment of the award or any part of it if it remains unspent at the end of the grant period, or if there is a material breach of the grant agreement.

Performance

25. The provision of grants to voluntary and community sector organisations by statutory bodies always presents a degree of risk. Specific risks that statutory bodies are required to manage include voluntary and community organisations accepting funding without providing any activity; organisations not delivering the service as expected; and there being an under spend on the expected activity. This applies to all grants however; larger grants represent a potentially higher risk to the County Council.
26. A number of mechanisms have been employed successfully over a number of years to mitigate and alleviate these risks. These include nominating a liaison officer from the County Council whose responsibility is to monitor how the grant is spent, specifying within the grant agreement that the grant is 'restricted' funding for the provision of the specified activity only and phasing the payment of grants over the course of the award duration.
27. A comprehensive evaluation assessment tool has been developed and is in use for the beneficiaries of previous grant rounds, ensuring consistency of data capture. As part of the application process the measurement of outcomes has been discussed with the applicants, and has been informed by County Council staff who are experienced in the monitoring and collection of demand management and prevention outcomes.
28. All organisations awarded a grant sign a declaration stating they accept that grant funding can only be awarded for the given period and no commitment exists from the County Council to continue funding after this time, or in subsequent years.

Consultation and Equalities

29. It is for the Executive Member as decision maker to have due regard to the need to: eliminate discrimination, harassment, victimisation and any other conduct prohibited under the Equality Act and advance equality of opportunity and foster good relations between persons who share a relevant protected characteristic and persons who do not share it.
30. All grants included for consideration in this report represent additional facilities and services for those they serve and a full Equalities Impact Assessment has been completed to capture the benefits for each group, which can be found as an appendix to this report. In summary the grants recommended in this report have been assessed to have a positive impact to the characteristics of age, disability and sex, as well as having a positive

impact on poverty, as they are increasing the access to services that will benefit these groups.

Climate Impact Assessment

31. Hampshire County Council utilises two decision-making tools to assess the carbon emissions and resilience of its projects and decisions. These tools provide a clear, robust, and transparent way of assessing how projects, policies and initiatives contribute towards the County Council's climate change targets of being carbon neutral and resilient to the impacts of a 2°C temperature rise by 2050. This process ensures that climate change considerations are built into everything the Authority does.
32. A full assessment of climate change vulnerability was not completed as the initial vulnerability assessment showed that the project is at minimal risk from the climate vulnerabilities because the projects delivered will be operated from premises not owned by the County Council or the organisation in receipt of the grant.

Conclusions

33. The Local Solutions Grant continues to offer local organisations in the voluntary and community sector, the opportunity to fund their projects to the benefit of local residents in a local way to address the specific needs of communities in each district. The grants proposed in this paper have a range of benefits and outcomes but all seek, as a minimum to reduce social isolation and loneliness and connect participants to their local communities and support networks.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

The award of grants to the voluntary and community sector to support people to live long, healthy and happy lives with the maximum possible independence, as part of the demand management and prevention programme and in-line with Adult's Health and Care Strategy 2018.

Grants in this paper:

Local Solutions Grants, covering the districts of Basingstoke and Deane, Eastleigh, East Hampshire, Fareham, Gosport, Havant, New Forest, Test Valley and Winchester - period February 2023 – July 2024. Total Pot: £86,654

Geographical impact: Grants in this paper are recommended for award, which if approved will provide additional services, beyond what is already available in the districts of: Basingstoke and Deane, Eastleigh, East Hampshire, Fareham, Gosport, Havant, New Forest, Test Valley and Winchester.

Proposed Change: The grants proposed in this paper all represent new services which were not previously funded and therefore are of additional benefit to those they seek to serve.

The Local Solutions fund continues to offer funding to projects which support a diverse range of Hampshire residents, and does so in collaboration with Social Care Teams, health partners and the community and voluntary sector.

Will the proposed project/service change affect people in the protected characteristics groups or any of the other groups for consideration? No

Who does this impact assessment cover?: All

Has engagement or consultation been carried out?: Yes

Describe the consultation or engagement you have performed or are intending to perform:

The Local Solutions Grant application process is designed to enhance collaboration between HCC and the applicant every step of the way. Throughout the application process, the grants within this paper were shaped in order to ensure the outcomes proposed align with the Adults Health strategy and deliver the maximum benefit for participants.

A key focus for DM&P at the current time is building and strengthening relationships with the local districts across Hampshire. The individual districts have been consulted with on each project which impacts their locality for their thoughts and suggestions to ensure the maximum benefit across multiple levels of Local Government.

Finally various HCC teams have been involved with the shaping of the projects outlined in this report. An example of this is with the Happy Healthy Healing Hut application which was work on in collaboration between the organisation and DM&P at the request of the local social care team who identified this as a needed service for their vulnerable client base.

Age public impact: Positive

Age staff impact: Neutral

Assessment Rationale: All projects suggested for funding have a primary target audience of Older Adults (70+), though will also be support those who meet the criteria in younger age demographics. As an example the Happy Healthy Healing Hut project specifically seeks to support adults 70+ with support sessions aimed at boosting confidence, social connectivity and improving health and wellbeing outcomes. This project has been requested by the Adults Social Care Teams as they are seeing an increase in isolation and vulnerability in older adults in certain geographic locations which this project seeks to address.

