

NOTICE OF MEETING

Meeting	Executive Lead Member for Children's Services and Young People Decision Day
Date and Time	Wednesday, 11th November, 2020 at 2.00 pm
Place	Virtual Teams Meeting – Microsoft Teams
Enquiries to	members.services@hants.gov.uk

John Coughlan CBE
Chief Executive
The Castle, Winchester SO23 8UJ

FILMING AND BROADCAST NOTIFICATION

This meeting is being held remotely and will be recorded and broadcast live via the County Council's website.

AGENDA

DEPUTATIONS

To receive any deputations notified under Standing Order 12.

KEY DECISIONS (NON-EXEMPT/NON-CONFIDENTIAL)

1. PROPOSED CHANGES TO THE SHORT BREAK ACTIVITIES PROGRAMME AND CONSULTATION OUTCOMES (Pages 3 - 210)

To consider a report of the Director of Children's Services regarding the Short Break Activities Programme and consultation outcomes.

2. CHILDREN'S SERVICES CAPITAL PROGRAMME UPDATE (Pages 211 - 220)

To consider a report of the Director of Children's Services and Director of Corporate Resources – Corporate Services regarding the Children's Services Capital Programme.

NON KEY DECISIONS (NON-EXEMPT/NON-CONFIDENTIAL)

None

KEY DECISIONS (EXEMPT/CONFIDENTIAL)

None

NON KEY DECISIONS (EXEMPT/CONFIDENTIAL)

None

ABOUT THIS AGENDA:

On request, this agenda can be provided in alternative versions (such as large print, Braille or audio) and in alternative languages.

ABOUT THIS MEETING:

The press and public are welcome to observe the public sessions of the meeting via the webcast.

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Lead Member for Children's Services and Young People
Date:	11 November 2020
Title:	Proposed changes to the Short Break Activities Programme and consultation outcomes
Report From:	Director of Children's Services

Contact name: Sarah Roberts, Business Change Manager, Children's Services

Tel: 0370 779 0175

Email: sarah.1.roberts@hants.gov.uk

Purpose of this Report

1. The purpose of this report is to share the outcome of the public consultation held between March and July 2020 on the proposed changes to the Short Break Activities Programme. Furthermore, this report seeks approval to progress proposals for changes to the Short Break Activities Programme and how it could operate from April 2021.

Recommendations

2. To ensure that a Short Break Activities Programme for Children with Disabilities can be provided from April 2021 within a reduced budget, and taking into account relevant information and the outcomes of the public consultation, it is recommended that approval is given to take forward the proposed changes to the Short Break Activities Programme as follows:
 - a) Proposal One: To reduce the overall annual grant awarded to provide Short Break Activities to £539,500. **Recommended for implementation.**
 - b) Proposal Two: To primarily accept funding applications that meet the core Short Break Activity priorities but retain a small 'exceptions' fund of £20,000 per annum. **Recommended for implementation.**
 - c) Proposal Three: To require Short Break Activity providers to secure a minimum level of funding from other sources. **Not recommended for**

implementation. Two-year grant funding in next round, in response to feedback: **Recommended for implementation.**

- d) Proposal Four: To reduce the annual grant awarded to Hampshire Parent Carer Network to £17,500. **Recommended for implementation.**
- e) Proposal Five: To commission Short Break Activities through an external grant-giving body. **Not recommended for implementation.**
- f) Proposal Six: To introduce a two-tier Gateway Card scheme, including proposed evidence requirements to support Gateway Card applications for each tier. **Recommended for implementation.**
- g) Proposal Seven: To place a limit of 30 sessions per child, per year on Short Break Activities. **Not recommended for implementation.**
- h) Proposal Eight: To redesign the Community Buddy Scheme. **Recommended for implementation**, including:
 - Increases to parental hourly contributions from £5 per hour to £6.50 per hour, and mileage from 25p to 30p per mile.
 - no longer giving access to non-Hampshire County Council area residents, or young people aged 18 years of age or over, saving £11,000 at current levels.
 - Commissioning a new service, incorporating a single point for coordination and a differentiated offer within the scheme.

Executive Summary

3. The Breaks for Carers of Disabled Children Regulations 2011 bring into effect Paragraph 6(1)(c) of Schedule 2 to the Children Act 1989 (inserted by section 25 of the Children and Young Persons Act 2008), requiring local authorities to provide services to assist individuals who provide care for disabled children to continue to do so, or to do so more effectively, by giving them breaks from caring.
4. The Short Break Activities Programme seeks to offer a range of fun and educational activities for children and young people with disabilities and additional needs so that their parents or carers can have a short break from their caring responsibilities. The Short Breaks Activities Programme also aims to provide parents or carers with a break in their caring role enabling them to pursue education, training, leisure activities, day-to-day tasks and to meet the needs of other children in the family more effectively. Short Break Activities are offered during evenings, weekends and school holidays.
5. Families access the Short Break Activities Programme through the use of a Gateway Card. In order to apply for a Gateway Card, children and young people must:
 - have a disability or additional needs;

- need support to take part in leisure activities;
- be under 18 years of age; and
- live in the Hampshire County Council authority area.

Evidence from an approved and published list must be provided to support each Gateway Card application. There are 2,632 registered Gateway Card holders in Hampshire as of September 2020.

6. In 2019/20, 550 children accessed the Short Break Activities Programme. Activities are provided by voluntary sector organisations funded via grants, by some special schools directly, and by other community-based services such as sport and leisure centres (collectively referred to as 'providers') who can apply for funding to meet an individual's additional care and support needs on an ad-hoc basis via a separate 'exceptions' fund.
7. The prolonged period of austerity has led to significant reductions in government grant for the County Council. In response, the County Council has worked diligently to stretch every penny and deliver more with less money – achieving over £480 million in recurring savings, whilst protecting the quality of services as far as possible and keeping Council Tax low.
8. In November 2019, a range of savings proposals, including a reduction in the Short Breaks budget, was considered and approved by Full Council, subject to further consultation and executive decision-making where necessary. The Children's Services Department (excluding schools) has an indicative savings target of £17.2 million to be delivered by April 2021, which represents an overall budget reduction of c.13%. In February 2020 under-achievement against the Home to School Transport Transformation to 2019 savings target led to further savings being targeted from other Children's Services budgets as part of Transformation to 2021. A saving from the Short Break budget would be part of the proposed solution in respect of the increased savings target.
9. The current budget for Children with Disabilities is £16.8m, of which £15.1m supports families eligible for social work support and interventions through Children with Disabilities social work teams. The remaining £1.7m is funding for a short break programme; £1.4m of this is used to provide open access Short Break Activities delivered by third sector and charitable providers; a Community Buddy Scheme; participation grant to Hampshire Parent Carer Network; and includes the cost of maintaining the Gateway Card IT system. The remaining £0.3m is spent on Care Support and Direct Payments. Children's Services is proposing to save £1.3m from the Children with Disabilities budget by April 2021, a 7.5% budget reduction.
10. If the decision is taken to progress changes to the current Short Break Activity Programme offer as proposed in this report, it is estimated that £696,000 (a

4% reduction in the Children with Disabilities budget), could be saved. Local Authorities have an obligation to provide a range of services that is sufficient to assist carers to continue to provide care or to do so more effectively, including educational or leisure activities for disabled children outside their homes, but there is Local Authority discretion around what is provided.

11. The County Council carried out an 18-week open, public consultation from 9 March to 12 July 2020 to seek residents' and stakeholders' views on proposed changes to the Short Break Activities Programme. The timescale of the consultation was extended by six weeks (from 12 weeks to 18 weeks), to enable as many contributions as possible during the government-enforced lockdown due to the Covid-19 pandemic. Eight proposals, incorporating 13 questions, were included within the consultation.
12. During the consultation period, communication took place in a range of ways and, in partnership with Hampshire Parent Carer Network, flexed in order to respond to the circumstances surrounding the Covid-19 pandemic. This provided additional opportunities to raise awareness of the consultation and provide opportunities for parents, carers, young people and providers to raise questions and to have their say, as further described in paragraphs 118-139.
13. **373 responses** were received to the consultation. 82% of respondents to the Response Form were parents or carers, family members or children or young people that either use short breaks activities now or did in the past.
14. The summary of responses was as follows:

15. A comprehensive Equalities Impact Assessment (EIA) on the impact of reducing the budget for the Short Break Activities Programme was carried out and published in November 2019, as part of the medium-term financial strategy: [https://democracy.hants.gov.uk/documents/s40046/Annex Appendix 6 - CS EIAs.pdf](https://democracy.hants.gov.uk/documents/s40046/Annex%20Appendix%206%20-%20CS%20EIAs.pdf). This EIA has been further considered and revised for this decision day, taking into account the consultation findings.

Contextual information

16. The Breaks for Carers of Disabled Children Regulations 2011 bring into effect Paragraph 6(1)(c) of Schedule 2 to the Children Act 1989 (inserted by section 25 of the Children and Young Persons Act 2008), requiring local authorities to provide services to assist individuals who provide care for disabled children to continue to do so, or to do so more effectively, by giving them breaks from caring.

17. The Children Act 2004 provides a general duty of cooperation of the Local Authority partners to improve wellbeing of children which includes parents or

other persons caring for them. This duty sits alongside the specific duty for the provision of health services which the Local Authority cannot substitute.

18. The County Council is required to produce a Short Breaks Service Statement as set out in the *Short Breaks for Carers of Disabled Children – Departmental Advice for Local Authorities*. The Short Breaks Service Statement was first produced in 2012, in collaboration with representatives from Hampshire Parent Carer Network (HPCN), Parent Voice, the Disabled Children's Teams and County Council officers. The Statement explains how the County Council's short breaks and social care support services for children and young people with disabilities are organised and how parents and carers can access them. The Short Breaks Service Statement is regularly reviewed to ensure it reflects the current service and was refreshed in 2019, in conjunction with the key stakeholders listed above.
19. In order to access Hampshire's Short Break Activities Programme, children and young people must currently meet the following eligibility criteria:
 - have a disability or additional needs;
 - need support to take part in leisure activities;
 - are under 18 years of age;
 - live in the Hampshire County Council authority area; and
 - have a Gateway Card.
20. The Gateway Card is free and gives eligible families access to activities, play schemes and buddy schemes through the Short Break Activities Programme. Eligible families should have a Gateway Card to use any activities funded by Hampshire's Short Break Activities Programme. The application process is conducted online and requires submission of evidence from an agreed list of documentation. Card holders are required to confirm their details annually and re-apply every three years. There are 2,632 registered Gateway Card holders in Hampshire as of September 2020. In 2019/20, 550 children accessed the Short Break Activities Programme, of whom 110 were known to social care Disabled Children's teams.
21. In July 2018, an Executive Decision was made to implement nine changes to the Short Break Activities Programme, following a public consultation held earlier that year. This resulted in a reshaped Short Breaks offer and the adoption of a charging and hardship policy.

Current Short Break Activities grant funding programme

22. Currently, Short Break Activities funding is awarded to a variety of providers across the county through a system of grants, whereby providers propose a wide range of activities for the County Council to fund. Activities are commissioned to meet specific priorities agreed with parent representatives.

Parents are invited to review grant applications and are involved in their evaluations. Current grant awards are for 18 months to 31 March 2021.

23. Any applications for grants of £5,000 or over are considered within each grant round and recommendations presented to the Executive Lead Member for Children's Services and Young People for approval.
24. All successful providers are required (under the terms and conditions of the funding) to return quarterly monitoring reports. These reports provide evidence of the uptake of each project and how the County Council's funding is being used. The Gateway Card IT system enables card details to be input or scanned to record attendance at Short Break Activities.

Finance

25. The prolonged period of austerity has led to significant reductions in government grant for the County Council. In response, the County Council has worked diligently to stretch every penny and deliver more with less money – achieving over £480 million in recurring savings, whilst protecting the quality of services as far as possible and keeping Council Tax low. In November 2019, a range of savings proposals, including a reduction in the Short Breaks budget, was considered and approved by Full Council, subject to further consultation and executive decision-making where necessary.
26. The Children's Services Department (excluding schools) has a two-year savings target of £17.2million to be delivered by April 2021, representing an overall budget reduction of 13%. The current budget for Children with Disabilities is £16.8m, of which £15.1m supports families eligible for social work support and interventions through children with disabilities social work teams. Children's Services is proposing to save £1.3m from the Children with Disabilities budget by April 2021: a 7.5% budget reduction. The budget includes £1.7m of funding for a Short Break programme and £1.4m of this is used to provide open access Short Break Activities delivered by third sector and charitable providers, a community buddy scheme, participation grant to Hampshire Parent Carer Network and maintain the Gateway Card IT system. The additional £0.3m is used to fund Direct Payments and Care Support.
27. The proposal to achieve further savings to Children's Services means that options the County Council may have considered and rejected previously were re-considered. In February 2020 under-achievement against the Home to School Transport Transformation to 2019 savings target led to further savings being targeted from other Children's Services budgets as part of Transformation to 2021. A saving from the Short Break budget would be part of the proposed solution in respect of the increased savings target. If the decision is taken to progress proposals for changes to the current Short Breaks offer as recommended in this report, it is estimated that £696,000

would be saved on an annual basis, representing a 4% reduction in the overall Children with Disabilities budget.

28. The current budget per capita of 0-17 year olds for respite for non-looked after children with disabilities is broadly average among English councils at around £17, and is predicted to be £14 if the savings from the Short Breaks budget are achieved, with all other factors remaining the same. This unit cost includes all elements of Short Break provision, including overnight respite and care support, as well as Short Break Activities. The graph below shows Hampshire's position (in red), relative to other local authorities (shown in blue), with the general 0-17 population being used to calculate the unit budgetary cost.

The financial impact of the proposed changes would be as follows:

Budget heading	Current budget	Proposed budget	Proposed saving
Short Break Activities Programme	£1,136,500	£539,500	£597,000
Exceptions fund	£90,500	£20,000	£70,500
Participation grant to Hampshire Parent Carer Network	£35,000	£17,500	£17,500

Buddy scheme	£140,000	£129,000	£11,000
IT system	£31,000	£31,000	0
Total	£1,433,000	£737,000	£696,000

Proposals for changes to the Short Break Activities Programme

29. Proposal One: To reduce the overall grant awarded to provide Short Break Activities

30. This proposal seeks to continue to commission Short Break Activities that are important to families, meeting specific agreed priorities, but with a reduction in the overall total value of grant funding available.

31. This would be possible for several reasons:

- in the current grant round, the Council has been able to purchase far more places than anticipated within the budget available, in comparison to the amount required according to indication of local need. For example, places for 268 children and young people were commissioned at weekend sessions, rather than the 118 anticipated. This indicates that the desired number of places could be purchased at lower cost;
- only 21% of Gateway Card holders accessed Short Break Activities during 2019/20 and most providers have informed the County Council that they rarely have a waiting list;
- in some cases there has been a surplus of places that have not been taken up, resulting in schemes being closed.

Consultation feedback about Proposal One

32. 82% of respondents disagreed with this proposal. 33 comments were received, including 15 mentions of the potential impact the proposals may have on funding and support for Short Break Activities. Specifically, it was noted how the proposal adds to the budgetary reductions from previous years, putting further pressure on services that support children and young people with SEND in general. 13 respondents mentioned how the service was highly valued, emphasising that it is fundamental to families that rely on it for respite.

How this proposal would be implemented

33. This proposal, if implemented in combination with other proposals, would leave a grant pot of £539,500 to allocate towards the provision of Short Break Activities, achieving an annual saving of £597,000. The Council would support the next grant round with a commissioning strategy that reflects the highest priorities and sets out how to best use the funds available to maintain a Short

Break Activity Programme. The strength of opinion regarding this proposal is acknowledged, however with 79% of the Short Break budget being spent on Short Break Activities, it is not possible to achieve the full saving from other budget lines. 38 consultation respondents suggested alternative approaches to achieving the savings target, with 15 suggesting that budget reductions should be made elsewhere but did not specify which budgets. Additionally, 20 respondents fed back generally that the Council should not be making budgetary savings.

34. In order to reflect parental concerns, and to inform the commissioning strategy, the Council would:

- engage with young people and their parents to help determine priorities for Short Break Activities
- use Gateway Card data and data on usage of schemes to target schemes where they are needed most
- consult with parent/carers and young people to determine if provision for children with autism should be a priority within the grant round
- continue to offer subsidised rates for activities where families can evidence receipt of benefits to enable families on low income to be able to access Short Break Activities and maintain the charging and remissions policy
- if it is confirmed as a priority by parents/carers and young people, explore innovative approaches to delivery, the sharing of resources and closer joint working to reduce costs and help break down geographical barriers to delivery.

35. The County Council would work with providers to develop additional activities where needed if there are gaps in provision. This would enable the service to respond flexibly to changing priorities and ensure that funded activities continue to meet the needs of local families. If Proposal Two is implemented, this would enable ad-hoc grant applications to be made to consider activities that fall outside the main priorities. If Proposal Six is implemented and a two-tier Gateway Card scheme introduced, services can continue to be targeted to those who most need them. If Proposal Eight is implemented, a differentiated offer for the buddy scheme would introduce different approaches to enable children and young people to work towards their desired outcomes, thus complementing the programme of Short Break Activities.

36. It is recommended that this proposal is implemented from April 2021.

37. Proposal Two: To only accept funding applications that meet the core Short Break Activities priorities

38. The main Short Break Activities grant round invites applications based on the core Short Break priorities, which are co-produced with parents and carers. Where activities do not fall within the identified Short Break Activity priorities, providers may currently apply for ad-hoc grant funding via an 'exceptions' fund, which has been underspent during the last three years. This proposal

seeks to either remove or reduce the 'exceptions' fund of £90,500 per annum in order to save between £70,500 and £90,500 each year.

Consultation feedback about Proposal Two

39. 61% of respondents were supportive of changes to the 'exceptions' fund. 53% preferred to reduce the 'exceptions' fund by 78% in line with current demand to achieve a saving of £70,500, leaving £20,000 for exceptions, whilst 8% preferred that the 'exceptions' fund was removed to achieve an annual saving of £90,500. 39% of respondents said they would prefer the County Council to retain the 'exceptions' fund at its current level of £90,500.
40. Comments concerning Proposal Two either mentioned that there was a lack of advertising or promotion of the 'exceptions' fund, suggesting that this may be the reason why the fund was not being utilised to its fullest extent. Others felt that the 'exceptions' fund could be directed towards funding for activities for children and families that are in need of respite but unable to find suitable Short Break Activities.

How this proposal would be implemented

41. If approved, the changes to the 'exceptions' fund would be included alongside the main grant round. In line with the opinion of the majority who responded, a reduced 'exceptions' fund of £20,000 per annum would be retained within the Short Break budget, to enable ad-hoc grant applications to be made.
42. **It is recommended that this proposal is implemented from April 2021.**
43. **Proposal Three: To require Short Break Activity providers to secure a minimum level of funding from other sources**
44. This proposal seeks to introduce a requirement for providers to contribute at least 10% of the value of the grant being requested towards the cost of running a Short Break Activity, to prove that they are not entirely reliant on the County Council's funding. The 'match-funding' contribution could be generated from a range of sources such as other grant applications and fundraising. At current levels, this proposal was estimated to generate £65,000, which would help to offset the savings required.

Consultation feedback about Proposal Three

45. 55% of respondents disagreed with this proposal, 27% agreed, whilst 15% neither agreed nor disagreed. Most comments focused on the impact that the proposal may have on providers, specifically that providers could be at risk if they were unable to secure 10% of the value of a grant being awarded.
46. Those that provided the official response of an organisation, group or business were asked what grant period would best enable the proposed level of match funding (at least 10%) to be achieved. The consultation heard from 10 organisations, five of which preferred a longer grant period of 24 months, two who thought that 18 months would be sufficient, and one organisation which felt 12 months would best enable them to source match funding.

How this proposal would be implemented

47. Each grant round previously has required providers to include in their bids how they would seek to contribute resource towards their schemes. It is proposed that this would continue. The introduction of a minimum level of 'match funding' is considered to put detrimental pressure on the sector at a time when it is hard to secure other sources of funding, following the impact of the Covid-19 pandemic.
48. A minimum level of match-funding is a proposal that the Council may wish to revisit in future, in a desire to ensure that schemes are sustainable over the medium term and not reliant on Council grants.
- 49. It is recommended that this proposal is not implemented.**
50. In response to feedback from the consultation, a two-year grant allocation would be beneficial in terms of providing a degree of certainty about provision for both providers and families.
- 51. It is recommended that this is implemented from April 2021.**
- 52. Proposal Four: To reduce the grant awarded to Hampshire Parent Carer Network**
53. Hampshire Parent Carer Network (HPCN) is the parent carer forum for the Hampshire local authority area. It supports and trains parent carer representatives to influence service design and decision-making (based on their own circumstances). In Hampshire, national funding is insufficient to meet local levels of activity. This is because Department for Education annual funding of £15,000 is the same for all local authority areas, irrespective of geography or population and only 50% of that core funding can be used on salaries. Consequently, Children's Services has been providing additional 'top-up' grant funding to Hampshire Parent Carer Network each year of £35,000.
54. This proposal seeks to reduce the annual grant awarded by the County Council to Hampshire Parent Carer Network by 50% from £35,000 to £17,500. Around 56% of the HPCN's current activities relate to Children's Services (covering education and social care), with other activity also relating to health, public health, and education or social care support for 18-25 year-old adults, all being covered by the annual £35,000 grant.

55. The grant reduction would align the level of funding provided by Children's Services with the level of service that would be required in future to support HPCN input to services for children with special educational needs and disabilities within social care and education.