Disability social impact: Positive

Disability staff impact: Neutral

Assessment Rationale: A number of the projects proposed support those with physical and learning disabilities across multiple districts. Provision is also being made to improve services for carers of those living with physical and learning disabilities to ensure comprehensive peer support and minimise the risk of carer breakdown. The Hatch Warren Community Association project seeks to support carers of those with learning disabilities and will build on their very successful independent living skills project which is ongoing, in order to offer a more comprehensive level of support. The Recapture Life CIC project supports those with dementia and their carers/ support network to build emotional resilience and support with lifestyle adjustments to ensure participants are able to live as healthily and independently for as long as possible.

Sexual orientation public impact: Neutral

Sexual orientation staff impact: Neutral

Assessment rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of sexual orientation.

Race social impact: Neutral

Race staff impact: Neutral

Assessment Rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of race.

Religion or belief social impact: Neutral

Religion or belief staff impact: Neutral

Assessment Rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of religion or belief.

Gender reassignment public impact: Neutral

Gender reassignment staff impact: Neutral

Assessment Rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of gender.

Sex public impact: Positive

Sex staff impact: Neutral

Assessment rationale: All projects outlined for approval are open to all irrespective of sex. The Recapture Life CIC project will fund a number of workshops and support groups for those caring for people with dementia, some of which will be specifically targeted towards male carers. Feedback from those who have engaged with the organisation previously was that many men feel current support groups do not meet their specific needs and so targeted and tailored provision will be made in order to address this specific concern.

Marriage or civil partnership: Neutral

Marriage or civil partnership: Neutral

Assessment Rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of marriage or civil partnership status.

Pregnancy and maternity public impact: Neutral

Pregnancy and maternity staff impact: Neutral

Assessment rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of pregnancy or maternity.

Poverty public impact: Positive

Poverty staff impact: Neutral

Assessment Rationale: The proposed Recapture Life CIC provides a number of support services for those living with dementia and their carers. One element of this support is financial in order to support with applications for benefits/grants, household financial management in light of their diagnosis and support with managing associated costs.

Rurality public impact: Neutral

Rurality staff impact: Neutral

Assessment rationale: Whilst none of the projects recommended for funding specifically support people within this defined characteristic, they are all open to those who need support irrespective of rurality.

APPENDIX A

LOCAL SOLUTIONS GRANT RECOMMENDATIONS BY AREA

Grant 1

Organisation: Hatch Warren Community Association

Project Title: Adult Carer Support Project

Area: Basingstoke

Amount: £14,980 (Duration 18 months)

Project Description: Project to support carers of young adults with learning disabilities across the Basingstoke district. Project will offer one-to-one intensive support and facilitated peer support activities, and seeks to support approximately 50 carers to increase confidence, skills, access to information, as well as increased mental and physical health and wellbeing. Hatch Warren Community Association currently deliver a successful independent living skills project for young adults with learning disabilities and through this project the need to support carers has been identified, which this project seeks to address.

Grant 2

Organisation: SOCO Music Project

Project Title: Music For Carers

Area: Eastleigh, New Forest and the Romsey area of Test Valley District

Amount: £4950 (Duration 12 months)

Project Description: Project to support approximately 30 carers across varying districts through a wellbeing singing programme. The project would offer respite support through the medium of facilitated singing and music sessions with a strong element of peer support built into the programme to strengthen the support networks for those carers involved. SOCO music will work in partnership with various carer support organisations to deliver this project and to maximise outcomes for those participating in the project.

Grant 3

Organisation: Princess Royal Trust For Carers

Project Title: Complex Carer Support Worker

Area: Winchester, Eastleigh and Test Valley Districts

Amount: £29,724 (Duration 12 months)

Project Description: A project which seeks to support 100 carers across various districts to respond to the increasing complexity of need and increasing demands and pressure

placed upon informal carers. Offering specialist support and working with carers in crisis, through one-to-one support, signposting and advocating, the intention is that this provision will support potential carer breakdown which in turn will prevent cared for person's social care needs escalating. This project seeks to complement and respond to rising demand placed upon carers and will work alongside other carer support services being provided across the districts.

Grant 4

Organisation: Happy Healthy Healing Hut

Project Title: Support Back To Independence

Area: Havant and East Hants District

Amount: £16,000 (Duration 18 months)

Project Description: Project builds on the successful (but now complete) project of the same name funded through Get Going Again (GGA) Grant Fund, extending it to the areas of Havant and East Hants where significant demand for the service is being seen from HCC Social Care Teams. The project would fund 12 sessions of intensive support from qualified therapists to around 50 housebound and vulnerable adults in the districts. Sessions focus on breaking down barriers to engagement in their communities and boosting confidence to achieve goals set around a strengths based approach. Whilst modelled on the GGA grant project if funded this project would develop to take in learnings from that and will focus support on those aged 70+ which is where greatest benefit is seen and take primary referrals from HCC Teams where demand is currently greatest.

Grant 5

Organisation: Recapture Life CIC

Project Title: Dementia Support Together

Area: Havant, Fareham and Gosport Districts

Amount: £21,000 (Duration 12 months)

Project Description: Project which would support structured independent living skills workshops alongside peer support groups for those living with dementia and their carers. Run by qualified CST therapists, sessions will aim to boost and maintain cognitive function whilst also building relationships to reduce social isolation and loneliness in participants. Skills workshops will be driven by the needs of those participating but will have the primary outcomes of ensuring people feel supported and are able to live safely and independently in their homes for as long as possible. Support for carers is a key element of the project not only providing peer support but also respite opportunities and the chance to connect to others with the same lived experiences.