Consultation feedback about Proposal Four

56. 56% of respondents disagreed with this proposal, whilst 25% agreed. 16% neither agreed nor disagreed with the proposed option.
57. 42% of respondents were members of the Hampshire Parent Carer Network as either a parent or carer, and 72% of them disagreed with the proposal to reduce the grant awarded.
58. Those that were not current members of HPCN had a mixed response: 47% disagreed and 33% agreed with the proposal.
59. Specific comments reflected how the service that HPCN provides is highly valued, offering a helpful resource to parents and carers.

How this proposal would be implemented

60. The proposed grant for Hampshire Parent Carer Network would be reduced by 50%, in line with the anticipated level of activity required to support services for Children with Special Educational Needs and Disabilities from April 2021. 29% of HPCN activity has related to health activity. The NHS Clinical Commissioning Groups in Hampshire have committed to contributing to annual HPCN grant funding, in reflection of this work, which will result in no net reduction in funding for 2021/22 for HPCN.
61. **It is recommended that this proposal is implemented from April 2021.**
62. **Proposal Five: To commission Short Break Activities through an external grant-giving body**

63. There are other organisations in Hampshire that support vulnerable people in local communities that might be willing to work in partnership with the County Council to direct grant resources to where they are most needed. This proposal seeks to work with an external grant-giving body to conduct the process of awarding grants to deliver Short Break Activities either on its behalf or in collaboration. No saving was attached to this proposal, rather it was aimed to help direct resources to where they are most needed across Hampshire.

Consultation feedback about Proposal Five

64. Responses to this proposal were that 45% disagreed, 25% agreed and 27% neither agreed nor disagreed.

65. 58% of respondents felt that it would be appropriate for the County Council to work in collaboration with partner organisations in order to administer grants to the Short Break Activities Programme, compared to only 6% who preferred the option of commissioning an external grant-giving body to conduct the process on the County Council's behalf. 22% felt that neither of the proposed ideas was appropriate.

66. The main feedback received via comments was that an external grant giving body may increase administration costs and may create a lengthier process for providers to obtain funding.

How this proposal would be implemented

67. If Proposal Five were to be implemented, clear and rigorous governance arrangements would need to be approved, and suitable grant-giving organisations identified. However, with no clear advantage having been identified with implementing this proposal, and with other grant-giving bodies likely to be facing funding challenges post Covid-19, no advantages were identified to pursuing this proposal.

68. It is recommended that this proposal is not implemented.

69. Proposal Six: To introduce a two-tier Gateway Card scheme

70. This proposal seeks to create a two-tier Gateway Card system, to ensure that those families who solely use a Gateway Card to access concessions remain able to do so, whilst also providing the County Council with a better understanding of local need for Short Break Activities in order to plan services and further develop the Gateway Card scheme. No savings were attached to this proposal. All current Gateway Card applications need to be accompanied by evidence from a specific list and it was proposed that in order to access Short Break Activities, the evidence should be:

- Receipt of Disability Living Allowance (DLA).
- A Personal Independence Payment (PIP).
- An Education Health and Care Plan (EHCP).
- A referral from a social worker.

Consultation feedback on Proposal Six

71. All respondents were asked whether they currently have a Gateway Card.

77% said that they currently do, and 91% of those who said they were a parent or carer of a child with disabilities, said that they held a Gateway Card.

72. Respondents indicated that Gateway Cards are used for a variety of activities:

- access to holiday clubs (27%)
- to access weekend Short Break Activities (25%)
- concessionary access (24%)
- Buddy Scheme (four respondents) and
- afterschool care or weekend activities (four mentions).

73. 10 respondents mentioned that there was a lack of appropriate or suitable provision, whilst seven respondents mentioned that they have not had a chance to use their Gateway Card yet.

74. 58% of respondents agreed with the proposal to split the Gateway Card scheme into two tiers and 25% disagreed with this proposal. 60% of respondents agreed that the proposed forms of evidence required from applicants who wish to access Short Break Activities were appropriate.

75. In order to inform how the County Council could extend the range of concessions that might be accessed with a Gateway Card, existing card holders were asked which concessions they would be interested in; days out were most popular (89%), followed by fitness activities (76%) and cultural activities (75%). 20 respondents put forward a range of other activities.

How this proposal would be implemented

76. This proposal would have an IT system requirement if it were to be implemented, as it would necessitate changes to the Gateway Card back-office IT system in order for the tiered approach to be visible to card holders, providers and the administrative staff.

77. Any potentially affected cardholders would be contacted, so they are able to obtain the correct evidence as set out in paragraph 70 if they wish to utilise Short Break Activities. Any changes would take effect from the next annual confirmation of circumstances for existing card holders, and with immediate effect from April 2021 for new applicants, at the time of their application. There would be no change to the existing eligibility criteria for accessing Short Break Activities, as set out in paragraph 19.

78. Providers would need to be briefed on the implications of this scheme, as tier 1 card holders would not be able to access County Council funded Short Break Activities so they could only be accepted on to schemes at full cost. Additionally, the Short Break team would need to work with mainstream providers, to maximise use of the lower-level Gateway Card concessions. Any existing card holders not able to provide the correct evidence would no longer be able to access Short Break Activities, but could request a social care

assessment if they feel that their needs are not able to be met through mainstream activities.

79. It is recommended that this proposal is implemented from April 2021.

80. Proposal Seven: To place a limit of 30 sessions per child, per year on Short Break Activities

81. Gateway Card holders can currently book on as many or as few Short Break Activity sessions as they wish (subject to availability). It has been found that this can create discrepancy in the system, which may lead to some families having less opportunity to book a Short Break Activity. This proposal seeks to place a limit of 30 sessions per child, per year on Short Break Activities.

Consultation feedback on Proposal Seven

82. There was an even split between those who agreed (41%) and disagreed (41%). 17% of respondents neither agreed nor disagreed with the proposal.

83. 40 respondents provided a comment regarding Proposal Seven. 19 mentioned how 30 sessions was simply not enough to maintain a caring role, and that the limit could impact on the funding and support that they received (12 mentions). Others suggested a different approach to the allocation of Short Break Activities (11 mentions), for example allocating a set number of sessions based on those with the most need for the service (six suggestions).

How this proposal would be implemented

84. In order to implement this proposal changes would be required to the existing gateway Card IT system. The IT requirements would need to be identified, an IT delivery plan produced, budget agreed, and the functionality put in place.

85. The project team would work with the Disabled Children's Teams to communicate and manage any potentially affected care plans. The term "session" would need to be more precisely defined to ensure the cap is meaningful and fair. Communications and engagement would be needed with Short Break Activities providers, social care teams and parent carers to ensure that they understand the changes to the system, especially with regards to ensuring that the cap is understood as a maximum for those who really need it, rather than an aspiration or target allocation for all service users.

86. It is recommended that this proposal is not implemented.

87. In order to evaluate whether levels of use of Short Break Activities are reasonable and appropriate to meet identified needs, an alternative approach would be for social care teams to review the instances of high uptake on a regular basis and consider whether other provisions might be suitable, or whether a social care assessment might be required in order to support a family. This would be more straightforward to implement.

88. Proposal Eight: to redesign the Community Buddy Scheme

89. This proposal sought to make the Community Buddy Scheme more effective, whilst also identifying some specific savings. Potential service changes could involve having one organisation responsible for recruiting and co-ordinating buddies. It could also mean introducing a different buddy 'offer' that provides alternative options for support (such as group mentoring, joint buddy support, or one to one support where this is required to promote independence) - recognising that particular groups of children and young people may have different needs.
90. This proposal also targeted specific savings of £11,000 by aligning the scheme with the rest of the Short Breaks Offer, ensuring the service is within the statutory remit of Children's Services for services up to age 18. The proposal suggested an increase in parental contributions towards the Community Buddy Scheme that could contribute around £8,000 each year towards running the Buddy Scheme.

Consultation feedback on Proposal Eight

91. For the proposed increase in parental contributions to the Community Buddy Scheme, 42% respondents agreed and 31% disagreed.
92. The proposal to increase parental contributions for mileage received 35% of respondents agreeing and disagreeing. 24% of respondents neither agreed nor disagreed with the proposal.
93. When asked what level of contribution parents and carers should make with regards to mileage, 40% preferred to increase parent mileage from 25p per mile to 30p per mile, whilst 35% preferred to keep the mileage contribution at the current level of 25p per mile. 8% supported an increase to the full HM Revenue and Customs mileage rate of 45p.
94. 14 respondents gave a specific comment in response to the proposed increases, in particular how some families may struggle to afford additional costs, with this becoming a barrier to accessing the Buddy Scheme.
95. Most respondents agreed with three out of the four proposed ideas to redesign the Community Buddy Scheme. 73% disagreed with the proposal to stop funding buddies for young people aged 18 or over. In the comments, three respondents shared their concern that young people may not have any follow-on care during a time where other significant changes to care are likely to occur.
96. Respondents would like to retain a buddy scheme that offers one to one support to promote independence (74%) but were also open to options for joint buddy support (54%) and group mentoring (35%).
97. Overall, 54% of respondents wanted a combination of the proposed options, with the most popular combination being one to one and joint buddy support. 27% of respondents felt that the scheme should solely provide one to one support going forwards.

Additional comments about Proposal Eight

98. Respondents were asked to provide a comment on the proposals for redesigning the Community Buddy Scheme, or to describe the impact that the proposals may have, with 51 comments received in total
99. General comments focused on the concern that the scheme is currently not fit for purpose (19 mentions), specifically that there is a perceived lack of Buddies (12 mentions).
100. There were 13 mentions of alternative approaches that the County Council could take. Most of these comments mentioned that the scheme needs improvements (10 mentions), primarily to ensure that the right support is offered (four mentions). In their comments, respondents reflected that the type of support should be linked to the needs of the individual.
101. Others provided a comment about the impact the proposals may have, namely that they may have a negative financial impact on parents and carers, with the concern that some families may not be able to afford additional contributions (eight mentions).

How this proposal would be implemented

102. Changes to parent/carers' contributions would be implemented from April 2021, being increased from £5 to £6.50 per hour. Mileage contributions would be increased from 25p to 30p per mile, in line with public opinion. These would contribute up to £7,000 towards the scheme, at current activity levels.
103. Young people not living in the Hampshire County Council area and/or of 18 years or above would not be able to access the buddy scheme from April 2021. At current levels, this would achieve £11,000 of savings per year. To mitigate the potential impact of the loss of service for these families, young people aged 18 and over who are accessing the buddy scheme (and/or their parents and carers), would be contacted by the County Council to advise them of alternative options available to them. For young people already receiving support from Adults' Health and Care under the Care Act, a review would be undertaken of their support plan to ensure any eligible needs continue to be met. The member of the Adults' Health and Care community team would contact the young person to arrange this. For young people not receiving support from Adults' Health and Care they would be advised of alternative options available to them. These may include the following options to be explored; family and friends, community-based activities, voluntary groups, and supported breaks for example. If required they would also be advised of how to contact Adults' Health and Care, Contact and Resolution Team (CART), which could possibly result in a Care Act Assessment.
104. More time is required to re-design the service and it is aimed for this to be relaunched in September 2021. In consultation with families, young people, providers and the Executive Lead Member for Children's Services and Young People, different models will be explored, with a view to commissioning a new service in May/June 2021.

105. It is recommended that this proposal is implemented from April 2021 as follows:

- Increases to parental hourly contributions from £5 per hour to £6.50 per hour, and mileage from 25p to 30p per mile.
- no longer giving access to non-Hampshire County Council area residents, or young people aged 18 years of age or over, saving £11,000 at current levels.
- Commissioning a new service incorporating a single point for coordination and a differentiated offer within the scheme.

Other comments on proposals to achieve savings

106. Respondents were asked to provide a comment on any of the proposals for delivering the Short Break Activities Programme within a reduced budget or to describe the impact that the proposals may have. Respondents mainly provided general comments (69 comments) and comments that reflected the perceived impact of the proposals (67 comments).
107. General comments about delivering the Short Break Activities Programme within a reduced budget focused on how much the service was valued (38 mentions).
108. 27 respondent comments described how Short Break Activities were fundamental to the wellbeing of families and children with disabilities, with many expressing how important the scheme was to them. Others commented on the negative impact the proposals may have on the family unit (13 mentions).
109. 29 people mentioned access to the scheme in its current form, stressing that services are stretched and the demand for Short Break Activities is high (26 mentions).
110. 67 respondents mentioned a perceived impact of delivering the Short Break Activities Programme within a reduced budget. They highlighted the impact of reduced funding on the support available to parents and carers (22 mentions) – particularly given the potential cumulative effect of this and other service cuts (13 mentions).
111. Others mentioned the impact the proposals could have on service users (14 mentions). Some highlighted the implications that a potential reduction in Short Break Activities may have on other services (14 mentions), such as an increased reliance on other more costly social care interventions (eight mentions).
112. A smaller number of respondents mentioned potential alternatives to those proposed (30 mentions), particularly that funding should be increased, not decreased (seven mentions). Others suggested that the required budgetary savings should be taken from other County Council departments (five mentions), whilst some mentioned that funding should be redistributed to priority Short Break Activity areas (five mentions).

Other comments on proposals to improve the effectiveness of the Short Break Activities Programme

113. Respondents were asked to provide a comment on any of the proposals for improving the effectiveness of the Short Break Activities Programme, or to describe the impact that the proposals may have. Respondents mainly provided general comments (54 comments) and comments that reflected the perceived impact the proposals may have (30 comments). 15 respondents suggested an alternative approach to the proposals.

- The main point raised within the general comments was that 30 sessions per year per child would not adequately meet parents' and carers' needs (19 comments).
- Respondents expressed how the Short Break Activities service was highly valued (18 comments) and that it provides a lifeline to parents and carers. Respondents were also concerned that access to Short Break Activities was already difficult to obtain (14 comments) and felt that a reduction in the number of sessions on offer would exacerbate this.
- Nine respondents gave a positive perspective, mentioning how they felt the proposals may improve accessibility, and allow for a more equitable distribution of breaks for parents and carers.
- 14 respondent comments mentioned that there could be an impact on the funding and support that parents and carers receive for children with disabilities, some commenting how they could receive less respite and that Short Break Activities is the only form of support that is currently available to them.
- 11 respondent comments reflected on the wider service impact the proposals could have, with some suggesting that there could be additional long-term cost implications such as a reliance on other social, medical and health services if adequate respite was not provided.
- 20 respondents gave suggestions as to how Short Break Activities could be allocated differently, specifically that there should be a fairer (seven mentions), holistic (three mentions) or needs-based approach (six mentions).

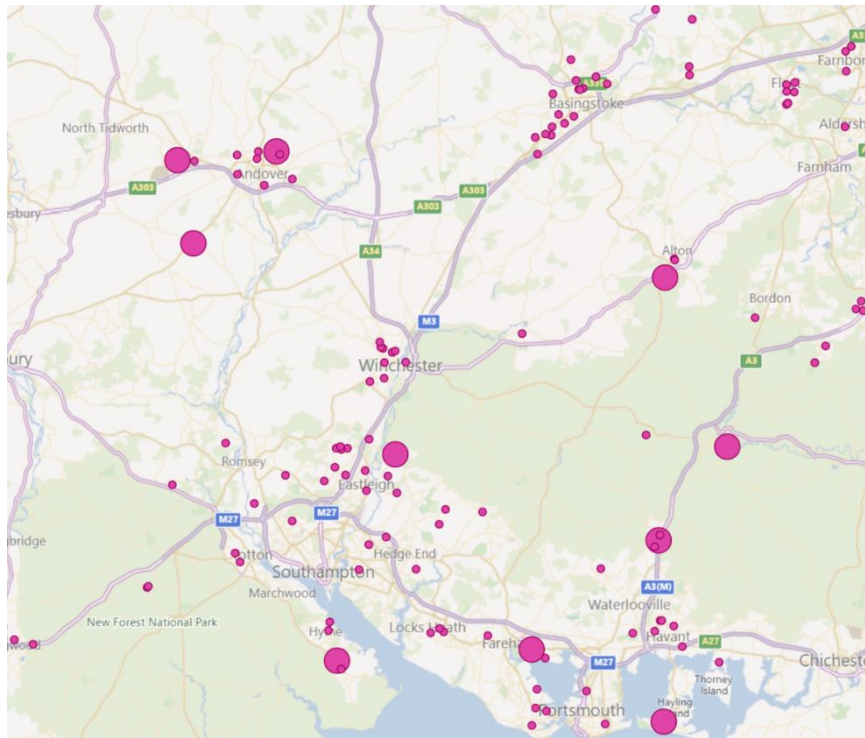

Alternative suggestions and comments

114. Respondents were asked if they had any alternative suggestions to the proposals for how the County Council could make anticipated annual savings of up to £696,000 from the Short Break Activities Programme budget, or to outline any other comments they might have regarding the consultation. Respondents provided both alternative suggestions (38 mentions) and general comments (30 comments), whilst a few focussed on the impacts the proposals might have (seven mentions).

115. Respondents provided a mixture of alternative suggestions, the most mentioned option being to make budgetary savings elsewhere (15 mentions), specifically through staff salaries (seven mentions).
116. 30 respondents gave general comments, the most notable was that respondents felt the budgetary savings should not be made through the Short Break Activities Programme.
117. Some respondents commented on the impact that the COVID-19 pandemic could have on Short Break Activities. Four respondents raised concerns about the impact on parents and carers and their need for respite during these unprecedented times; that there could be a knock-on impact for providers, potentially resulting in the need to scale down what is currently offered; and that lockdown measures had already had an impact on the mental health of children, so a reduction in funding was seen to add to these current concerns.

Consultation

118. The County Council carried out an open consultation designed to give all Hampshire residents and wider stakeholders an opportunity to have their say about the proposed changes to the Short Break Activities Programme. The consultation ran between 31 March 2020 and 12 July 2020. The consultation period was extended by six weeks (from 12 to 18 weeks) in order to account for the government-enforced lockdown due to the COVID-19 pandemic. There were 210 responses to the consultation questionnaire, including Easy Read and Young Person versions of the Response Form. An additional 29 unstructured responses and 134 items of feedback raised via engagement activities were also considered. The full consultation findings report is contained in Appendix A.
119. Respondents were asked to provide their postcode. The map (below) shows the distribution of respondents by postcode, with larger circles representing a higher number of respondents. Respondents came from across the County, with a concentration of responses coming from bigger towns and cities such as Basingstoke, Fareham, Gosport, Winchester, and the surrounding areas of Southampton.

120. Respondents were also asked to indicate their household incomes, with these being as shown in the below graph.

Consultation approach

121. Responses could be submitted through an online Response Form, or as a paper form, which was made available on request. An Easy Read version was also produced, along with a Young Person Response Form in both paper and an online format option, which included the ability to submit audio/ video recorded answers to the consultation questionnaire. Alternative formats were also made available on request.
122. Unstructured responses sent through other means, such as via email or as written letters, and received by the consultation's closing date were also accepted. A summary of these findings is included as part of the consultation findings. A series of engagement sessions were held in order to answer queries regarding the consultation – suggestions and feedback gathered during these meetings were also included as part of the consultation findings.
123. An Information Pack was produced alongside the consultation, providing information about each of the options presented. The Information Pack was also available in Easy Read format. A short informative video was produced to help communicate each of the options presented for, parents, carers and providers.
124. Different approaches to capturing parent/carer and young person's views were explored throughout the consultation period, in conjunction with Hampshire Parent Carer Network. These included: development of an informative video; an adapted shortened questionnaire with video and audio upload facility for young persons' views to be captured; offering facilitated questionnaire completion sessions and distribution of hard copy Information Packs and Response Forms for those without access to the internet. Receipt of responses across the consultation period was as shown in the graph below.

Promotion and publicity

125. The consultation was promoted through the County Council's social media channels and released to local press.

Communications Activity

126. Media releases were sent to all Hampshire media at the start of the consultation and six weeks before the closing date of the consultation on 12 July 2020. The media release sought to generate coverage which would reach the attention of readers and encourage their participation in the consultation. The media release was also sent to all Hampshire MPs and all Hampshire County Councillors. A briefing for County Council members took place during the first week of the consultation and supporting documentation and links to the consultation were made available to those who could not attend.
127. Calls to participate in the consultation, which included a link to the consultation web page, as well as posts highlighting the opportunity to take part in the virtual information sessions and ask questions of officers, were published organically (i.e. free and not paid-for 'boosts') on the County Council's corporate social media channels (Twitter, Facebook and LinkedIn) periodically between 9 March and 11 July, achieving a combined reach of 59,331 of the County Council's followers for each media.
128. A 'newsflash' message highlighting the consultation and including a direct link to it, was added to the top of the key public facing webpages on hants.gov.uk, to make visitors to those pages aware of the consultation and encourage participation.
129. Information about the consultation, including link to the consultation page was included in the March and June issues of HALC News - Hampshire County Council's newsletter to Hampshire's Town and Parish Councils.
130. Six weeks prior to the end of the consultation, reminder information, with link to the consultation was included in the Assistant Chief Executive Covid-19 daily briefing to Hampshire MPs, Hampshire County Councillors and the Chief Executives of the district and unitary authorities in Hampshire.

County Council Staff communications

131. HantsHeadlines (the County Council's news channel for staff), news items about the consultation were published on 9 March, 5 June and 1 July and were viewed 2,330 times. (983 views + 262 + 1085).
132. A plasma slide about the consultation was included in the rolling news reel played on the screens in the public areas of the County Council's headquarters in Winchester across the two weeks prior to lockdown.
133. An 'all Company' notice was placed on Yammer, the Council's internal networking medium, signposting to the consultation and asking staff to publicise it if they work with or know of families with children with disabilities.

Operational communications

134. The consultation was promoted via social care teams, and within two bulk emails to Gateway card holders. There was a video of a PowerPoint presentation on YouTube (165 views), promotion of different approaches as they evolved, via HPCN and Hampshire SENDIASS, Short Break Activity providers and buddy scheme providers. Headline messages and links to the consultation were placed on the Family Information and Services Hub and the Hampshire SEND Local Offer. Links to the consultation were added to email footers of the Special Educational Needs team to raise awareness.

School and college communications

135. A communication was published on the School Communications channel during the first week of the consultation and at the midway point in June. The communications highlighted the consultation to all Hampshire schools (including academies) and encouraged school staff to participate as well as requested that schools help to promote awareness of the consultation, and provide a link to the consultation webpage, in their own communications out to parents and carers. Additional email communications were sent to special schools from Hampshire Inspection and Advisory Service, asking for their assistance in promoting the consultation and providing support to parents who may need it, and to colleges asking them to circulate details of the consultation.

Engagement activity

136. At the onset of the consultation, the engagement approach was planned to comprise: face-to-face sessions at ten Hampshire Parent Carer Network (HPCN) Get Togethers, at one National Autistic Society (NAS) South Hampshire Branch meeting, and two sessions arranged by Children's Services in areas where those two groups didn't meet. These were to be complemented by two Facebook Live question and answer sessions hosted by HPCN, two provider meetings and young peoples' sessions arranged with existing short break activity providers.
137. Due to the enforced lockdown circumstances, only one face-to-face session was able to take place. Instead, officers worked with HPCN throughout the consultation period to ensure that their members from all areas had opportunities to engage via nine HPCN Zoom virtual Get Togethers, two specific Zoom question and answer sessions about the consultation, hosted by HPCN; attendance at two 'Meet the SEN Team' Zoom sessions and a NAS-hosted session on MS Teams. Telephone slots were also offered, for anyone without access to online meetings. Provider engagement took place via phone discussions and MS Teams, and the consultation was discussed and promoted during provider forum meetings.
138. Additional support was offered to parent/carers in completing the documents by Hampshire Special Educational Needs Information, Advice and Support Service. Short break activities took place in a range of different ways

during the lockdown period and providers were able to work with young people on either a 1:1 or small group basis to capture their views.

139. The County Council wishes to thank HPCN and NAS for their support to carry out this consultation, helping to flex the approach to engagement and for promoting the consultation proposals among their members and encouraging responses.

Consultation findings

140. 373 responses across all channels were received to the consultation. The majority (82%) of respondents who replied using the Response Form were parents or carers, family members or children or young people that either use short breaks activities now or did in the past. Sources of responses were as follows:

- 200 individual questionnaire Response Forms
- 10 responses from groups, organisations or businesses
- 29 unstructured responses via email, letters or formats other than the Response Form
- 134 items compiled from the engagement sessions, attended by 47 individuals.

141. The summary of responses to the Response Form was as follows:

Key feedback from engagement with Young People

142. 28 unstructured responses were received from children and young people, including 18 from Play at Maple, in which young Gateway Card users filled in an adapted version of the consultation Response Form which explained some of the proposals more visually. 10 responses were collated by The Kings Arms where young people were asked an adapted version of the Young Person's Response Form.
143. The young people from Play at Maple fed back that they liked to stay at home or go to an activity club at weekends; that their activities should have more money and in different amounts; they were keen to have a special card for attending activities and that they didn't want a limit applied to the number of activities they could attend.
144. The young people from the Kings Arms disagreed that their activities should have less funding, with the idea of a Gateway Card having two parts, with applying a limit to the number of Short Break Activities they could take, and restricting access to the buddy scheme to under 18 year olds. They felt it was important that they could attend youth clubs and for one to one support to be available as part of the buddy scheme.

Key feedback from consultation 'drop in' events for parents and carers

145. Where feedback from parents and carers at the consultation engagement sessions related to a specific proposal, such feedback has been outlined in that section of the report. In addition to feedback on specific proposals, parents and carers provided details of some more general issues regarding the Short Break Activities Programme which are outlined below. Please note that attendance at these events was generally very low.
- The accessibility of the Short Break Activities Programme was most frequently mentioned by participants (18 mentions), specifically, they spoke of the lack of choice within Short Break Activities (five mentions), and that the options for breaks was currently inadequate (three mentions).
 - There were 17 mentions of how valued the service was and many also shared the concern that the proposals could impact upon service users specifically (10 mentions).
 - Others talked about the Short Break Activities available within their local areas (seven mentions), with some suggesting they could not find what they needed within their locality or that it was particularly hard to access (five mentions), or needed to be more suitable (six mentions) . Provision required for autism spectrum conditions also received six mentions.
 - Concerns were expressed about the potential impact of proposals upon smaller providers (five mentions) and about the possible impact of Covid-19 (also five mentions).

Key findings from Hampshire Parent Carer Network

146. Hampshire Parent Carer Network provided specific feedback as follows:

- Some families use short breaks for respite as they are not eligible for social care packages. These are the families that worry HPCN the most. Families without these breaks will cost the local authority more money as they will be in crisis without the short break activity.
- The exceptions fund could be reduced as it is not used and not known about.
- During Covid -19 small charities and groups will not be able to fundraise as they have done before. They need time to recover before proposal to match fund could be successfully implemented.
- HPCN need the additional funding to work across a larger area. HPCN stated that they could not run the parent carer forum on the DfE grant and £17.5k. HPCN stated that their Get Togethers are vital for engaging with families across the whole of the county as are the staff they employ to run the service. The funding from Health should be organised internally.
- The two-tier gateway card scheme is needed as parents and carers need a concession card to use to prove eligibility for reduced entry due to having a carer with them. Children and young people who are neuro diverse do not look like they have a disability and often this is what stops them from getting the extra support/ reduced admission. HPCN believe that the Local Offer could be a more well used web site if there were more of these activities advertised on here. Parents from HPCN would like to contribute to this.
- HPCN fed back that they did not feel that the buddy scheme worked in its current form. The demand for the service is high but the buddy agencies cannot find suitable carers to support the services. Families say that it does not work as the consistency of buddies are an issue. Some children need one to one support, but some would benefit from going out in the community with others to support and improve their skills to socialise. Parents would pay more for this service if it was good. HPCN responded that they did not feel that increasing the financial contribution for the buddy scheme would be an issue, and that the challenge would be to identify people in the community able and willing to undertake this sort of work to meet the demand. HPCN felt that volunteers are not reliable and young people need to be supported by the same person each time and it is better when the buddy is near to the age of the young person.

Key findings from engagement with providers

147. The responses of providers who completed the Response Form are captured within the feedback to each proposal. Two sessions, one via telephone and the other on MS Teams, were held during the consultation period. Four providers attended these events, who raised the following general points:

- Concerns that because families supported via the Short Break Activities Programme are already vulnerable, any scaling back could deflect costs elsewhere within the Council or lead to serious consequences for families if they were unable to access the activities;
- Concerns about the range of leisure opportunities in general for disabled children being limited and asking if this funding could be ring-fenced;
- Efforts to manage demand for activities: some maintain waiting lists, others deploy more staff or put limits on numbers of sessions that can be accessed in order to make spaces generally available, for example via a 'fair-usage policy'.

Unstructured feedback from Basingstoke and Deane Borough Council

148. The Borough Council wished to emphasise the fact that Short Break Activities provide a fundamental role to children and young people with disabilities within the borough. The Borough Council also emphasised that the County Council should seek other available alternatives, before making budgetary savings. There could be an adverse impact upon children and young people with disabilities, parents, carers and providers of Short Break Activities if the proposals went ahead.

Equalities

149. A comprehensive Equalities Impact Assessment (EIA) on the impact of reducing the budget for the Short Break Activities Programme was carried out and published in November 2019, as part of the medium-term financial strategy: [https://democracy.hants.gov.uk/documents/s40046/Annex Appendix 6 - CS EIAs.pdf](https://democracy.hants.gov.uk/documents/s40046/Annex%20Appendix%206%20-%20CS%20EIAs.pdf). This EIA has been further considered and revised for this decision day, taking into account the consultation findings.

Legal Implications

150. Short Breaks provisions are set out in Children Act 1989 and The Breaks for Carers of Disabled Children Regulations 2011. In essence, the statutory duties of Hampshire County Council are to have regard to the needs of those who provide care for a disabled child who would be unable to provide care

unless breaks from care given to them and have regard to the needs of those carers who would be able to provide care for their disabled child more effectively if breaks from care were given to them to allow them to: Undertake education, training or regular leisure activity; meet the needs of other children in the family more effectively; carry out day to day tasks which they must perform in order to run their household.

151. Hampshire County Council must provide a range of services so far as is reasonably practicable to assist carers to continue to provide care or do so more effectively. This must include a range of services daytime/ overnight care, educational, leisure activities and services to assist in both the evenings, weekends and during the school holidays.
152. Hampshire County Council must prepare a statement for carers which gives details of the range of services provided under the Regulations setting out the eligibility criteria and how the range of services will need the needs of the carers.
153. In addition, under the Chronically Sick and Disabled Persons Act 1970 a local authority must make arrangements for services for disabled children including outings and other recreational activities outside of the home.
154. Under Children and Families Act 2014 it is stated that a local authority must keep these services under review and consider how the proposed services will be sufficient in meeting the needs (educational, training and social care) of the children and young persons concerned. Furthermore, in reviewing these services there is a specific duty to consult with relevant people set out in section 27(3).
155. The Care Act 2014 states that where it appears to the local authority that the adult may have needs for care and support the local authority must assess whether the adult has needs for care and support and what those needs are. Similarly for carers where it appears to the local authority that a carer may have needs for support now or in the future the local authority must assess whether the carer does have needs for support or is likely to do so in the future and if so what those needs are or are likely to be in the future.
156. On the basis of the assessments the local authority must determine if any of the needs meet the relevant criteria for care and support for an adult or support for a carer and consider what could be done to meet those eligible needs. The eligibility criteria are set out in Regulations.
157. In addition, the local authority has duties in respect of providing written advice and information about what can be done to reduce or delay the development of needs for care and support.
158. Local authorities have a duty under the Equality Act 2010 section 149 to have due regard to the need to: eliminate discrimination, harassment and

victimisation; to advance equality of opportunity between persons who share a relevant protected characteristic and those who do not share it; and foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Conclusions

159. Following the Executive Lead Member for Children's Services and Young People's Decision, the next round of commissioning for Short Break Activities will commence. This will be supported by a revised commissioning strategy, working with parents to confirm commissioning priorities for Short Break Activities from April 2021 and to design a new buddy scheme.
160. To ensure that a Short Break Activities Programme for Children with Disabilities can be provided from April 2021 within a reduced budget, and taking into account relevant information and the outcomes of the public consultation, it is recommended that approval is given to take forward the proposed changes to the Short Break Activities Programme as follows:

Proposal One: To reduce the overall annual grant awarded to provide Short Break Activities to £539,500. Recommended for implementation.

Proposal Two: To primarily accept funding applications that meet the core Short Break Activity priorities but retain a small 'exceptions' fund of £20,000 per annum. Recommended for implementation.

Proposal Three: To require Short Break Activity providers to secure a minimum level of funding from other sources. Not recommended for implementation. Recommendation for two-year grant funding in next round, in response to feedback.

Proposal Four: To reduce the annual grant awarded to Hampshire Parent Carer Network to £17,500. Recommended for implementation.

Proposal Five: To commission Short Break Activities through an external grant-giving body. Not recommended for implementation.

Proposal Six: To introduce a two-tier Gateway Card scheme, including proposed evidence requirements to support Gateway Card applications for each tier. Recommended for implementation.

Proposal Seven: To place a limit of 30 sessions per child, per year on Short Break Activities. Not recommended for implementation.

**Proposal Eight: To redesign the Community Buddy Scheme.
Recommended for implementation, including:**

- **Increases to parental hourly contributions from £5 per hour to £6.50 per hour, and mileage from 25p to 30p per mile.**
- **no longer giving access to non-Hampshire County Council area residents, or young people aged 18 years of age or over, saving £11,000 at current levels.**
- **Commissioning a new service, incorporating a single point for coordination and a differentiated offer within the scheme.**

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

Name of project or proposal (required): Short Break Activities Programme T21

Is this project a Transformation project? (required): T21

Name of accountable officer (required): Suzanne Smith

Email (required): sarah.1.roberts@hants.gov.uk

Department (required): Children's Services

Date of assessment (required): 28/10/2020

Is this a detailed or overview EIA? (required): Detailed

Describe the current service or policy: Children's Services' Short Break Activities Programme provides support to parents and carers of children and young people with disabilities. It seeks to offer a range of fun and educational activities for children and young people with disabilities and additional needs, so

that their parents or carers can have a short break from their caring responsibilities. Through the respite offered by the Short Break Activities Programme, parents and carers can take part in education and training courses, leisure pursuits, day-to-day tasks, and other activities. Short Break Activities are provided in the evenings, as well as at weekends and during school holidays.

Geographical impact (required): All Hampshire

Describe the proposed change (required): Several changes to the Short Break Activities Programme are being considered (corresponding to Proposals 1, 2, 4, 6 and 8 from the 2020 consultation):

- The overall grant awarded to provide Short Break Activities would be reduced by £597,000.
- Only accept applications that meet the core Short Break Activity priorities, except for a £20,000 exceptions fund.
- The grant awarded to Hampshire Parent Carer Network would be reduced by £17,500.
- A two-tier Gateway Card scheme would be introduced, and the evidence requirements changed.
- Redesign the Community Buddy Scheme, increase parental contributions, and limit access to the scheme to Hampshire County Council area residents who are under 18.

Who does this impact assessment cover? (required): Service users
Has engagement or consultation been carried out? (required): Yes

Describe the consultation or engagement you have performed or are intending to perform (required): A public consultation on proposed changes to the Short Break Activities Programme from April 2021 was held. It was open for 18 weeks, from 9 March to 12 July 2020, having been extended to mitigate the disruption caused by Covid-19. It was promoted through numerous channels (e.g. social media, targeted emails, and partner organisation communications). 15 engagement sessions were held, mostly online, attended by 47 unique individuals. 239 consultation responses were received in total. Additionally, 134 individual comments were collected from the engagement sessions.

Age (required): High

Impact (required): The service is for children with disabilities under the age of 18, therefore any changes made to the service have a high impact on this demographic. The number of registered Gateway Card holders constitutes 1.1% of the 0-17 age population in Hampshire.

Mitigation (required): Mitigations include:

*ensuring the Council engages with young people and their parents to help us determine priorities for Short Break Activities

- * the proposed introduction of a two-tier Gateway Card system to better understand needs of Gateway Card holders and the services required, and the creation of better links to places offering concessions
- * proposed retention of an exceptions fund to enable ad-hoc grant applications to be made.
- * ensuring signposting to support from Adult Health and Care services is available from age 18

Disability (required): High

Impact (required): There are currently around 2,600 Gateway Card holders who are registered to be able to access Short Break Activities. This is a small proportion (0.2%) of the overall Hampshire population of 1.382million (2019) and 1.1% of the under 18 population in Hampshire, however the impact will be on children and young people with disabilities and their parent/carers.

Mitigation (required): Mitigations include:

- * the proposed introduction of a two-tier Gateway Card system to better understand needs of Gateway Card holders and the services required, and the creation of better links to places offering concessions
- * working with social care teams to better understand instances of high uptake of Short Break Activities to ensure the families' needs continue to be met
- * designing a differentiated offer for the buddy scheme in order to commission different approaches to enable children and young people to work towards their desired outcomes.
- * By consulting with children and young people with a disability, and their parents/carers, we will seek to maintain a Short Break Activity Programme that continues the highest priority Short Breaks, in line with activity usage data, within the budget constraints.

Sexual orientation (required): Neutral

Race (required): Neutral

Religion or belief (required): Neutral

Gender reassignment (required): Neutral

Gender (required): Medium

Impact (required): There is a possibility that the proposals have a greater impact on boys than girls, who make up 51.3% of the 0-17 population in Hampshire (2019). In 2018/19 60% of attendees on Short Break Activities were boys. Autistic Spectrum Disorders account for almost 63% of the disabilities of Short Break Activity attendees. The number of estimated boys with autism in this age range is four times higher (2,241) than girls (560). In terms of parents/ carers, many primary carers of children with a disability are mothers. By potentially reducing the

number of Short Break Activities available this may have a greater impact on this group as they may have fewer opportunities for a break from their caring duties

Mitigation (required): Mitigations:

- Consult with parent/carers and young people to determine if provision for children with autism should be a priority within the grant round, and work with National Autistic Society (South Hampshire Branch) and Hampshire Parent Carer Network to evaluate grant applications, to ensure the best opportunity to provide provision to this group of children and young people.
- Consult with parent/carers to seek to maintain a Short Break Activity Programme that continues the highest priority Short Breaks, in line with activity usage data, within the budget constraints.

Marriage or civil partnership (required): Neutral

Pregnancy and maternity (required): Neutral

Poverty (required): Medium

Impact (required): Caring for a child with a disability can have a financial impact on a family, particularly where the primary carer has stopped working to enable their caring role. If there is a reduced Short Break Activity offer these families would potentially have fewer opportunities for a break from caring. Providers may also increase their prices in response to a reduction in grant funding from the Local Authority.

Mitigation (required): By consulting with parents/carers, we would seek to maintain a Short Break activity offer that continues the highest priority Short Break activities, in line with activity usage data, within the budget constraints. We would also continue to offer subsidised rates for activities where families can evidence receipt of benefits to enable families on low income to be able to access Short Break Activities and maintain the charging and remissions policy.

Rurality (required): Medium

Impact (required): There may be some disruption for people accessing this service who live in rural areas. This will depend on which providers apply for and are awarded a share of the grant for April 2021.

Mitigation (required): By consulting with parents/carers, we would seek to maintain a Short Break activity offer that continues the highest priority Short Break activities, in line with activity usage data, within the budget constraints. We would ask Short Break Activity providers to ensure that they give consideration to families from surrounding areas in their grant applications and if it is confirmed as a priority by parents/carers and young people, explore innovative approaches to delivery, the sharing of resources and closer joint working to reduce costs and help break down geographical barriers to delivery.

Any other brief information which you feel is pertinent to this assessment (optional): Specialist services for children with disabilities whose needs have been assessed as requiring a social care package are excluded from the proposals. These services comprise 91.67% of the Children with Disabilities budget.

Please confirm that the accountable officer has agreed the contents of this form (required): Yes

Introduction

Context and Aims

From 9 March to 12 July 2020, Hampshire County Council consulted residents and stakeholders across Hampshire on proposed changes to the Short Break Activities Programme.

In the context of an anticipated £80million shortfall in the County Council's budget by April 2021, and informed by feedback from the [County Council's Serving Hampshire - Balancing the Budget \(2019\) consultation](#), Children's Services developed a range of proposals to deliver a programme of Short Break Activities within a reduced budget. If agreed, these would continue to provide short breaks for parents and carers and fun, educational opportunities for the children and young people with disabilities but could help Children's Services to make anticipated annual savings of up to £696,000. Other proposals were intended to improve the effectiveness of the Short Break Activities Programme, thereby making the best use of available funding.

The Short Break Activities consultation sought views on these options and their potential impacts and invited alternative suggestions as to how savings could be delivered. The consultation ran between 31 March 2020 till 12 July 2020. The consultation period was extended to July in order to account for the COVID-19 pandemic

Information on each of the proposals was provided in an Information Pack, that clarified that a combination of the proposals would be needed to make the anticipated annual savings for the Short Break Activities Programme, as well as helping develop a more effective service.

The consultation was promoted to residents and stakeholders through a range of online and offline channels (detailed in Appendix One), including a series of drop-in engagement events and dedicated website. Information Packs and Response Forms were available in both virtual and hard copy formats and as standard, Easy Read and Young Person versions, with other formats available on request. Feedback was also welcomed via email or letter and captured at each of the engagement events.

In total **373** responses were submitted across all channels. The views provided through this consultation have been shared with Children's Services and will be used to inform decisions by the Executive Lead Member for Children's Services and Young People later in 2020.

Summary of key findings

The majority of respondents to the consultation were parents or carers of a child or young person with disabilities, with 82% of the respondent profile coming from this group.

Those that mentioned that they were parents and carers were also likely to own a Gateway Card (91%), which they used for a variety of activities such as access to holiday clubs (32%), for concessionary access (28%) and to access weekend Short Break Activities (23%).

Five of the 13 proposals presented within the consultation attained majority agreement.

To what extent do you agree or disagree with the proposal to:
(base 201-207)

These were proposals designed to either improve the effectiveness of the service or redesign the Community Buddy Scheme, namely:

- to offer a Buddy Scheme with different support options (80% agreement).
- to only fund Buddies for those children who live in the Hampshire County Council Authority area. (67% agreement).
- having one organisation responsible for recruiting and co-ordinating the Buddy Scheme (65% agreement).
- requiring the proposed evidence from applicants who wish to access Short Break Activities (60% agreement).
- splitting the Gateway Card scheme into two tiers – one to access Short Break Activities and the other to access concessions (58% agreement).

Four of the 13 proposals received a mixed response, with **no overall majority** of agreement or disagreement, namely:

- increasing parental contributions to account for inflation since the Buddy scheme was introduced, and review this in line with inflation each financial year (31% disagreement and 42% agreement).
- placing a limit of 30 sessions per child, per year on Short Break Activities. (41% disagreement and 41% agreement).
- increasing parental contributions for mileage from April 2021 (35% disagreement and 35% agreement).
- to commission Short Break Activities through an external grant-giving body (45% disagreement and 25% agreement).

The **four** least popular proposals, which **most respondents disagreed** with, all related to changes in funding, and in particular the proposal to deliver the Short Break Activities Programme within a reduced budget.

- Reducing the overall grant awarded to provide Short Break Activities (82% disagreement)
- Stopping funding for Buddies for young people aged 18 or over (73% disagreement)
- Reducing the grant awarded to Hampshire Parent Carer Network (56% disagreement)
- Short Break Activities Provider to secure a minimum level of funding from other sources (55% disagreement)

Verbatim comments regarding the proposals for delivering the Short Break Activities Programme within a reduced budget (67), highlighted the impact of reduced funding on the support available to parents and carers (22 mentions), and their access to essential breaks (four mentions) – particularly given the negative cumulative effect with other budgetary savings previously made by the service (13 mentions). Concerns were raised that the proposals could have the potential to put families into crisis (13 mentions).

Comments also focussed on the potential for the proposals to impact upon service users (14 mentions), with particular concerns about a lack of other suitable activities (six mentions) and that a reduction may impact upon the service users social development (five mentions). Others mentioned the implications of a reduction in Short Break Activities on other services (14 mentions) such as an increased reliance on more costly social care interventions (eight mentions)

Verbatim comments relating to the proposal to stop funding Buddies for young people aged 18 or over identified concerns that young people may not have any follow-on care during a time where other significant changes are likely to occur (three mentions). Respondents also felt the Community Buddy Scheme was currently not fit for purpose (19 mentions), mainly due to a perceived lack of Buddies (12 mentions).

Respondents who were current members of Hampshire Parent Carer Network (HPCN) were more likely to disagree with the proposal to reduce the grant awarded to Hampshire Parent Carer Network with 72% of current members in disagreement compared with an average of 56% across all respondents. In their verbatim, 10 respondents commented how the service which HPCN provides is highly valued, offering a helpful resource to parents and carers.

38 respondents provided an alternative suggestion to the proposals presented in the consultation, 15 of whom wanted the County Council to look for budget reductions elsewhere. Others suggested that the service could look to understand where there is the most need so resources could be directed to offer more targeted support (eight mentions). Others simply stated that the budgetary savings should not be met through Short Break Activities at all (20 comments).

Accessibility of the scheme was a running theme throughout the consultation, with respondents questioning the reason for more budgetary savings as it was perceived that services were already stretched and oversubscribed - some saying that support for SEND has decreased in general. Others highlighted that Short Break Activities are one of the only support services available to parents and carers, with four comments noting the additional pressures arising due to COVID-19.

There were 29 unstructured responses to the consultation, which did not use the Response Form provided by the County Council. These included 18 responses that were sent from Play at Maple where young Gateway Card users filled in an adapted version of the consultation Response Form. 10 responses were collected in a similar way by The Kings Arms, using an adapted version of the Young Person Response Form. One response was received from Basingstoke and Deane Borough Council – which stressed the importance of breaks for parents and carers within the borough and that lower income families could be disproportionately impacted by the proposals.

134 comments were shared and recorded through the 13 engagement sessions ran by the service. Overall participants provided a mixture of comments relating to the proposals in the consultation. Most notably, participants spoke of the issues around finding suitable provision and mentioned how valued the service was.

Responses to the consultation

Who responded?

There were 210 responses submitted via the consultation Response Form, which breaks down as follows:

200 were
individual
respondents

10 represented
groups,
organisations, or
businesses

There were also **29** separate unstructured responses (responses that were submitted as letters, emails and other communication channels that did not use the Response Form) received within the consultation period; these responses are also included in this report.

In addition, Children's Services ran a series of 13 face to face and online drop-in engagement sessions¹ to ensure the views of parents, carers, service users, organisations, and providers were heard. 47 people attended, and a total of 134 comments were collected and are included within this report.

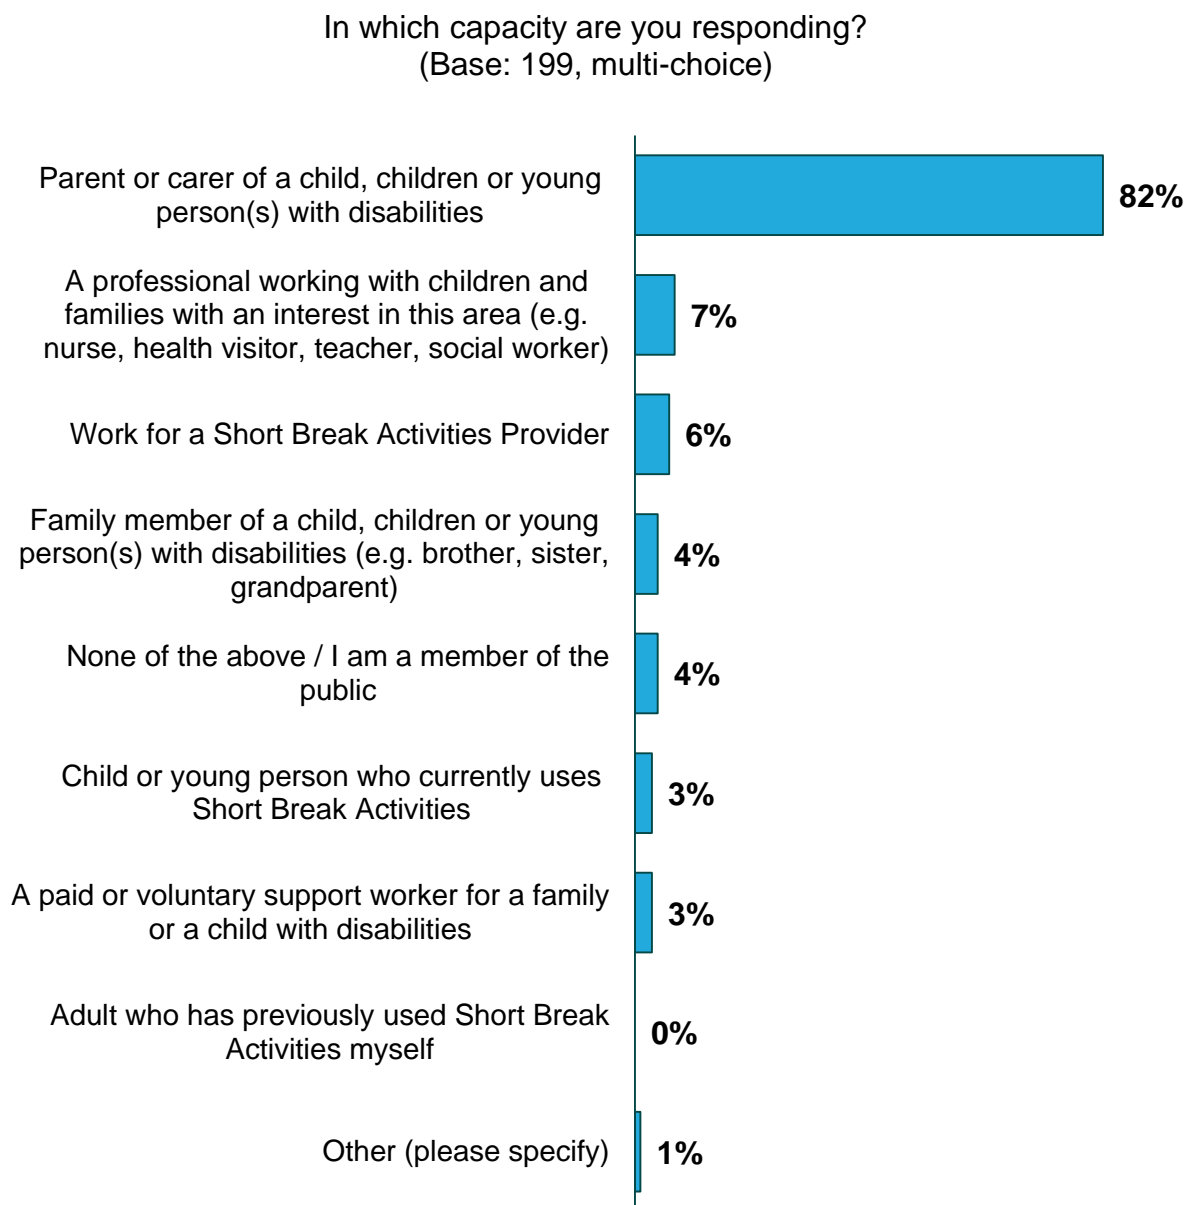

A detailed participant profile is provided in Appendix 5.

¹ One face-to-face engagement session was held prior to 23 March 2020, then sessions moved entirely online following discussions with Hampshire Parent Carer Network and in accordance with Government Guidance relating to COVID-19.

Respondent relationship with the service

96% of respondents completing the consultation Response Form had some connection with the Short Break Activities service.

The majority (82%) were responding as parents or carers of a child or young person with disabilities. 4% of responses came from family members of a child or young person with disabilities and 3% were from children and young people who currently use Short Break Activities.

The remaining responses came predominantly from professionals or volunteers working within the sector.

Respondents who indicated that they cared for a young person with Special Educational Needs and Disabilities were mainly caring for children aged between 6-15.

If you care for a young person with Special Educational Needs and Disabilities, how old is the person(s) that you provide care for?
(Base: 87, multi-choice)

10 completed Response Forms were received from organisations, groups or businesses.

Five stated that they provide activities for all children or young people, including those with disabilities. Three stated that they only provide activities for children or young people with disabilities, whilst three stated that they provide activities and services for both adults and children with disabilities.

Does your organisation, group or business provide any of the following services? (Base: 10, multi-choice)

Location of respondents

Respondents were asked to provide their postcode. The map (below) shows the distribution of respondents by postcode, with larger circles representing a higher number of respondents. Respondents came from across the County, with a concentration of responses coming from bigger towns and cities such as Basingstoke, Fareham, Gosport, Winchester, and the surrounding areas of Southampton.

Distribution of respondents across Hampshire (Base: 140)

Delivering the Short Break Activities Programme within a reduced budget

Proposal One: To reduce the overall grant awarded to provide Short Break Activities

This proposal was is to continue to commission Short Break Activities that are important to families, meeting specific priorities, but with a reduction in the total value of grant funding available. It could potentially deliver between £512,000 - £696,000 of annual savings, depending upon the final combination of proposals approved.

82% of respondents disagreed with the proposal to reduce the overall grant awarded to provide Short Break Activities.

To what extent do you agree or disagree with the proposal to reduce the overall grant awarded to provide Short Break Activities? (Base: 204)

There were 33 respondent comments regarding Proposal One, within which there were 15 mentions of the potential impact the proposals may have on funding and support for Short Break Activities. Specifically, they noted how the proposal adds to the budgetary changes from previous years, putting further pressure on services that support SEND in general. Additionally, 13 respondents mentioned how the service was highly valued, emphasising that it is fundamental to families that rely on it for respite.

“

My son and I rely on these activities. It would be difficult to find anything that would fill the gap to provide creative opportunities for him to improve his social skills and creative skills in a nurturing environment. Please continue with support for this programme for vulnerable young people.

If funding is reduced most short breaks struggle to supply the support needed. Meaning they cut valuable spaces from families who need them. So many have closed due to so many budget cuts.

The cuts to short breaks already is leaving families of SEN children feeling isolated and like they are being suffocated, further cuts will only make this worse. I have had one of my son's clubs which he attended for 5 years cut. Other clubs are now busier being used by families traveling from further afield desperate for a break taking sessions local families would have used. Stop reducing our breaks or families will stop coping.

”

Proposal Two: To only accept funding applications that meet the core Short Break Activities priorities

The main Short Break Activities grant round invites applications based on the core Short Break priorities. Where activities do not fall within the identified Short Break Activity priorities, providers may currently apply for ad-hoc grant funding. However, over the last three years the value of ad-hoc applications has fallen well short of the available funding, with almost £450,000 of the Short Break Budget remaining unallocated. Therefore, the County Council proposed to either remove or reduce the 'exceptions' fund.

The majority of respondents (61%) were supportive of changes to the 'exceptions' fund.

Over half (53%) preferred to reduce the 'exceptions' fund by 78% in line with current demand to achieve a saving of £70,500, leaving £20,000 for exceptions, whilst 8% preferred that the 'exceptions' fund was removed to achieve an annual saving of £90,500.

39% of respondents would prefer the County Council to retain the 'exceptions' fund at its current level of £90,500.

Which of the following options would you prefer? (Base: 204)

Five respondents provided specific comments concerning Proposal Two, most mentioned (three mentions) that there was a lack of advertising or promotion of the 'exceptions' fund, with the suggestion that this may be the reason why the fund was not being utilised to its fullest extent.

Two respondents mentioned that Short Break Activities are currently difficult to access, such as not being able to find suitable breaks or a perceived lack of capacity to accommodate the parent or carers needs, and felt that the 'exceptions' fund could be directed towards funding for activities for children and families that are in need of respite.

“

We as a family are desperate for even an hour of respite. It's saddening and shocking to discover you've had unused budget when we have tried everything to access short breaks and been told there were none available. We've been waiting for buddy for over a year. Maybe the funding could be used to employee PA's/ carers so buddy's would be available?

The Exceptions Fund is an inaccessible, non-advertised source of funding. The clear reason as to why people are not applying to this fund is because they do not know that it exists.

It has never been suggested by providers that they can arrange short breaks for our family by using an "Exceptions fund"...I feel that if there is an "Exceptions fund" then this information should be relayed to families who are not able to use the Short Break Activities Programme because their child's needs are too complex.

”

Proposal Three: To require Short Break Activity providers to secure a minimum level of funding from other sources

This proposal would introduce a requirement for providers to contribute at least 10% of the value of the grant being requested towards the cost of running a Short Break Activity, to prove that they are not entirely reliant on the County Council's funding. The 'match-funding' contribution could be generated from a range of sources such as other grant applications and fundraising.

55% of respondents disagreed with the proposal to require Short Break Activity providers to secure a minimum level of funding from other sources. 27% said that they agreed with the proposal, whilst 15% neither agreed nor disagreed.

To what extent do you agree or disagree with the proposal to require Short Break Activity providers to secure a minimum level of funding from other sources? (Base: 207)

Those that provided the official response of an organisation, group or business were asked what grant period would best enable the proposed level of match funding (at least 10%) to be achieved. The consultation heard from 10 organisations, five of which preferred a longer grant period of 24 months, two who thought that 18 months would be sufficient, and one organisation which felt 12 months would best enable them to source match funding.

Nine respondents made specific reference to Proposal Three in their comments. Most focused on the impact that the proposal may have on providers (six mentions), specifically that providers could be at risk if they were unable to secure 10% of the value of a grant being awarded.

One respondent made reference to COVID-19 and the subsequent impact this might have on providers.

“

Voluntary income is becoming harder to access and maintain. We agree that all providers should provide the same level of alternative funding to a project. Value for each £1 spent should be a priority, services need to be provided where the need is greatest, not where the parents shout the loudest.

10% is a lot of money for a charity to find but if it means the scheme is 90% funded by Hampshire than better this than the scheme not run.

I would be concerned about the capacity of charities like Enable Ability to raise matched funding especially in the current COVID-19 climate where all charities are struggling to raise funds and at a point where we are likely to see further recession / austerity in the coming years. Organisations such as these who have extensive knowledge and experience in supporting young people need to be protected, not put at risk.

”

Proposal Four: To reduce the grant awarded to Hampshire Parent Carer Network

If approved this proposal would seek to reduce the annual amount awarded by the County Council to Hampshire Parent Carer Network by 50% from £35,000 to £17,500. This would bring the level of funding provided by Children's Services more in line with the level of service that would be required in future for Children with Disabilities.

56% of respondents disagreed with the proposal to reduce the grant awarded to Hampshire Parent Carer Network, whilst 25% of respondents agreed with this proposal. 16% said that they neither agreed nor disagreed with the proposed option.

To what extent do you agree or disagree with the proposal to reduce the grant awarded to Hampshire Parent Carer Network?
(Base: 205)

42% of respondents were members of the Hampshire Parent Carer Network as either a parent or carer, and 1% were volunteer members. 57% of respondents were not current members of the Hampshire Parent Carer Network.

Are you a current member of the Hampshire Parent Carer Network as either a parent, carer or volunteer?
(Base: 189, multi-choice)

Those respondents that were current members of the Hampshire Parent Carer Network were more likely to disagree (72% disagreement) with the proposal to reduce the grant awarded than the overall response (56% disagreement). Those that were not current members of HPCN had a mixed response, of whom 47% disagreed and 33% agreed with the proposal.

To what extent do you agree or disagree with the proposal to reduce the grant awarded to Hampshire Parent Carer Network?
By membership to HPCN (Base: 205, 79, 106)

10 respondents made specific reference to Proposal Four in their comments. Most reflected how the service which HPCN provides is highly valued, offering a helpful resource to parents and carers (six mentions).

Others commented on HPCN's funding in general, with four respondents stating it would be a good idea to implement a reduction in funding.

Hampshire Parent Carer Network is invaluable for us parents who need support with our children. I have used them and they have supported me with school visits, applying for DLA and information on the Gateway Card and the yellow card. Cutting a service for parents, and there aren't many out there to support us, is not right. If you cut what will you do as the council to help parents of children with needs?

We really rely on Hampshire Parent Carer Support Network and their staff in lots of situations as well as Short Breaks.

Personally, I find HPCN unfriendly and underused and I don't generally go to their meetings as I don't see what their purpose actually is.

HPCN - need to be well funded to serve their purpose & savings proposed are preposterous - how can they hold you to account if you cut their funding?

The Hampshire Parent Carer Network also provided a comment about this proposal:

HPCN need the additional funding to work across a larger area. We cannot run the parent carer forum on the contact grant and 17.5k. Our Get Togethers are vital for us to engage with families across the whole of the county as are the staff we employ to run the service. The funding from Health should be organised internally.

Verbatim comments on Proposals One, Two, Three and Four

Respondents were asked to provide a comment on any of the proposals for delivering the Short Break Activities Programme within a reduced budget or to describe the impact that the proposals may have. Respondents mainly provided general comments (69 comments) and comments that reflected the perceived impact of the proposals (67 comments).

General comments about delivering the Short Break Activities Programme within a reduced budget focused on how much the service was valued (38 mentions).

27 respondent comments described how Short Break Activities were fundamental to the wellbeing of families and children with disabilities, with many expressing how important the scheme was to them.

The respite care is invaluable to disabled and special needs already disadvantaged children and parents who get very little respite already and who, like me, are stressed and this is our only chance of a break. Also, these short breaks are a great chance for the special needs children to get to do activities they are unable to normally do.

My son and I rely on these activities. It would be difficult to find anything that would fill the gap to provide creative opportunities for him to improve his social skills and creative skills in a nurturing environment. Please continue with support for this programme for vulnerable young people.

My son goes to one of the short breaks on a Saturday and also goes during school holidays, for us is a lifeline, these short breaks are extremely vital for families and children with disabilities and for them to have funding reduced When they are already struggling will have a massive impact and has already seen some close.

There are barely any activities available for children with disabilities and if the budget is cut, then families like us will lose out on any quality time that we can spend with our other children. These short breaks are vital for our family as that's the only time we get to socialise, shop, spend any time with our other children or do anything else.

The short breaks are a godsend during the school holidays. My son has complex needs and respite during the six-week summer holidays is essential for everyone's wellbeing.

Others mentioned the accessibility of the scheme in its current form (29 mentions), with respondents stressing that services are stretched and the demand for Short Break Activities high (26 mentions). Some also mentioned that there is a lack of support for children with complex needs, the emphasis being that Short Break Activities are perceived to be the only support parents and carers have access to (four mentions).

“

Families like ours are at breaking point. We have already lost after school provision and now you are proposing further budget cuts! We already fall out of the remit for social care support. This truly is most disappointing!

We as a family have two children with complex needs, we don't qualify for social care support because we can meet our children needs but it's coming at a heavy price to our family and mental health. We desperately need some respite but haven't been able to access any short breaks. You can't cut this service, families need it.

The access in Basingstoke for short breaks is extremely limited and for families who do not drive is near impossible to access others, having sessions limited would be just as bad we really need to look at short breaks and how accessible they actually are and for the ones already running how vital they are to families and young people, I understand money needs to be saved and funded from somewhere but feel that the changes proposed will only have a negative affect rather than a positive.

I do not know of anyone who has been able to access the short breaks scheme since funding was reduced massively last year. Previously it would help with days out. Leaving children with a disability can be extremely challenging and accessing services is impossible. I and others are desperate for respite, but we are told there is none. We don't know how to access the scheme and are exhausted by day to day Caring responsibilities. saying they are not being used is not acceptable.

I NEED short break provision for my ASD ADHD son and there is currently nothing to access locally. I have the means to pay but there is no provision. Please look at means testing parents and investing in better provision. I have the money and the need but nowhere to spend it and get the respite the whole family needs.

I've never used short breaks as I have never been able to find anything suitable. Reducing the provision too much will only make it less likely for me to find anything I can use.

”

67 respondents mentioned a perceived impact of delivering the Short Break Activities Programme within a reduced budget. Most often, they highlighted the impact of reduced funding on the support available to parents and carers (22 mentions) – particularly given the potential cumulative effect of this and other service cuts (13 mentions).

Percieved impacts regarding Proposals One to Four (Base: 67, multi-code)

You should be increasing funding for children with disabilities. The short breaks programme has been demolished in the last 5+ years and this has had a significant impact on us as a family- I've found it harder to work, my disabled child has fewer opportunities, which impacts on their siblings.

We have already had finding cuts to many things that we try to access within the short breaks scheme. How can there be more to come? This scheme is fundamental to my family and to cut it even further would have a detrimental effect on my families wellbeing.

We have already lost groups that my children attended due to funding cuts, surely further cuts would impact and put at risk those groups that remain now.

Others mentioned the impact the proposals could have on service users (14 mentions), particularly the concern over a lack of other suitable activities (six mentions) and that if activities were to reduce, this may impact upon the service users social development (five mentions).

If funding is cut young children and teenagers will become more isolated and unable to meet up with friends and peers in a safe environment.

The short break activities programme is essential to my child who is unable to access other resources due to her complex needs. It is a lifeline.

Can't go to places like mainstream children can if funds are going to be cut. Child and his carer feel he may miss out on social time with friends, as he needs an activity provider that can cater for his extra needs and his carer needs to be sure they will make him safe and look out for his needs.

My daughter accesses Junior Club provided by Enable Ability through short breaks. Due to her SEND she requires activities which allow her to access to the things that other children her own age can access independently. There is currently no alternative to junior club.

Some respondents also highlighted the implications that a potential reduction in Short Break Activities may have on other services (14 mentions), such as an increased reliance on other more costly social care interventions (eight mentions), and that Short Break Activities allow parents and carers an essential break from their caring duties (four mentions).

“

I know a lot of families rely on short breaks services for Respite and also for the child's/ young persons need to access activities/ leisure. Without this support more families will be coming to Children's Services for support, meaning more families open as CIN cases and also without 'early intervention'/ available services there is potential for more families reaching breaking point and substantive care packages then needing to be put in place. So the money will still need to be spent by children's services, just from another budget and likely a lot more!

Short breaks are essential to provide parents with a break that is geared towards their child's needs - with suitable staff and this will help maintain children in their family home thus saving the immense cost of possible residential placements.

Stop cutting funding to these services! They are vital for parents and carers of disabled children. It will cost more in the long-run in terms of health and mental well-being for all concerned.

”

Others commented on the negative impact the proposals may have on the family unit (13 mentions), with some going on to say how the proposals could put families into crisis (seven mentions).

“

You will force more and more families into crisis and that will cost you a lot more in the future if you continually push these families to the limit!!

Not having access = hospital visits, family breakdowns, more longer-term expense.

”

A smaller number of respondents mentioned potential alternatives to those proposed (30 mentions), particularly that funding should be increased, not decreased (seven mentions). Others suggested that the required budgetary savings should be taken from other County Council departments (five mentions), whilst some mentioned that funding should be redistributed to priority Short Break Activity areas (five mentions).

Alternative suggestions for Proposal One to Four
(Base: 30, multi-code)

“These are vital services and should be funded well.”

“These services are vital to many families and shouldn't be cut.”

“There must be cuts that can be made in other departments instead of targeting these children.”

Proposals to improve the effectiveness of the Short Break Activities Programme

Proposal Five: To commission Short Break Activities through an external grant-giving body

There are other organisations in Hampshire that support vulnerable people in local communities that might be willing to work in partnership with the County Council to direct grant resources to where they are most needed. This proposal seeks to work with an external grant-giving body to conduct the process of awarding grants to deliver Short Break Activities on its behalf or in collaboration.

There was no clear consensus with regards to this proposal. Although respondents were more likely to disagree (45%) than to agree (25%), a further 27% neither agreed nor disagreed.

To what extent do you agree or disagree with the proposal to commission Short Break Activities through an external grant-giving body? (Base: 203)

58% of respondents felt that it would be appropriate for the County Council to work in collaboration with partner organisations in order to administer grants to the Short Break Activities Programme, compared to only 6% who preferred the option of commissioning an external grant-giving body to conduct the process on the County Council's behalf. 22% felt that neither of the proposed ideas was appropriate.

Six respondents referred to Proposal Five in their comments. The primary concern was that an external grant giving body may increase administration costs and may create a lengthier process for providers to obtain funding.

The external grant giving body proposal just seems to be another layer of unnecessary paperwork, possibly costing more and yet unlikely to be more efficient to the current set up. It seems unnecessary and unlikely to help children with disabilities.

I think adding in another grant giving body will add more confusion and administration, red tape and delay. Also will give the council another excuse to blame a third party when no service is available / realistically achievable.

Is this another layer of administration and what is the cost of doing so for the providers - will they have two masters grant authority and Hampshire - the providers have little.

Proposal Six: To introduce a two-tier Gateway Card scheme

This proposal sought to create a two-tier Gateway Card system, to ensure that those families who solely use a Gateway Card to access concessions remain able to do so, whilst also providing the County Council with a better understanding of local need for Short Break Activities in order to plan services and further develop the Gateway Card scheme.

All respondents were asked whether they currently have a Gateway Card. Of those that responded 77% said that they currently hold a Gateway Card. 91% of those that indicated they were a parent or carer of a child with disabilities said that they were a Gateway Card holder.

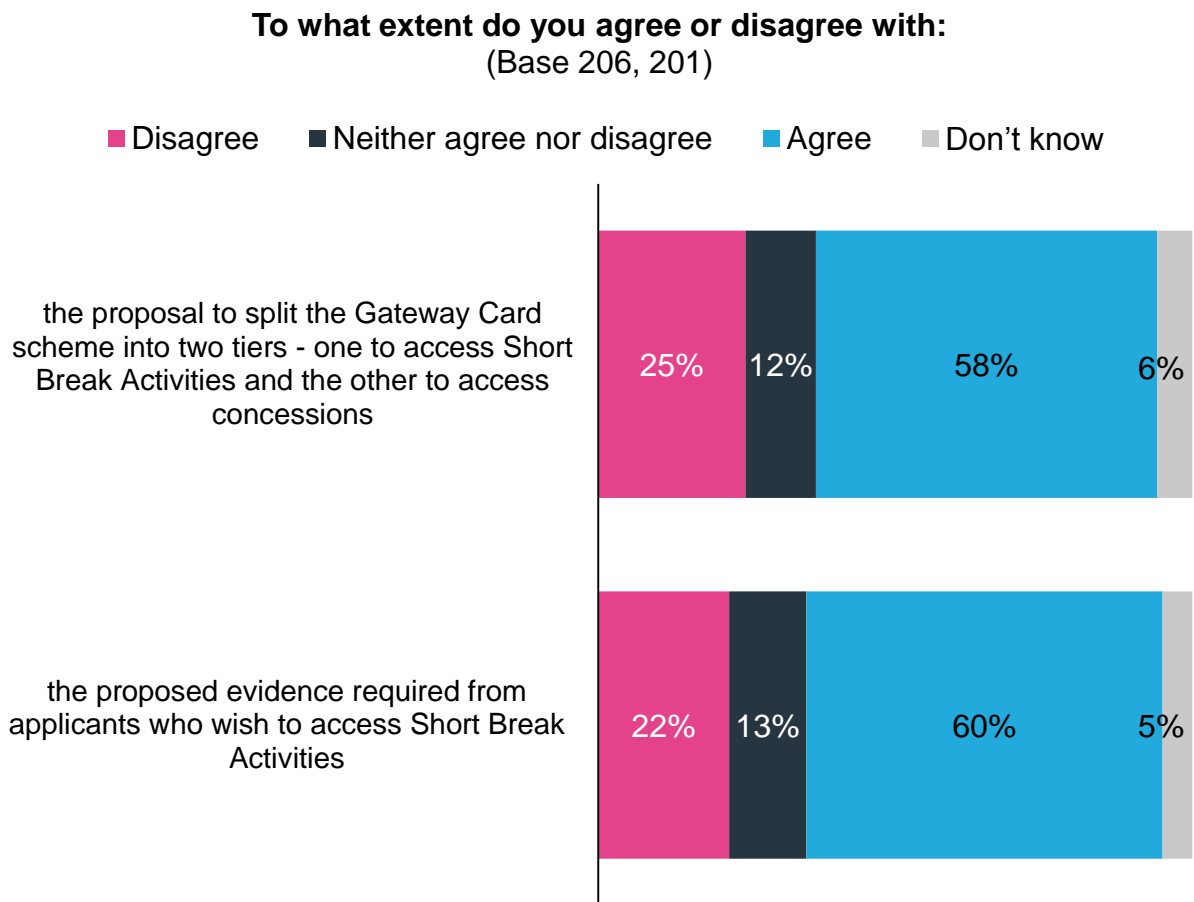

Gateway Cards were used for a variety of activities such as access to holiday clubs (27%), to access weekend Short Break Activities (25%) and for concessionary access (24%). They were less likely to be used to access evening youth clubs as a Short Break Activity (7%).

Those that specified what other activities they have accessed using a Gateway Card said that they used it to access the Buddy Scheme (four respondents) and for afterschool care or weekend activities (four mentions).

10 respondents mentioned that there was a lack of appropriate or suitable provision, whilst seven respondents mentioned that they have not had a chance to use their Gateway Card yet.

The majority of respondents (58%) agreed with the proposal to split the Gateway Card scheme into two tiers. 25% disagreed with this proposal.

60% of respondents agreed that the proposed forms of evidence required from applicants who wish to access Short Break Activities were appropriate. These included:

- Receipt of Disability Living Allowance (DLA).
- A Personal Independence Payment (PIP).
- An Education Health and Care Plan (EHCP).
- A referral from a social worker.

A small number of respondents provided a comment on Proposal Six (seven mentions). Some felt that the two-tier system would help the Gateway Card system to work more effectively (three mentions) whilst others felt that having to provide evidence may be a barrier to additional support (four mentions).

The two-tier system would be a better way of ensuring the Gateway card system is being utilised effectively.

The two-tier Gateway Card scheme is needed as parents and carers need a concession card to use to prove eligibility for reduced entry due to having a carer

I don't see why having two tiers of Gateway Card will help. I don't use our card for short breaks because I can't find any suitable - not because I don't want to!

Two tier card might be useful if a member does not plan to use the advanced services then opt for a lower cost alternative, but do not make it harder to obtain the full card - should be available to all who need it, they may not necessarily have those criteria mentioned for whatever reason - such as too exhausted to jump through the hoops, language barriers, etc.

In order to inform how the County Council can extend the range of concessions that can be accessed with a Gateway Card, respondents that had a relationship² with the service were asked which concessions they would be interested in. Days out (89%) were most popular, closely followed by fitness activities (76%) and cultural activities (75%). 20 respondents put forward other activities which might be of interest, the majority of which mentioned swimming lessons.

Which of the following may be of interest to you? (Base: 149, multi-choice)

² Respondents who indicated that they were a parent, carer or family member of a child or young person with disabilities, or those who indicated they were a child or young person who used Short Break Activities.

Proposal Seven: To place a limit of 30 session per child, per year on Short Break Activities

Gateway Card holders can book on as many or as few Short Break Activity sessions as they wish (subject to availability). It has been found that this can create discrepancy in the system, which may lead to some families having less opportunity to book a Short Break Activity. This proposal seeks to place a limit of 30 sessions per child, per year on Short Break Activities.

There was a mixed response to this proposal, with an even split between those who agreed (41%) and disagreed (41%) 17% of respondents neither agreed nor disagreed with the proposal.

To what extent do you agree or disagree with the proposal to place a limit of 30 sessions per child, per year on Short Break Activities?
(Base: 206)

40 respondents provided a comment regarding Proposal Seven specifically. The majority of respondents mentioned how 30 sessions was simply not enough to maintain a caring role (19 mentions), and that the limit could impact on the funding and support that they received (12 mentions). Others suggested a different approach to the allocation of Short Break Activities (11 mentions) such as allocating a set number of sessions based on those with the most need for the service (six mentions).

“

Restricting sessions to 30 per year per child is just going to put more pressure on Personal Budget funding or break parents. If you have a child who has extreme behaviours you need a lot of respite, maybe every day or you will collapse. If the parents can't cope then the state will have to take over full time and that will be FAR more expensive.

30 sessions a year is not a reasonable amount for us, to cap it like that it's not a good idea at all.

Some families are more in need of short breaks than others, depending on their particular circumstances at the time. A limit of 30 seems arbitrary. This would limit my ability to work in school holidays particularly.

”

Verbatim comments on Proposals Five, Six and Seven

Respondents were asked to provide a comment on any of the proposals for improving the effectiveness of the Short Break Activities Programme, or to describe the impact that the proposals may have. Respondents mainly provided general comments (54 comments) and comments that reflected the perceived impact the proposals may have (30 comments). 15 respondents suggested an alternative approach to the proposals.

General comments about Proposals Five to Seven (Base: 64, multi-code)

The main point raised within the general comments was that 30 sessions per year per child would not adequately meet parents and carers needs (19 comments).

If you limit it to 30 days you limit when and where. For some of our families where 2:1 funding is needed you are reducing their respite by half!

30 is too low. Many families will need to come ask you for more support via social care assessments when they would prefer not to have to. Greater cost for staff to go out administer care packages, review etc. And likely greater risk of family breakdown and expensive overnight respite or permanent placements.

Limiting sessions, especially those that cover holiday playschemes, will have a huge effect on working parents. Childcare is almost impossible to find for SEN.

Limiting the number of short breaks per person would make it difficult for us to have breaks ourselves on weekends as that's the only time we get to recharge and have a break from the caring duties.

Respondents again expressed how the Short Break Activities service was highly valued (18 comments) and that it provides a lifeline to parents and carers. With this in mind, respondents were also concerned that access to Short Break Activities was already difficult to obtain (14 comments) and felt that a reduction in the number of sessions on offer would exacerbate this.

The reason that I haven't made more use of the Short Breaks activities programme is that there are not many services available to us in Andover. Since funding was withdrawn for such things like the after-school care at the Wellington Centre, we are limited in what support we can get for my child who has Autism.

Short Breaks is a lifeline for some families, accessing evening and weekend clubs during term time, and also holiday clubs during school holidays. Without these, many families would not be able to cope. I know I would be looking at alternative living arrangements for my 17-year old if Short Breaks didn't exist.

There needs to be a clear website detailing exactly what is available, e.g. who has the funding so families know where to turn when all other doors are being slammed in their face. It's an unfair system to new applicants who don't know where to go for a break.

Short break activities are a lifeline and families depend on our activities in order to get a regular break and also for their children to step away from young carer duties despite having disabilities themselves.

Please continue to support this vital programme for young people.

Nine respondents gave a positive perspective, mentioning how they felt the proposals may improve accessibility, and allow for a more equitable distribution of breaks for parents and carers.

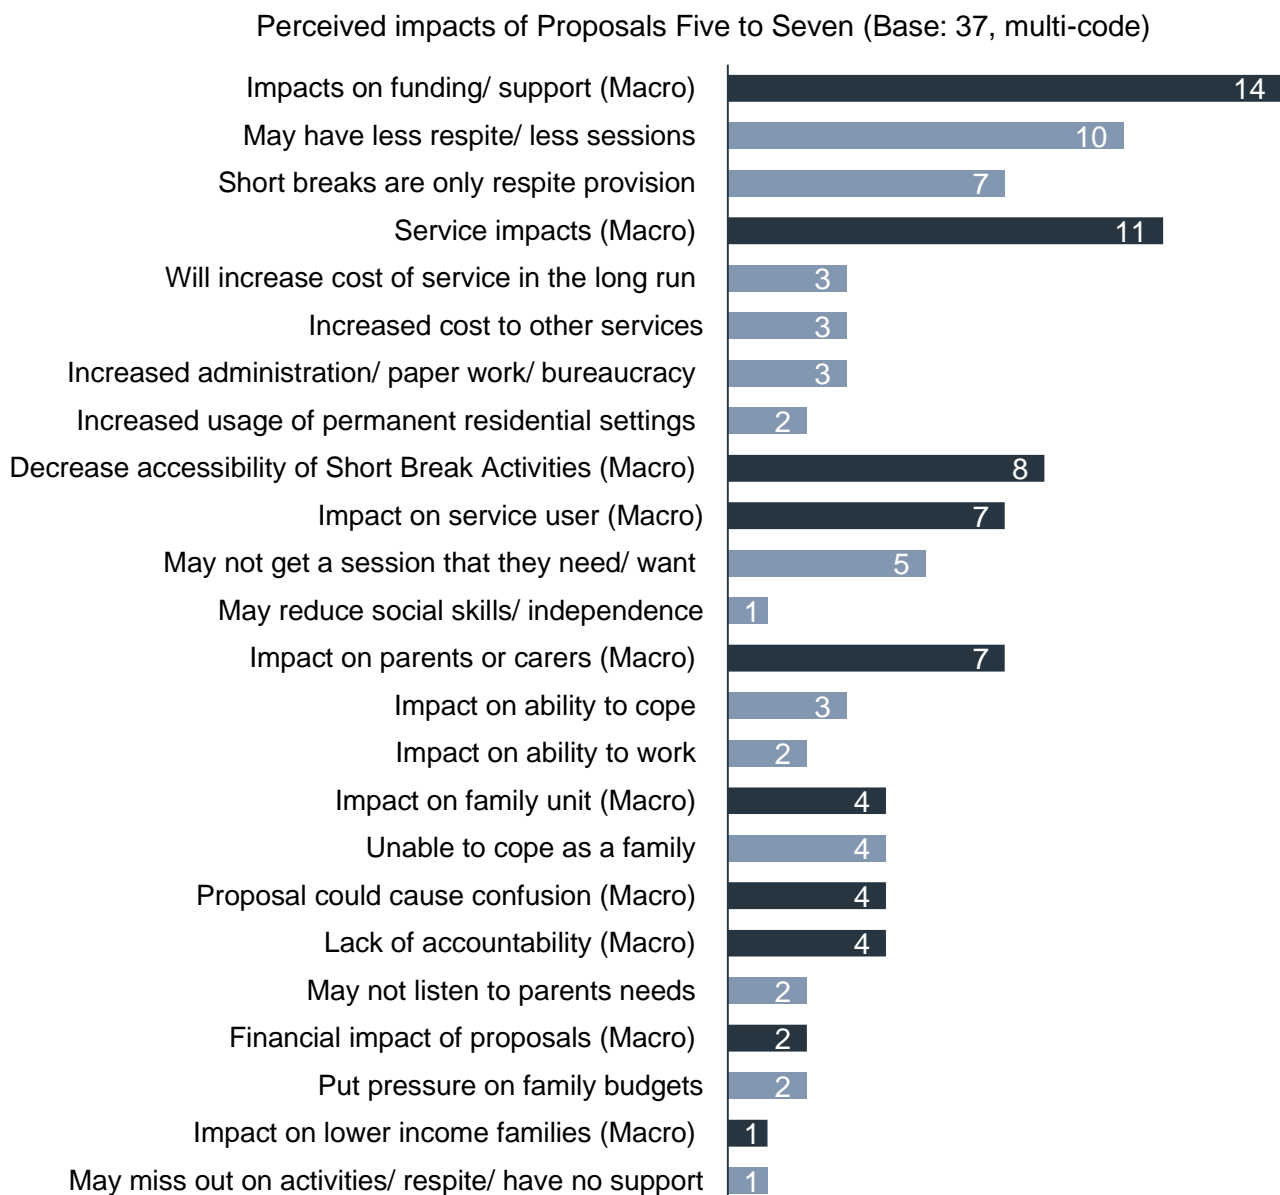

“ It seems fair to cap how many activities etc can be booked to ensure a fair chance for everyone to access, although your report implied this usually wasn't the case, no waiting lists, etc. But if others aren't using the 30 given, then it seems a shame if others miss out who could of used it.

I feel that a reduction to two a month is adequate and, with good administration, would enable a regular routine to be established.

I believe that this way everyone gets a chance to take part and it becomes equal accessibility to all.

”

37 respondents also outlined potential impacts that could arise from the proposals to improve the effectiveness of the Short Break Activities Programme.

14 respondent comments mentioned that there could be an impact on the funding and support that parents and carers receive for children with disabilities, some commenting how they could receive less respite and that Short Break Activities is the only form of support that is currently available to them.

For some families 30 sessions would be more than they currently get and would be beneficial however they may also have lots of support in place but for another family having one session a weekend maybe their only respite and some of these children need the structure of knowing the frequency of when they are going!

This is the only access to support we have been able to find that is suitable for our child. Please do not proceed with these proposals, our family faces daily struggles.

With the lack of alternative clubs for disabled children, I would be very concerned if children lost opportunities to take part in these. Activity providers wouldn't have enough children to run activities which would then be cancelled. It would be far more sensible to try to encourage those who don't join activities (also look at why they don't) to join some and if this increases demand then consider limiting. It would be very short-sighted to limit activities first as I don't think it would suddenly mean those who don't join would.

11 respondent comments reflected on the wider service impact the proposals could have, with some suggesting that there could be additional long term cost implications (three mentions) such as a reliance on other social, medical and health services if adequate respite was not provided (three mentions).

If you reduce the short breaks or access to or however you've already chosen to then will you fund more in Children's services itself as there'll be a lot more need from the parents and children who have lost out because of your funding reduction and get to breaking point.

Please don't cut funding I cannot work without short breaks and this would mean I would need to stay at home and claim carers allowance which would be detrimental to my mental health and affect the country as I will be taking out of the country instead of putting in. This is the case with lots of parents.

Families must have access to short breaks in order to cope. Any reduction will have a negative affect and cost implication on other services e.g. social services, medical services and mental health services. If you cut short breaks you will just be having to increase the money spent on other services that pick up the problems caused by the lack of short breaks.

20 respondents gave suggestions as to how Short Break Activities could be allocated differently, specifically that there should be a fairer (seven mentions), holistic (three mentions) and needs based approach (six mentions).

Alternative suggestions for Proposals Five to Seven (Base: 20, multi-code)

All breaks should be allocated on a needs-based approach, those children / families with the higher need should get preference. Support should be given when it is first asked for, families should not have to reach crisis point before they are considered girls short breaks. Families should be looked at holistically and the benefit that short breaks provides for siblings of SEND children.

Access needs to be fairly allocated to families rather than first come first serve.

Would focus more on getting other Gateway card holders to use more sessions and investigate why they cannot access more - it is most likely due to there being insufficient accessible options available.

Look at the needs of the individual? Not a lot available for young people like my 17-year-old, who is severely disabled. Maybe worth assessing each individual case.

It seems fair to cap how many activities etc can be booked to ensure a fair chance for everyone to access, although your report implied this usually wasn't the case, no waiting lists, etc. But if others aren't using the 30 given, then it seems a shame if others miss out who could of used it.

Proposals to redesign the Community Buddy Scheme

Proposal Eight: to redesign the Community Buddy Scheme and changes to parental contributions

This proposal sought to make the Community Buddy Scheme more effective, whilst also identifying some specific savings. Potential service changes could involve having one organisation responsible for recruiting and co-ordinating buddies. It could also mean introducing a different buddy 'offer' that provides alternative options for support (such as group mentoring, joint buddy support, or one to one support where this is required to promote independence) - recognising that particular groups of children and young people may have different needs.

This proposal also targeted specific savings by aligning the scheme with the rest of the Short Breaks Offer, ensuring the service is within the statutory remit of Children's Services, and suggested an increase in parental contributions towards the Community Buddy Scheme.

There was a mixed response regarding a potential increase in parental contributions to the Community Buddy Scheme, although overall more respondents agreed (42%) than disagreed (31%) with this proposal.

To what extent do you agree or disagree with the proposal to increase parental contributions to account for inflation since the scheme was introduced, and review this in line with inflation each financial year? (Base: 205)

Opinion was even more divided with regards to the proposal to increase parental contributions for mileage, with exactly the same proportion of respondents disagreeing (35%) as those who agreed (35%). A quarter (24%) of respondents neither agreed nor disagreed with the proposal.

To what extent do you agree or disagree with the proposal to increase parental contributions for mileage from April 2021? (Base: 206)

When asked what level of contribution parents and carers should make with regards to mileage, 40% preferred to increase parent mileage from 25p per mile to 30p per mile, whilst 35% preferred to keep the mileage contribution at the current level of 25p per mile.

Very few respondents (8%) supported an increase to the full HM Revenue and Customs mileage rate of 45p.

Which of the below options do you prefer? (Base: 204)

14 respondents gave a specific comment about increasing parental contributions for mileage and to account for inflation. Most of these respondents mentioned how some families may struggle to afford additional costs, with this becoming a barrier to accessing the Buddy Scheme (six mentions).

“

As someone who currently works as a private carer similar to the buddy system, the buddy system is a great name for this work but some families can barely afford to top pay up as it is and I don't feel it is fair to expect them to pay more when some are unable to! Also I am aware of how hard it is to get a carer for the home, so having one company may be beneficial!

Parental contributions if increased should be means tested.

The contributions are already a barrier for some, we have found too many hurdles, too long to get to a point to use a buddy only to find they are not suitable.

The buddy scheme is already too expensive for most parents that are unable to work and support disabled children due to the total lack of support from children's services and social care. 20 hours per month x £6.50 = £130 cost to parents plus travel. Same goes for fuel. This makes it even more inaccessible.

”

The majority of respondents agreed with three out of the four proposed ideas to redesign the Community Buddy Scheme.

However, most (73%) disagreed with the proposal to stop funding buddies for young people aged 18 or over. In the comments, three respondents shared their concern that young people may not have any follow-on care during a time where other significant changes to care are likely to occur.

To what extent do you agree or disagree with the proposals to...
(Base: 202-205)

“ People over 18 that use this scheme need to use it, otherwise why would they? Cutting this would just shift the responsibility elsewhere or leave them without.

I do agree that local funding should go to local children. And cutting funding at 18 is a terrible mistake - in the same way that EHCPs continue to 25, support services should continue during and beyond the transition to adult services. This is a time when young disabled people are already extra vulnerable and subject to a lot of other changes.

”

Respondents would like to retain a buddy scheme that offers one to one support to promote independence (74%) but were also open to options for joint buddy support (54%) and group mentoring (35%).

Overall, 54% of respondents³ would like a combination of the proposed options, with the most popular combination being one to one and joint buddy support.

Only 56 respondents (27%) felt that the scheme should solely provide one to one support going forwards.

In their comments, respondents reflected that the type of support should be linked to the needs of the individual.

I think this depends on the needs of the individual. Some people will need a one to one buddy others wouldn't.

Buddy scheme needs to be appropriate to the end client (child in need). Some will require 1 to 1, while others would be fine as part of a group or joint support. Seems wasteful to give 1 to 1 when that's not what everyone wants and needs.

Our son does not thrive in group environments so prefer promoting independent 1 to 1 so to promote independence and life skills.

³ Excluding don't know's

Verbatim comments about redesigning the Community Buddy Scheme

Respondents were asked to provide a comment on the proposals for redesigning the Community Buddy Scheme, or to describe the impact that the proposals may have. 51 comments were received in total, with most providing general comments (36 comments) but some also provided comments that outlined alternatives (13 comments) and the potential impact of the proposals (13 comments).

Comments regarding proposals to redesign the Community Buddy Scheme
(Base: 51, multi-code)

General comments regarding proposals to redesign the Community Buddy Scheme
(Base: 36, multi-code)

The majority of general comments focused on the concern that the scheme is currently not fit for purpose (19 mentions), specifically that there is a perceived lack of Buddies (12 mentions).

“ I have tried to access this scheme for my disabled child but was unable to do so because there were no Buddies available. It would have been a good source of respite for him and me as his carer and given me time to spend with his older brother one to one, so I was disappointed.

The Buddy system needs a complete overhaul. There are not enough consistent sources of where parents can go to look for Buddies.

The most important thing is finding more buddies. Advertise better. recruit better. Organise better.

I have tried three times in three years to get a Buddy for my son for an hour a week. I have never been successful, not in three years and despite having compelling reasons for needing one. I think it's a poor scheme at the moment.

I would welcome a change, especially if it's going to streamline the processes and make the Buddy Scheme more user friendly and accessible for families.

”

There were 13 mentions of alternative approaches that the County Council could take. Most of these comments mentioned that the scheme needs improvements (10 mentions), primarily to ensure that the right support is offered (four mentions).

Alternative suggestions for proposals to redesign the Community Buddy Scheme. (Base: 13, multi-code)

It needs to be fit for purpose, if a child needs 1:1 then they should have 1:1 and maybe have 2-3 Buddy's supporting 2-3 children. Our children can change their minds and need flexibility to leave if they want to. All families who apply for a buddy should have access to one, if one isn't available then offer the family a direct payment. Not all families have social workers, many are not eligible.

Having a buddy scheme that is actually available to users would be a start. This needs more funding to attract the right skilled people to want to be Buddies at the unsocial times (like weekends or to cover an evening at guides for an hour or so for example).

Others provided a comment about the impact the proposals may have, namely that they may have a negative financial impact on parents and carers, with the concern that some families may not be able to afford additional contributions (eight mentions).

There is nothing in here about families with no or low incomes. What about the hardship fund? So many who need this service and it might be the only short break they use, but the current rate is even hard to meet.

Note that changes are required to make the buddy scheme workable, however adding financial pressure to families is not the answer.

Percieved impacts for proposals to redesign the Community Buddy Scheme (Base: 13, multi-code)

Further comments

Respondents were asked if they had any alternative suggestions to the proposals for how the County Council could make anticipated annual savings of up to £696,000 from the Short Break Activities Programme budget, or to outline any other comments they might have regarding the consultation. Respondents provided both alternative suggests (38 mentions) and general comments (30 comments), whilst a few focussed on the impacts the proposals might have (seven mentions).

Further comments provided (Base: 52, multi-code)

Alternative suggestions (Base: 38, multi-code)

Respondents provided a mixture of alternative suggestions, the most mentioned option being to make budgetary savings elsewhere (15 mentions), specifically through staff salaries (seven mentions).

Make cuts elsewhere cutting these services are suffocating families.

Continue to fund Short Breaks at the current funded level and make the savings elsewhere within the local authority budget so it does not impact on vulnerable people.

Less management pay, less admin costs, less overheads, given the pandemic has shown how so much can be worked remotely, cutting costs.

Target other areas outside of services for disabled children to make the required savings.

Others commented that it would be essential to understand where there is greatest need (eight mentions), in order to provide more targeted support to parents, carers and service users.

Allocate it more evenly across families. How many families do you aim to help with this money? How much does this work out to per child?

Review existing social care packages - there are some families receiving regular breaks and also then buy short breaks, so taking up places that families who are deemed ineligible for social care support cannot then access.

Have you ever considered introducing a tier system for funding, with levels set for each group that require funding vs the level of support they need? Not all short breaks offer the same service and same level of support with some activities requiring parents to say during the activity and others are more a respite.

A handful of respondents felt that efforts should be made to instigate more joint working with both the public and private sector in order to help deliver Short Break Activities, such as encouraging the private sector to offer up discounted activities for children with disabilities.

“

Perhaps get companies involved more heavily, especially as will have no business rates to pay they can show good community spirit in offering free places etc.

You could have the opportunity of pooling resources with and partnership working with neighbouring Local Authorities, I think this should be explored.

Advertisement/partnerships for companies who would be willing to sponsor the initiatives as they can claim potential tax relief.

Look for venues which are free of cost. Ask for voluntary contributions for supplies being used in the short break activity.

”

30 respondents gave general comments, the most notable was that respondents felt the budgetary savings should not be made through the Short Break Activities Programme, which mirrors the alternative suggestion to find budgetary savings elsewhere.

General comments (Base: 30, multi-code)

Seven respondents reflected on the potential impact of the proposals – most of these reiterated that there could be an impact upon the family unit (four mentions) and how the proposals may have unintended impacts upon other services such as the NHS (one mention) or Mental Health Services (two mentions) due to the perceived lack of respite resulting from the proposals.

Although not specifically asked, some respondents commented on the impacts that the current COVID-19 pandemic could have on Short Break Activities. From all responses received via the Consultation Response Form, there were four comments received about COVID-19.

These respondents raised concerns about the impact on parents and carers and their need for respite during these unprecedented times; that there could be a knock-on impact for providers, potentially resulting in the need to scale down what is currently offered; and that lockdown measures had already had an impact on the mental health of children, so a reduction in funding was seen to add to these current concerns.

I think it's very important that breaks are safeguarded. Especially with the pressure of lockdown and the real need for respite.

In the current COVID-19 climate families of children with disabilities are more isolated than ever. The thought of services my family rely on and that enhance my child's quality of life not being available in the future is both terrifying and heart breaking. Please consider the impact that lockdown is having on children's mental health when you make your decisions about cutting vital services further.

The coronavirus has already had such a big impact on short break activities and services, most of these needed respite services will have to scale down what they offer in line with their funding/fundraising, restricting their funding further will mean that a lot of families who need the service won't have the opportunity to access it.

Can't believe you intend to continue reducing funding during a pandemic.

Unstructured responses

Responses from young people

The consultation received 28 'unstructured' responses' from two separate organisations that represent children and young people. These responses were made within the consultation period but were not submitted using the consultation Response Form.

18 responses were sent from Play at Maple, in which young Gateway Card users filled in an adapted version of the consultation Response Form which explained some of the proposals more visually. Below shows the total number of responses per question.

What activities do you like to do at the weekend?	Total
Stay home	8
Go to a play club	8
Subject activity	2
Should your activities have more money or less?	
More	9
Less	8
Should your activities all have the same money amount or different?	
Same	6
Different	11
Should your activities be the same or different?	
Same	5
Different	12
Would you rather have money off or a special card to attend your activities?	
Money off	4
Special card	12
Would you like to have a limit on how many times you could do your activity?	
Yes	8
No	10

10 responses were collated by The Kings Arms where young people were asked an adapted version of the Young Persons Response Form. The table below shows a summary of their responses:

Q3 - Idea 1: Fund Short Break Activities the same way, with less money	Total
Agree	0
Not sure	2
Disagree	8
Don't know	0
Q4 - when you go on a Short Break Activity, what is most important to you?	
At a youth club	10
A break at the weekend	0
A break during school holidays	0
Not applicable	0
Q5 - Idea 2: Only fund certain short break activities	
This was too hard to answer as they didn't know what the other activities were	
Idea 6 – Change the Gateway Card offer, so it has 2 parts	
Q10 - Do you agree or disagree that the Gateway Card offer could have 2 parts?	
Agree	0
Not Sure	2
Disagree	8
Don't Know	0
Q11- Do you agree or disagree that people who want a Gateway Card for Short Break Activities should show they have ONE of the following: Disability Living Allowance, Personal Independence Payments, Education Health and Care Plan, a social worker referral?	
Agree	2
Not Sure	6
Disagree	2
Don't know	0
Q12 - are you a Gateway Card holder?	
Yes	10
No	0
Q13- Over the past year, how did you use your Gateway Card?	
Days out	6
Holiday Clubs	6
To go to clubs at the weekend	4
To go to youth clubs	10
Other things	Discounts/ respite
Q14 - Are there other activities you would like to save money on?	
Trips to museum, cinema or art gallery	0
Activities to keep fit	10 - they all said swimming
Trips to a café or restaurant	0
Days out such as play schemes or bowling	6

Exciting days out	10
Not applicable	0
Q15- Idea 7: Young people can take no more than 30 short break activities every year	
Agree	0
Not sure	1
Disagree	9
Don't know	0
Idea 8: Change the Community Buddy Scheme	
Q17- Do you agree or disagree that there should be one organisation that runs the Community Buddy Scheme?	
Agree	6
Not sure	4
Disagree	0
Don't know	0
Q18- Do you agree or disagree that there should be another Community Buddy Scheme with other types of support?	
Agree	0
Not Sure	4
Disagree	6
Don't know	0
Q19- Do you agree or disagree that the Community Buddy Scheme should not funded for young people over 18 years old?	
Agree	0
Not Sure	0
Disagree	10
Don't know	0
Q20- Do you agree or disagree that the Community Buddy Scheme should only be for young people living in the County Council area, so not Portsmouth, Southampton or the Isle of Wight.	
Not sure why this question being asked and too hard for kids to answer	
Q21 - what would be the most important thing in a new Community Buddy Scheme?	
All agreed that it was important, but if you take away the Buddy scheme then one – one has to be most important for opportunity and independence	
We thought that 'group mentoring' is linked to 'support for a group' anyway	
Q22 - comments on the possible changes to the Community Buddy Scheme	
We think changes to the buddy scheme could have a massive impact on our future and restrict our opportunities and independence.	

Unstructured response from Basingstoke and Deane Borough Council

One response unstructured response was received from Basingstoke and Deane Borough Council. Below is a summary of the main points raised.

- There could be an adverse impact upon children and young people with disabilities, parents, carers and providers of Short Break Activities if the proposals went ahead.
- There could be a disproportionate impact upon lower income families who rely on Short Break Activities for respite. Particularly that there could be a negative cumulative affect of other changes to services, such as Universal Credit which may impact disadvantaged families.
- The proposal to secure a minimum level of funding from other sources for providers, could prove problematic as resources are depleting and reducing having been negatively affected by the COVID-19 pandemic.
- The Borough Council wished to emphasise the fact that Short Break Activities provide a fundamental role to children and young people with disabilities within the borough.
- The Borough Council also emphasised that the County Council should seek other available alternatives, before making budgetary savings.

Engagement session feedback

Children's Services ran a series of 13 face to face and online drop-in engagement sessions⁴ - providing an alternative to written responses to further enable the views of parents, carers, organisations and providers to be heard. 47 people attended, and a total of 134 comments were collected.

Feedback was recorded and coded into themes which can be found in the below table.

Overall, participants provided a mixture of comments relating to the proposals presented in the consultation. The accessibility of the Short Break Activities Programme was most frequently mentioned by participants (18 mentions), specifically, they spoke of the lack of choice within Short Break Activities (five mentions), and that the options for breaks was currently inadequate (three mentions). There were 17 mentions of how valued the service was and many also shared the concern that the proposals could impact upon service users specifically (10 mentions).

Others talked about the Short Break Activities available within their local areas (seven mentions), with some suggesting they could not find what they needed within their locality or that it was particularly hard to access (five mentions).

Accessibility (Macro)	18
Accessibility: lack of choice within Short Break Activities	5
Accessibility: options for breaks are poor/ not adequate explaining underusage	3
Accessibility: demand too high/ difficulty accessing Short Break Activities	2
Accessibility: lack of services for SEND	1
Accessibility: demand is high/ difficult to find support	1
Valued Service (Macro)	17
Valued service: fundamental/ essential to family	3
Valued service: HPCN are a great/helpful resource	2
Valued service: child benefits greatly from activities	1
Valued Service: specific provider: Challengers	2
Valued Service: specific provider: Making Space	1
Valued Service: specific provider: Scarf	1
Impact on service user (Macro)	10
Service user: may not get a session that they need/ want	3
Service user: may not get a session that they need/ want	3
Service user: no other activity provided is suitable	1
Impact on providers (Macro)	8
Local Offer (Macro)	7
Local offer: cannot find what I need / hard to use	5
Local offer: information quality poor	3
Create better provision/ more suitable provision (Macro)	6
Comment about autism spectrum conditions (Macro)	6

⁴ One face-to-face engagement session was held prior to 23 March 2021, then moved entirely online following discussions with Hampshire Parent Carer Network and in accordance with Government Guidance relating to COVID-19.

Proposal seems fair (Macro)	5
Fair: may allow more equitable access to activities	1
Social care threshold and assessment (Macro)	5
COVID-19 may impact consultation (Macro)	5
Small providers disadvantaged (Macro)	5
Increase promotion of the service (Macro)	4
Increase promotion of the service (Macro)	4
Parental need for some evidence of disability (Macro)	4
Young people over age 18 still need support (Macro)	4
30 sessions is too low/ not enough (Macro)	3
Impacts on funding/ support (Macro)	3
Funding: negative accumulated impact of other service funding cuts	1
Post-COVID-19 economy will make fundraising much harder (Macro)	3
Lack of options for short breaks which explains underusage	3
Impact on parents and carers (Macro)	3
Parents and carers: ability to cope	1
Comment about email communications (Macro)	3
Buddy Scheme improvement (Macro)	3
Scheme improvement: ensure the right support is offered e.g. 1-1 support/ group support	1
Need for more oversight of provision (Macro)	3
Comment about grant application process (Macro)	3
Parents don't want more paperwork (Macro)	3
Allocate Short Break Activities differently (Macro)	4
Allocate: individual circumstances should be considered	1
Lack of advertising/ promotion (Macro)	2
Impact on family unit (Macro)	2
Family unit: may put family into crisis/ breaking point	1
Buddy Scheme currently not fit for purpose (Macro)	2
Fit for purpose: lack of buddies in general	1
Fit for purpose: lack of buddies when needed at specific times	1
No buddies in specific area (Macro)	2
Do not make budget cuts (Macro)	2
Financial impact of proposals (Macro)	2
Financial impact: strain on household budget	1
Financial impact: unable to afford contribution	1
Lack of accountability (Macro)	2
Accountability: may not listen to parents needs	1
Partnership working (Macro)	2
Some parents don't know how to use Gateway Card (Macro)	2
Proposals are a good idea (Macro)	2
Comment about mainstream providers (Macro)	2
Funding for HPCN (Macro)	1
Do not cut funding to HPCN	1
Service impact (Macro)	1
Service impact: increased spend on services as parents cannot cope	1
Demand high but limited support options/ lack of options in area (Macro)	1
Stop Short Break Activities completely (Macro)	1

Make budget reductions elsewhere (Macro)	1
Offer more group activities (Macro)	1
Service has already had budget cuts (Macro)	1
Impact on other services (Macro)	1
Impact on low income families (Macro)	1
Work with private businesses (Macro)	1
Alternative suggestions (Macro)	1
Lobby central government for funding (Macro)	1
Proposal to change Gateway Card could cause confusion (Macro)	1
Comment about council decision making processes (Macro)	1
Distribute fund to parents and carers directly (Macro)	1
Rename the Short Break Activities Programme (Macro)	1
Volunteers may be unreliable (Macro)	1
Suggestion of potential future provider (Macro)	1
Easy Reads helpful for parents short of time (Macro)	1
Evening sessions are good for consultations (Macro)	1
HPCN receives more funding than comparable organisations (Macro)	1
Problematic to rely on charitable money to meet statutory obligations (Macro)	1
More info needed about management fee in Proposal Five (Macro)	1
Comment about buddy scheme waiting lists (Macro)	1
Don't duplicate yellow card with Gateway Card (Macro)	1
Some parents not comfortable joining HPCN (Macro)	1
Potential additional funding source (Macro)	1
Fewer buddy providers each time grant is reduced (Macro)	1
Don't know what HPCN is	1
Providers should pool resources more (Macro)	1
Proposal Five wouldn't work in practice (Macro)	1
Ensure providers understand Proposal 6 (Macro)	1
Enforcing the cap would be complex (Macro)	1
2:1 staff ratios expensive for providers (Macro)	1
Decrease accessibility of Short Break Activities (Macro)	1
Other (Macro)	2
Other: People must need the service if using more than 30 activities	1
Other: COVID-19 related comments	1

Appendices

Appendix 1 – Research approach

The County Council carried out an open consultation designed to give all Hampshire residents and wider stakeholders the opportunity to have their say about the proposed changes to the Short Break Activities Programme. The general public living outside Hampshire were also able to respond. In total there were 210 responses to the consultation questionnaire, this includes Easy Read and Young Person versions of the Response Form. The consultation ran between 31 March 2020 till 12 July 2020. The consultation period was extended to July in order to account for the COVID-19 pandemic

Responses could be submitted through an online Response Form, available at <https://hampshirecc.researchfeedback.net/s.asp?k=158031620663> or as a paper form, which was made available on request. An Easy Read version was also produced, along with a Young Person Response Form in both paper and an online format option, which included the ability to submit audio/ video recorded answers to the consultation questionnaire. Alternative formats were also made available on request.

Unstructured responses sent through other means, such as via email or as written letters, and received by the consultation's closing date were also accepted. A summary of these findings is included as part of the consultation findings. A series of engagement sessions were held in order to answer queries regarding the consultation – suggestions and feedback gathered during these meetings were also included as part of the consultation findings.

An Information Pack was produced alongside the consultation, providing information about each of the options presented. The Information Pack was also available in easy read format. A short informative video was produced in order to help communicate each of the options presented for parents and carers.

The consultation was also promoted through the County Council's social media channels and released to local press.

Appendix 2 – Interpreting the data

The analysis only takes into account actual responses – where ‘no response’ was provided to a question, this was not included in the analysis. As such, the totals for each question add up to less than 210 (the total number of respondents who replied to the consultation questionnaire). As the consultation was an open exercise, its findings cannot be considered to be a ‘sample’ or representative of the Hampshire population. All consultation questions were optional.

The 210 responses received to the consultation questionnaire break down as follows:

- 210 via the online Response Form, of which two used the Easy Read version of the Response Form, Five used the Young Person Response Form and 203 used the non-easy read Response Form.

In addition, 29 responses were received during the consultation period through channels other than the consultation Response Form (emails, letters, etc). In addition, the County Council held 13 drop in sessions¹, where 47 individuals attended. 134 comments were recorded and included within the Consultation Findings Report, bringing the total to 373 responses across all channels.

Open-ended responses were analysed by theme, using an inductive approach. This means that the themes were developed from the responses themselves, not pre-determined based on expectations, to avoid any bias in the analysis of these responses. These themes, brought together into code frames, were reviewed by the researchers throughout their analysis of the findings to ensure that they were accurate and comprehensive, and are included in the appendices to this report.

Publication of data

All data is processed according to the General Data Protection Regulations as detailed below:

Hampshire County Council adheres to the requirements of the UK Data Protection legislation. Hampshire County Council is registered on the public register of data controllers which is looked after by the Information Commissioner. The information that was provided through the Response Form will only be used to understand views on the proposals set out for this consultation. All individuals’ responses will be kept

¹ One session was held face-to-face, 12 were held as online sessions following discussions with Hampshire Parent Carer Network and following Government advice regarding the COVID-19 pandemic.

confidential and will not be shared with third parties, but responses from organisations may be published in full. Responses will be stored securely and retained for one year following the end of the consultation before being deleted or destroyed.

Where the information provided is personal information, there are certain legal rights. Respondents to the consultation may ask us for the information we hold about you, to rectify inaccurate information the County Council holds about you, to restrict our use of your personal information and to erase your personal data. When the County Council uses your personal information on the basis of your consent, you will also have the right to withdraw your consent to our use of your personal information at any time.

Appendix 3 – Consultation response form

Consultation on proposed changes to the Short Break Activities Programme for children with disabilities

Introduction

This consultation is an opportunity for people to inform decisions about the future of Hampshire's Short Break Activities Programme.

The County Council is seeking residents' and stakeholders' views on proposals for delivering its Short Break Activities Programme differently after 31 March 2021.

The consultation is open from **midday on 9 March and closes at 11:59pm on Sunday 12 July 2020**. Please note that any responses received after this date will not be included in the consultation Findings Report.

More information on these proposals and the consultation can be found on the webpage at www.hants.gov.uk/shortbreakconsultation. It is strongly advised that you read the accompanying Information Pack before completing this Response Form, as it contains much more detail about each proposal.

If you have any questions about this consultation, please contact Hampshire County Council by emailing short.break@hants.gov.uk, or by telephone on 0300 555 1384.

Privacy notice

Hampshire County Council is collecting information about you in order to understand views on proposals to deliver the Short Break Activities Programme. The information you provide in this Response Form is being collected for the performance of a task carried out in the public interest in the exercise of official authority vested in the County Council, and for reasons of substantial public interest. We may share your information with third party processors in order to provide a service to you. All data will remain within the UK. We will keep your personal information securely for one year, after which it will be deleted or destroyed.

You have some legal rights in respect of the personal information we collect from you. Please see our website Data Protection page for further details. You can contact the County Council's Data Protection Officer at data.protection@hants.gov.uk. If you have a concern about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner's Office at <https://ico.org.uk/concerns/>

Completing this Response Form

There are six sections to this Response Form:

- **Section 1 - About your response**
- **Section 2 - Proposals to enable the County Council to deliver the Short Break Activities Programme within a reduced budget**
- **Section 3 - Proposals to improve the effectiveness of the Short Break Activities Programme**
- **Section 4 - Proposal to review the Community Buddy Scheme**
- **Section 5 - Further comments**
- **Section 6 - About you**

Section One - About your response

Q1 Is this a personal response, or are you responding on behalf of an organisation or group that you represent? (Please choose one option)

- ☐ This is a personal response
- ☐ I am providing the official response of an organisation, group or business
- ☐ I am responding as a democratically elected representative of a local area (e.g. county, district, borough, parish or town council Member or MP)

• If you are providing a personal response please complete questions 2,3,5 and 6.

• If you are responding as an organisation, group or business please complete questions 4 and 5.

• If you are responding as a democratically elected representative, please move onto Section 2.

Q2 In what capacity are you responding? (Please choose all that apply)

- | | |
|---------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> I am a parent or carer of a child, children or young person(s) with disabilities | <input type="checkbox"/> I work for a Short Break Activities Provider |
| <input type="checkbox"/> I am a family member of a child, children or young person(s) with disabilities (e.g. brother, sister, grandparent) | <input type="checkbox"/> I am a paid or voluntary support worker for a family or a child with disabilities |
| <input type="checkbox"/> I am a child or young person who currently uses short break activities | <input type="checkbox"/> I am a professional working with children and families with an interest in this area (e.g. nurse, health visitor, teacher, social worker) |
| <input type="checkbox"/> I am an adult who has previously used short break activities myself | <input type="checkbox"/> Other (please specify) |
| | <input type="checkbox"/> None of the above / I am a member of the public |

For 'Other' please specify in the box below:

Q3 Are you a current member of the Hampshire Parent Carer Network as either a parent, carer or volunteer? (Please choose all that apply)

- ☐ Yes, as a parent or carer ☐ Yes, as a volunteer ☐ No

Section Two - Proposals to enable the County Council to deliver the Short Break Activities Programme within a reduced budget

Q7 To what extent do you agree or disagree with the proposal to reduce the overall grant awarded to provide Short Break Activities? (Please choose one option)

- Strongly disagree ☐
- Disagree ☐
- Neither agree nor disagree ☐
- Agree ☐
- Strongly agree ☐
- Don't know ☐

Q8 Please indicate which of the following are most important to you when choosing a regular short break activity? (Please choose all that apply)

- | | |
|----------------------------------------------------------------------|---------------------------------------------------------------------------------|
| <input type="checkbox"/> Having a break via a Youth Club | <input type="checkbox"/> Having a break that's available during school holidays |
| <input type="checkbox"/> Having a break that's available on weekends | <input type="checkbox"/> Other (please specify) |
| | <input type="checkbox"/> Not applicable |

For 'Other', please specify in the box below:

Proposal Two: To only accept funding applications that meet the core Short Break Activities priorities

The main Short Break Activities grant round invites applications based on the core Short Break priorities. Where activities do not fall within the identified Short Break Activity priorities, providers may currently apply for ad-hoc grant funding. However, over the last three years the value of ad-hoc applications has fallen well short of the available funding, with almost £450,000 of the Short Break Budget remaining unallocated. Therefore, the County Council is proposing to either remove or reduce the 'exceptions' fund.

More information about this proposal can be found on page 13 of the Information Pack.

Q9 Which of the following options would you prefer? (Please choose one option)

- ☐ To remove the 'exceptions' fund to achieve an annual saving of £90,500
- ☐ To reduce the 'exceptions' fund by 78% in line with current demand to achieve a saving of £70,500. This would leave £20,000 for exceptions
- ☐ To retain the 'exceptions' fund at its current level of £90,500

Section Two - Proposals to enable the County Council to deliver the Short Break Activities Programme within a reduced budget

Proposal Three: To require Short Break Activity providers to secure a minimum level of funding from other sources

This proposal is to introduce a requirement for providers to contribute at least 10% of the value of the grant being requested towards the cost of running a Short Break Activity, to prove that they are not entirely reliant on the County Council's funding. The 'match-funding' contribution could be generated from a range of sources such as other grant applications and fundraising.

More information about this proposal can be found on page 14 of the Information Pack.

Q10 To what extent do you agree or disagree with the proposal to require Short Break Activity providers to secure a minimum level of funding from other sources? (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know ☐

If you are an organisation, group or business please complete question 11.

If you are providing a personal response or responding as a democratically elected representative, please move on to question 12.

Q11 From the list below, what would be a suitable length for a grant period to best enable the proposed level of match funding (at least 10%) to be achieved? (Please choose one option)

- ☐ 12 months ☐ 24 months
- ☐ 18 months ☐ Other (please specify)

For 'Other', please specify in the box below:

Section Two - Proposals to enable the County Council to deliver the Short Break Activities Programme within a reduced budget

Proposal Four: To reduce the grant awarded to Hampshire Parent Carer Network

This proposal seeks to reduce the annual amount awarded by the County Council to Hampshire Parent Carer Network by 50% from £35,000 to £17,500. This would bring the level of funding provided by Children's Services more in line with the level of service that would be required in future for Children with Disabilities.

More information about this proposal can be found on page 15-16 of the Information Pack.

Q12 To what extent do you agree or disagree with the proposal to reduce the grant awarded to Hampshire Parent Carer Network? (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know..... ☐

Your comments on Proposals One, Two, Three and Four

Q13 If you would like to comment on any of the proposals for delivering the Short Break Activities Programme within a reduced budget or to describe the impact that these proposals may have on you, your organisation, group or business or the people you care for or support, please do so in the box below:

(please indicate which proposal(s) your comments relate to. Please do not include any personal details in your response)

Section Three - Proposals to improve the effectiveness of the Short Break Activities Programme

These proposals are not aimed at identifying specific savings but rather are intended to understand how to best use the resources available.

Proposal Five: To commission Short Break Activities through an external grant-giving body

There are other organisations in Hampshire that support vulnerable people in local communities that might be willing to work in partnership with the County Council to direct grant resources to where they are most needed. Instead of directly awarding grants to deliver Short Break Activities, the County Council proposes to work with an external grant-giving body to conduct the process on its behalf or in collaboration.

More information about this proposal can be found on page 16-17 of the Information Pack.

Q14 To what extent do you agree or disagree with the proposal to commission Short Break Activities through an external grant-giving body? (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know ☐

Q15 Which of the following approaches do you feel is most appropriate: (Please choose one option)

- ☐ Commissioning an external grant-giving body to conduct the process on the County Council's behalf
- ☐ The County Council and partner organisations working in collaboration to administer grants
- ☐ Neither of the above
- ☐ Unsure

Section Three - Proposals to improve the effectiveness of the Short Break Activities Programme

Proposal Six: To introduce a two-tier Gateway Card scheme

The County Council proposes to create a two-tier Gateway Card system, to ensure that those families who solely use a Gateway Card to access concessions remain able to do so, whilst also providing the County Council with a better understanding of local need for Short Break Activities in order to plan services and further develop the Gateway Card scheme.

Existing means of providing evidence would be sufficient to support an application for concessions, but those who wish to access Short Break Activities would be required to provide one of the following pieces of evidence: receipt of Disability Living Allowance (DLA), Personal Independence Payment (PIP), an Education Health and Care Plan (EHCP), or a referral from a social worker.

More information about this proposal can be found on page 17-19 of the Information Pack.

Q16 To what extent do you agree or disagree with: (Please choose one option in each row)

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know
The proposal to split the Gateway Card scheme into two tiers - one to access Short Breaks Activities and the other to access concessions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The proposed evidence required from applicants who wish to access Short Break Activities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Q17 Are you a Gateway Card holder? (Please choose one option)

- ☐ Yes
☐ No

If you answered 'No', please move on to question 20.

Q18 Over the past year, what did you most often use your Gateway Card for from the list below? (Please choose one option)

- | | |
|---------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| <input type="checkbox"/> For concessionary access to days/ trips out such as soft play etc. | <input type="checkbox"/> To access weekend Short Break Activities |
| <input type="checkbox"/> To access holiday clubs as a Short Break Activity | <input type="checkbox"/> To access evening youth clubs as a Short Break Activity |
| | <input type="checkbox"/> Other (please specify) |

For 'Other', please specify in the box below:

Q19 The County Council is currently exploring ways to extend the range of concessions that can be accessed with a Gateway Card. Which of the following may be of interest to you? (Please choose all that apply)

☐ Cultural activities (e.g. museums, cinema)

☐ Fitness activities (e.g. climbing, trampolining)

☐ Cafes and restaurants

☐ Days out (e.g. zoos, wildlife parks, bowling)

☐ 'Experience Days' (e.g. paintballing)

☐ Other (please specify)

For 'Other', please specify in the box below:

--

Section Three - Proposals to improve the effectiveness of the Short Break Activities Programme

Proposal Seven: To place a limit of 30 sessions per child, per year on Short Break Activities

Currently Gateway Card holders can book on as many or as few Short Break Activity sessions as they wish (subject to availability). This can create discrepancy in the system, which may lead to some families having less opportunity to book a Short Break Activity. The County Council is proposing to place a limit of 30 sessions per child, per year on Short Break Activities.

More information about this proposal can be found on page 19-20 of the Information Pack.

Q20 To what extent do you agree or disagree with the proposal to place a limit of 30 sessions per child, per year on Short Break Activities? (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know ☐

Your comments on Proposals Five, Six and Seven

Q21 If you would like to comment on any of the proposals about how to make the Short Break Activities Programme more effective or to describe the impact that the proposals may have on you, your organisation, group or business or the people you care for or support, please do so in the box below:

(please indicate which proposal(s) your comments relate to. Please do not include any personal details in your response)

Section Four - Proposal to redesign the Community Buddy Scheme

Proposal Eight: To redesign the Community Buddy Scheme

This proposal is primarily intended to make the Community Buddy Scheme more effective, whilst also identifying some specific savings. Potential service changes would involve having one organisation responsible for recruiting and co-ordinating buddies. It would also mean introducing a different buddy 'offer' that provides alternative options for support (such as group mentoring, joint buddy support, or one to one support where this is required to promote independence) - recognising that particular groups of children and young people may have different needs.

This proposal also targets specific savings by aligning the scheme with the rest of the Short Breaks Offer, ensuring the service is within the statutory remit of Children's Services, and suggests an increase in parental contributions towards the Community Buddy Scheme.

More information about this proposal can be found on page 20-22 of the Information Pack.

Q22 To what extent do you agree or disagree with the proposal to increase parental contributions to account for inflation since the scheme was introduced, and review this in line with inflation each financial year? (This would raise the hourly contribution from £5.00 to £6.50 per hour in April 2021). (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know ☐

Q23 To what extent do you agree or disagree with the proposal to increase parental contributions for mileage from April 2021? (Please choose one option)

- Strongly disagree ☐
- Disagree..... ☐
- Neither agree nor disagree ☐
- Agree..... ☐
- Strongly agree..... ☐
- Don't know ☐

Q24 Which of the below options do you prefer? (Please choose one option)

- | | |
|---------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Increasing parental mileage contributions from 25p per mile to 30p per mile (in line with inflation since 2012/13) | <input type="checkbox"/> To keep the parental mileage contributions at the current level (25p per mile) |
| <input type="checkbox"/> For parents to cover the full HM Revenue and Customs mileage rate of 45p per mile | <input type="checkbox"/> Unsure |

Section Four - Proposal to redesign the Community Buddy Scheme

Q25 To what extent do you agree or disagree with the proposals to:

(Please choose one option in each row)

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know
Have one organisation responsible for recruiting and co-ordinating the Buddy Scheme?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Offer a buddy scheme with different options for support?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Stop funding Buddies for Young People aged 18 and over?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Only fund Buddies for those children who live in the Hampshire County Council authority area*?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

*(excluding Portsmouth, Southampton and the Isle of Wight).

Q26 If this proposal was approved, which the following options would you like to see as part of a different buddy scheme offer? (Please choose all that apply)

- ☐ Having a buddy scheme that offers group mentoring
- ☐ Having a buddy scheme that offers one to one support to promote independence
- ☐ Having a buddy scheme that offers joint buddy support (e.g. one buddy supporting 2-3 individuals according to need)
- ☐ Other (please specify)
- ☐ Don't know

For 'Other', please specify in the box below:

Section Four - Proposal to redesign the Community Buddy Scheme

Q27 If you would like to comment on the proposed changes to the Community Buddy Scheme or to describe the impact that the proposal may have on you, your organisation, group or business, or the people you care for or support, please do so in the box below: (Please do not include any personal details in your response)

Section Five - Further comments

Q28 If you have any alternative suggestions to the proposals in this consultation for how the County Council could make anticipated annual savings of up to £696,000 from the Short Break Activities Programme budget, please provide these in the box below: (Please do not include any personal details in your response)

Section Six - About you

If you are providing a personal response, please continue below.

If you are responding as a democratically elected representative, please move on to question 35.

If you are responding as an organisation, group or business, please move on to question 37.

Hampshire County Council is committed to improving its services, eliminating unlawful discrimination and promoting equality of opportunity for all people. The following questions are optional but we would be grateful if you could answer them to help us understand the views of, and potential impacts on, different areas and types of people within Hampshire.

Q29 Please provide your postcode:

 Providing your postcode is optional. It would help us to understand the impact of proposed changes if you could provide at least the first five digits of your postcode. If you do provide your full postcode it is possible that in rural areas this might identify your property. By providing your postcode you are consenting to the County Council using this information to analyse the response to the consultation from different areas, to profile respondents from different areas and to understand how views differ by area.

Q30 Which of the following best describes your gender? (Please choose one option)

☐ Male

☐ Prefer to self-describe (please specify)

☐ Female

☐ Prefer not to say

If you prefer to self-describe, please specify in the box below:

Q31 What is your age? (Please choose one option)

☐ Under 16

☐ 45-54

☐ 85+

☐ 16-24

☐ 55-64

☐ Prefer not to say

☐ 25-34

☐ 65-74

☐ 35-44

☐ 75-84

Q32 Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months? (Please choose one option)

☐ Yes, limited a lot

☐ No

☐ Yes, limited a little

☐ Prefer not to say

Section Six - About you

Q33 What is your ethnic group? (Please choose one option)

- White ☐
- Mixed or multiple ethnic groups ☐
- Asian or Asian British ☐
- Black, African, Caribbean or Black British ☐
- Any other ethnic group ☐
- Prefer not to say ☐

Q34 What is your total annual household income, from all sources, before tax and other deductions? (Please choose one option)

- | | | |
|---------------------------------------------|---------------------------------------------|----------------------------------------------|
| <input type="checkbox"/> Up to £10,000 | <input type="checkbox"/> £40,001 to £50,000 | <input type="checkbox"/> £80,001 to £90,000 |
| <input type="checkbox"/> £10,001 to £20,000 | <input type="checkbox"/> £50,001 to £60,000 | <input type="checkbox"/> £90,001 to £100,000 |
| <input type="checkbox"/> £20,001 to £30,000 | <input type="checkbox"/> £60,001 to £70,000 | <input type="checkbox"/> £100,001 or over |
| <input type="checkbox"/> £30,001 to £40,000 | <input type="checkbox"/> £70,001 to £80,000 | <input type="checkbox"/> Don't know |

Now please go to question 39.

Section Six - About you - democratically elected representatives

 If you are responding as a democratically elected representative, the name and details of the constituency you represent may appear in the final report, and the information you provide may be subject to publication or release to other parties or to disclosure regimes such as the Freedom of Information Act 2000.

Q35 Which constituency do you represent? (Please specify in the box below)

Q36 What is your name? (Please specify in the box below)

Now please go to question 39.

Section Six - About you - organisations, groups or businesses

If you are responding officially, the name and details of the organisation, group or business you represent may appear in the final report, and the information you provide may be subject to publication or release to other parties or to disclosure regimes such as the Freedom of Information Act 2000.

Q37 Please provide details about the organisation, group or business that you represent:
(Please specify in the boxes below)

The name of the organisation, group or business:

The postcode of the organisation, group or business:

Your name:

Your position in the organisation, group or business:

Q38 Which of these best describes the function of your organisation, group or business?
(Please choose one option)

- | | |
|---------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <input type="checkbox"/> Nursery or pre-school | <input type="checkbox"/> Not-for-profit charity, voluntary or local community group |
| <input type="checkbox"/> School, college or place of education | <input type="checkbox"/> Organisation working with vulnerable adults or children |
| <input type="checkbox"/> Local authority (e.g. county, district, parish, town or borough council) | <input type="checkbox"/> Grant-giving body |
| <input type="checkbox"/> Other public sector organisation (e.g. Police, Fire, Health Authority) | <input type="checkbox"/> Other (Please specify) |
| <input type="checkbox"/> Local business or business representative (e.g. BID) | |

For 'Other' please specify in the box below:

Now please go to question 39.

Q39 Finally, to help us improve access to future consultations, please tell us where you first heard about this consultation: (Please choose one option)

- | | | | |
|------------------------------------------------------|--------------------------|-----------------------------------------------------|--------------------------|
| On social media (e.g. Facebook, Twitter, etc.) | <input type="checkbox"/> | Word of mouth..... | <input type="checkbox"/> |
| Via email | <input type="checkbox"/> | Reported in the press (e.g. radio, newspaper) | <input type="checkbox"/> |
| On a website (please specify) | <input type="checkbox"/> | Library or Discovery Centre | <input type="checkbox"/> |
| Through my employer (please specify)..... | <input type="checkbox"/> | Via Hampshire Parent Carer Network | <input type="checkbox"/> |
| A letter sent to you | <input type="checkbox"/> | Via a Short Break Activities provider.. | <input type="checkbox"/> |
| A residents' newsletter | <input type="checkbox"/> | Other (please specify)..... | <input type="checkbox"/> |

Please specify where you heard about the consultation below:

--

End of Response Form

Thank you for taking the time to complete this form.

The consultation results and analysis of the findings will be published and presented to the Executive Lead Member for Children's Services and Young People later in 2020. Feedback will be considered by the Executive Lead Member when making a decision on the proposed approach to delivering the Short Break Activities Programme, from April 2021.

Please return your paper Response Form in the Business Reply envelope provided, **to arrive no later than 31 May 2020**. If you do not have a Business Reply envelope, or wish to submit a written response, please post your response to: **Freepost HAMPSHIRE**, writing 'I and EU' on the back of the envelope. You do not need to use a stamp.

Appendix 4 – List of organisations or groups who responded to the consultation

The consultation questionnaire asked whether the respondent was responding on behalf of an organisation or group. There were a total of 10 responses to the consultation questionnaire on behalf of an organisation, group or community representative body.

Organisation or groups who responded to the consultation, that provided details are listed below:

Name of organisation, group or business:
Challengers
Young in Romsey
Andover and District Mencap
Icknield School
Solent Youth Action
Services for Young People
Making Space
Scarf
Hampshire Parent Carer Network
Maple Ridge School

Appendix 5 – Consultation participant profile

The breakdown of respondents by category is shown below:

Base: 210

		Percentage	Counts
Is this a personal response, or are you responding on behalf of an organisation or group that you represent? (Please choose one option)	This is a personal response	95%	200
	I am providing the official response of an organisation, group or business	5%	10
	I am responding as a democratically elected representative of a local area (e.g. county, district, borough, parish or town council Member or MP)	0%	0
In what capacity are you responding? (Please choose all that apply)	I am a parent or carer of a child, children or young person(s) with disabilities	78%	163
	I am a family member of a child, children or young person(s) with disabilities (e.g. brother, sister, grandparent)	4%	8
	I am a child or young person who currently uses short break activities	2%	5
	I am an adult who has previously used short break activities myself	0%	0
	I work for a Short Break Activities Provider	6%	12
	I am a paid or voluntary support worker for a family or a child with disabilities	3%	6
	I am a professional working with children and families with an interest in this area (e.g. nurse, health visitor, teacher, social worker)	6%	13
	Other (please specify)	1%	3
	None of the above / I am a member of the public	4%	8
Are you a current member of the Hampshire Parent Carer Network as either a parent, carer or volunteer? (Please choose all that apply)	Yes, as a parent or carer	38%	80

	Yes, as a volunteer	0.5%	1
	No	51%	108
Does your organisation, group or business provide any of the following services? (Please choose all that apply)	Activities for only children or young people with disabilities	1%	3
	Activities for all children or young people, including those with disabilities	2%	5
	Activities and services for both adults and children with disabilities	1%	3
	None of the above / not applicable	0.5%	1
If you care for a child or young person with disabilities, how old is the child, children or young person(s) that you provide care for? (Please choose all that apply)	Aged 0-5	7%	15
	Aged 6-10	35%	73
	Aged 11-15	37%	78
	Aged 16-17	15%	32
	Aged 18-25	5%	10
	Prefer not to say	2%	4
	Not applicable	9%	18
Are there any other children or young people living in your household? (Please choose all that apply)	Aged 0-5	12%	25
	Aged 6-10	19%	40
	Aged 11-15	26%	54
	Aged 16-17	9%	18
	Aged 18-25	10%	20
	No	28%	59
	Prefer not to say	3%	6
Which of the following best describes your gender? (Please choose one option)	Male	11%	24

	Female	75%	157
	Prefer to self-describe (please specify)	0%	0
	Prefer not to say	4%	9
What is your age? (Please choose one option)	Under 16	1%	2
	16-24	4%	8
	25-34	10%	20
	35-44	30%	62
	45-54	37%	78
	55-64	5%	11
	65-74	0.5%	1
	75-84	0%	0
	85+	0.5%	1
	Prefer not to say	5%	11
Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months? (Please choose one option)	Yes, limited a lot	9%	18
	Yes, limited a little	12%	25
	No	63%	133
	Prefer not to say	7%	15
What is your ethnic group? (Please choose one option)	White	78%	164
	Mixed or multiple ethnic groups	2%	4
	Asian or Asian British	1%	3
	Black, African, Caribbean or Black British	0.5%	1
	Any other ethnic group	0%	0
	Prefer not to say	9%	18
What is your total annual household income, from all sources, before tax and other	Up to £10,000	4%	8

deductions? (Please choose one option)			
	£10,001 to £20,000	8%	16
	£20,001 to £30,000	11%	22
	£30,001 to £40,000	11%	23
	£40,001 to £50,000	15%	31
	£50,001 to £60,000	6%	13
	£60,001 to £70,000	4%	8
	£70,001 to £80,000	4%	9
	£80,001 to £90,000	0.5%	1
	£90,001 to £100,000	2%	5
	£100,001 or over	6%	13
	Don't know	16%	34
Which of these best describes the function of your organisation, group or business? (Please choose one option)	Nursery or pre-school	0%	0
	School, college or place of education	1%	2
	Local authority (e.g. county, district, parish, town or borough council)	0%	0
	Other public sector organisation (e.g. Police, Fire, Health Authority)	0%	0
	Local business or business representative (e.g. BID)	0%	0
	Not-for-profit charity, voluntary or local community group	4%	8
	Organisation working with vulnerable adults or children	0%	0
	Grant-giving body	0%	0
	Other (Please specify)	0%	0

Appendix 6 – Coded responses to open questions

101 respondents provided a comment for the below question. The tables provide a breakdown of the themes arising.

Q13 - If you would like to comment on any of the proposals for delivering the Short Break Activities Programme within a reduced budget, or to describe the impact that these proposals may have on you, or the people you care for or support, please do so in the box below: (Proposals One to Four, multi-code)

General comments	
Base	69
Valued service (Macro)	38
Valued service: child benefits greatly from activities	14
Valued service: HPCN are a great/helpful resource	7
Valued service: fundamental/ essential to family	27
Valued service: Challengers / Mencap	3
Accessibility (Macro)	29
Accessibility: demand is high/ difficult to find support	26
Accessibility: threshold for support is already high	4
Lack of advertising/ promotion (Macro)	5
Demand high but limited support options/ lack of options in area (Macro)	4
Proposal option is better than scheme not running at all (Macro)	1
Comment regarding consultations (Macro)	2
Other (Macro)	9
Other: Covid 19 related comments	3

Impacts	
Base	67
Impacts on funding/ support (Macro)	35
Funding: further pressure on support	22
Funding: previous consultation impact	11
Funding: negative accumulated impact of other service funding cuts	13
Funding: could mean less respite	8
Impact on service user (Macro)	14
Service user: lack of opportunity for social development/ socially isolated	5
Service user: no other activity provided is suitable	6
Service user: May exclude disabled children/ lack of equal opportunity for activities	2
Impact on parents and carers (Macro)	13
Parents and carers: mental Health	2
Parents and carers: ability to cope	5
Parents and carers: jeopardise ability to work/ hold down a job	5
Impact on family unit (Macro)	13

Family unit: less time to spend with other children	4
Family unit: may put family into crisis/ breaking point	7
Family unit: impact on mental health/ wellbeing	2
Service impact (Macro)	14
Service impact: increased reliance on future services	8
Service impact: increased spend on services as parents cannot cope	4
Service impact: increase reliance on residential settings	3
Impact on providers (Macro)	13
Providers: demand may outstrip supply	1
Providers: may never recover	1
Providers: may not be able to run schemes	9
Impact on lower income families (Macro)	8
Lower income: unable to afford contributions	3
Lower income: may miss out on activities/ respite/ have no support	5
Increased travel to find provision (Macro)	5
Other (Macro)	3

Alternative suggestions	
Base	30
Reduce funding in other council departments (Macro)	5
Redistribute funding to priority activities (Macro)	5
Redistribute funding: based on those with most need	5
Funding to HPCN (Macro)	4
Do not cut funding to HPCN	2
Cut funding to HPCN	2
Do not make budget savings (Macro)	7
Increase/ introduce parental contributions to avoid cuts (Macro)	4
Increase funding (Macro)	7
Other (Macro)	4

81 respondents provided a comment for the below question. The tables provide a breakdown of the themes arising.

Q21 - If you would like to comment on any of the proposals about how to make the Short Break Activities Programme most effective or to describe the impact that the proposals may have on you, or the people you care for or support. (Proposals Five to Seven, multi-code)"

General comments	
Base	64
Valued service (Macro)	18
Valued service: Short Break Activities are a lifeline	12
Valued service: child benefits greatly from activities	9
Valued service: allows quality time with other family members	2
Accessibility (Macro)	14

Accessibility: Demand is high/ difficult to find support	13
Accessibility: Options for breaks are poor/ not adequate explaining underusage	3
Proposal seems fair (Macro)	9
Fair: Lack of access to Short Breaks already	1
Fair: May allow more equitable access to activities	6
30 sessions is too low/ not enough (Macro)	19
Promote services more (Macro)	7
Promote: more accessible webpages	2
Other (Macro)	15
Other: Question about accessing short breaks	8
Other: Questions regarding proposal	1
Other: People must need the service if using more than 30 a year	3

Impacts	
Base	37
Impacts on funding/ support (Macro)	14
Funding: May have less respite/ less sessions	10
Funding: Short breaks are only respite provision	7
Impact on service user (Macro)	7
Service user: May not get a session that they need/ want	5
Service user: May reduce social skills/ independence	1
Impact on parents or carers (Macro)	7
Parents and carers: Impact on ability to cope	3
Parents and carers: Impact on ability to work	2
Impact on family unit (Macro)	4
Family unit: Unable to cope as a family	4
Service impacts (Macro)	11
Service impacts: will increase cost of service in the long run	3
Service impacts: increased usage of permanent residential settings	2
Service impacts: increased cost to other services	3
Service impacts: increased administration/ paperwork/ bureaucracy	3
Financial impact of proposals (Macro)	2
Financial: Put pressure on family budgets	2
Proposal could cause confusion (Macro)	4
Lack of accountability (Macro)	4
Accountability: may not listen to parents needs	2
Impact on lower income families (Macro)	1
Lower income: may miss out on activities/ respite/ have no support	1
Decrease accessibility of Short Break Activities (Macro)	8

Alternative suggestions	
Base	20
Allocate Short Break Activities differently (Macro)	15
Allocate: based on those with most need	6

Allocate: whole family/ holistic approach	3
Allocate: more fairly	7
Allocate: individual circumstances should be considered	5
Other (Macro)	5

51 respondents provided a comment for the below question. The tables provide a breakdown of the themes arising.

Q27 - If you would like to comment on the proposed changes to the Community Buddy Scheme or to describe the impact this proposal may have on you or the people you care for/ support please do so in the box below. (Proposal Eight, multi-code)

General comments	
Base	36
Valued service (Macro)	9
Valued service: makes activities accessible to child	7
Agrees if personal income increases in line with inflation (Macro)	1
No buddies in specific area (Macro)	4
Specific area: East Hants	2
Specific area: Andover	1
Proposals are a good idea (Macro)	4
Would benefit from the buddy scheme if available (Macro)	6
Scheme currently not fit for purpose (Macro)	19
Fit for purpose: cost already too high	4
Fit for purpose: lack of suitably trained buddies	5
Fit for purpose: lack of buddies in general	12
Fit for purpose: lack of buddies when needed at specific times	1
Other (Macro)	5

Impacts	
Base	13
Impact on service user (Macro)	2
Service user: become more socially isolated	2
Financial impact of proposals (Macro)	8
Financial impact: unable to afford contribution	8
Financial impact: strain on household budget	2
Do not reduce access/ level of support (Macro)	5
Service impacts (Macro)	1
Service impact: may need additional support from social care	1
Could lead to poor management of Buddy Scheme (Macro)	1

Alternative suggestions	
Base	13

Ensure support for Home to School Transport (Macro)	1
Change/ transform the service (Macro)	1
Change/ transform: means tested parental contributions	1
Service efficiency (Macro)	1
Scheme improvement (Macro)	10
Scheme improvement: proactive recruitment	1
Scheme improvement: feedback system implementation	1
Scheme improvement: ensure the right support is offered e.g. 1-1 support/ group support	4
Scheme improvement: recruiting and coordinating should remain with HCC	1

52 respondents provided a comment for the below question.

Q28 - If you have any alternative suggestions to the proposals in this consultation for how the County Council could make anticipated annual savings of up to £696,000 from the Short Break Activities Programme budget, please provide these in the box below. (multi-code)

Alternative suggestions	
Base	38
Make budget reductions elsewhere (Macro)	15
budget reductions: lower HCC staff and councillor salaries/ benefits	7
Use reserves to make up shortfall (Macro)	1
Give responsibility fully to a grant body (Macro)	1
Allow parents to use direct payments budgets for Short Break Activities (Macro)	1
Stop funding to HPCN (Macro)	1
Lobby central government for funding (Macro)	2
Work with private businesses (Macro)	4
Private businesses: discounts for concessionary activities	4
Stop Short Break Activities completely (Macro)	1
Generate additional Income (Macro)	1
Increase Council Tax (Macro)	1
Sell County Council assets (Macro)	2
Partnership working (Macro)	3
Partnership: local authorities	2
Partnership: joint funding	1
Provider operational changes (Macro)	2
Provider: Charge per child / introduction of paid for activities	1
Raise requirements for accessing Short Break Activities (Macro)	2
Understand where there is greatest need/ targeted support (Macro)	8
Open up scheme to all regardless of geography	1
Other (Macro)	2

General Comments	
Base	30

Valued service (Macro)	5
Valued service: prevent reliance on other services	4
Do not make budget cuts (Macro)	20
Do not make cuts: budget should be increased	4
Do not make cuts: do not target vulnerable/ disabled	10
Anticipate further budgetary savings (Macro)	1
Accessibility (Macro)	3
Accessibility: Demand too high/ difficulty accessing Short Break Activities	1
Accessibility: Lack of services for SEND	1
Accessibility: Lack of choice within Short Break Activities	1
Service has already had budget cuts (Macro)	1
Increase promotion of the service (Macro)	1
Create better provision/ more suitable provision (Macro)	3

Impacts	
Base	7
Impact on service user (Macro)	1
Impact on family unit (Macro)	4
Impact on other services (Macro)	2
Other services: Mental Health services	2
Other services: NHS	1
Positive impact (Macro)	2
Positive: Match funding could be an improvement	1
Covid-19 has made families more isolated (Macro)	1

Appendix 7 – Data Tables

Please note that for some categories, responses have been suppressed due to small sample sizes and to ensure the anonymity of respondents.

Proposal One – Q7:

		Base	To what extent do you agree or disagree with the proposal to reduce the overall grant awarded to provide Short Break Activities? (Please choose one option)							
			Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know	% Agreement	% Disagreement

HAMPSHIRE COUNTY COUNCIL

Decision Report

Decision Maker:	Executive Lead Member for Children's Services and Young People
Date of Decision:	11 November 2020
Decision Title:	Children's Services Capital Programme update
Report From:	Director of Children's Services and Director of Corporate Resources – Corporate Services

Contact name: Peter Colenutt, Assistant Director, Strategic Development and Capital Delivery, Children's Services and Adult Services

Tel: 01962 846157

Email: peter.colenutt@hants.gov.uk

Recommendation(s)

- 1 That the revised capital programme cash limit of £70.700m for 2020/21 be approved.
- 2 That the revised 2020/21 capital programme at Appendix 1 be approved, along with the amendments to the 2020/21 capital programme.
- 3 That approval is given to progress design work and undertake a public consultation on the expansion and change of designation of Samuel Cody Specialist Sports College.
- 4 That approval is given to progress design work and undertake a public consultation on the expansion of Icknield School.
- 5 That approval is given for the proposed grants to create SEND Post 16 Resourced Provisions at Brockenhurst, Farnborough College of Technology and Alton Colleges.
- 6 That the projects approved under delegated powers by the Director of Children's Services in Appendix 2 are noted.

Executive Summary

- 7 This report sets out the updated Children's Services Capital Programme for 2020/21. It also provides an update on projects identified for 2021/22.

Background

- 8 The Children's Services Capital Programme is based on government grants, capital receipts, developer contributions and local resources.

2020/21 Capital programme

- 9 Taking into account changes since the 2020/21 capital programme was last approved on 16 September 2020 (including those proposed in this report), the revised cash limit for the programme is shown in Table 1.

Table 1 – Revised 2020/21 Cash Limit	£'000
Cash limit reported 16 September 2020	70,034
Crow Arch lane (Poulner Infant), Ringwood developer contribution	487
Winchester Road, Fair Oak (Infant & Junior) developer contribution	120
Portsmouth Diocese –contribution to Cornerstone CE Primary	59
Total	70,700

Amendments to the 2020/21 Capital Programme

Poulner Infant School, Ringwood

- 10 Poulner Infant School currently houses a nursery within the existing accommodation. The school has a capacity of 180 and number on roll of 206 having accepted an additional bulge class in September 2020.
- 11 To create space for the bulge class going through the school, it is proposed to re-house the nursery provider in new accommodation. This will allow the school to take back the space currently occupied by the nursery. The estimated cost of this accommodation is £0.487m (including fees).
- 12 Therefore, it is recommended that resources of £0.487m (including fees) are added to the 2020/21 capital programme. A detailed project appraisal will be brought to a future Decision Day.

2021/22 Capital Programme

SEND Provision

- 13 The proposed additional SEND accommodation outlined below will help manage some of the school place pressures generated by the increase in the number of Education, Health and Care Plans (EHCPs) maintained by the Local Authority. Since 2015-16 the number of pupils in Hampshire with EHCPs has increased from 5,558 to 9,338 in April 2020 (an increase of 63%) with approximately 40% of pupils with an EHCP in a specialist

placement. This has resulted in a corresponding pressure for places in special schools and resourced provision. The County Council is committed to further developing successful provision or creating new provision where possible to meet demand for places. Currently, there is a need to provide support for pupils across most areas of SEND but in particular for pupils with social, emotional and mental health needs (SEMH) a 75% increase from 2015/16 – 2019/20.

- 14 The lack of sufficient provision within Hampshire Schools has resulted in increased placements within the independent and non-maintained sector (INMSS). The proposals contained within this report aim to build on the good quality Hampshire school provision and meet the needs of children and young people within their settings. This will reduce the Local Authority's dependence upon independent and non-maintained provision (INMSS) and will aim to keep pupils as close to their home community as possible.

Samuel Cody Specialist Sports College, Farnborough

- 15 Samuel Cody Specialist Sports College is a Moderate Learning Disabilities (MLD) and Autism Spectrum Disorder (ASD) designated school with an APN of 205. Due to the urgent need to provide additional specialist provision for SEMH pupils, it is proposed to consult on the expansion of Samuel Cody Specialist Sports College from 205 to 295 places and change of designation to include SEMH. To achieve this, it is proposed to establish a specialist 90-place co-educational facility on the eastern part of the school site for SEMH pupils aged 10-16 years.
- 16 The proposed SEMH facility would be separate from the existing MLD/ASD provision and operate under the management of the College but as an independent facility on the site. There will also be a separate area for drop off and pick up. It is proposed that the governance be through the existing Samuel Cody Governing Body.
- 17 Therefore, it is recommended that approval be given to consult on the expansion of Samuel Cody Specialist Sports College from 205 to 295 places and change of designation to include SEMH. A detailed scheme has yet to be developed but it is also recommended that funding of £10.5m be identified within the 2021/22 programme. The scheme design and cost are based on the Austen Academy ASD School project currently being delivered in Basingstoke. A detailed design and cost appraisal will be brought to a future Decision Day.

Icknield Special School, Andover

- 18 Icknield School, Andover is a SLD (Severe Learning Difficulties) school for children aged 5-19. A scheme has been developed to significantly improve and re-model the internal spaces and provide a small expansion to provide 10 additional places.
- 19 Therefore, it is recommended that approval be given to consult on the expansion of Icknield School from 78 to 88 places. Subject to approval, it is anticipated that the new school places will be available for September 2022

at an estimated cost of £2.5m (including fees). A detailed project appraisal will be brought to a future decision day.

Post 16 Resourced Provisions at Hampshire Colleges

- 20 As mentioned, significant revenue funding is spent on provision for Post-16 SEND pupils to attend independent and out-of-county education provision. It is proposed to build 3 x 30 place SEND specialist Post 16 provisions at Farnborough College of Technology, Brockenhurst College and Alton College.
- 21 This new resourced provision will provide much needed specialist accommodation and curriculum, for Hampshire pupils and will be run by the Colleges.
- 22 The Colleges will work closely with Hampshire Special School Head Teachers to support transition of pupils after year 11. Colleges are required to undertake remodelling of agreed assigned areas of their sites to provide appropriate classroom, hygiene, independent working areas and therapy spaces. It is proposed to enter grant agreements with the Colleges later this year to enable these capital works to be undertaken. A Memorandum of Understanding will be agreed for the provision of up to 30 SEND places per year. The places will be available for September 2021. The cost of these works across the 3 college sites is estimated at £2.5m. Resources of £2.5m to fund these works have been allocated from the 2020/21 capital programme.
- 23 Therefore, it is recommended that approval be given to enter into grant agreements to the sum of £2.5m with the three Hampshire 6th Form Colleges named above to provide SEND resourced provision for Hampshire SEND pupils.

Action taken by the Director of Children's Services

- 24 Under delegated powers and following consultation with the Executive Member for Children's Services, the actions set out in Appendix 2 have been taken and it is recommended that these approvals are noted.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

Equality and diversity objectives will be considered on an individual project basis by conducting Equality Impact Assessments and are not considered at this stage or within this report.
