That the Committee welcome the progress in the Building Better Emergency Care Programme and request a further update in Spring/Summer 2023 once construction has begun.

Executive Summary

3. Proposals that are considered to be substantial in nature will be subject to formal public consultation. The nature and scope of this consultation should be discussed with the Committee at the earliest opportunity.
4. The response of the Committee will take account of the Framework for Assessing Substantial Change and Variation in Health Services (version agreed at January 2018 meeting [Framework for Assessing Substantial Change and Variation in Health Services](#)). This places particular emphasis on the duties imposed on the NHS by Sections 242 and 244 of the NHS Act 2006, includes new responsibilities set out under the Health and Social Care Act 2012, and takes account of key criteria for service reconfiguration identified by the Department of Health.
5. This Report is presented to the Committee in three parts:
 - a. *Items for information*: these alert the Committee to forthcoming proposals from the NHS to vary or change services. This provides the Committee with an opportunity to determine if the proposal would be considered substantial and assess the need to establish formal joint arrangements
 - b. *Items for action*: these set out the actions required by the Committee to respond to proposals from the NHS or providers of health services to substantially change or vary health services.
 - c. *Items for monitoring*: these allow for the monitoring of outcomes from substantial changes proposed to the local health service agreed by the Committee.
6. This report and recommendations provide members with an opportunity to influence and improve the delivery of health services in Hampshire, and to support health and social care integration, and therefore assist in the delivery of the Joint Health and Wellbeing Strategy and Corporate Strategy aim that people in Hampshire live safe, healthy and independent lives.

Items for Information

- a) **Recommendation to create a new community and mental health trust (Southern Health Foundation Trust and Solent NHS Trust)**

Context

7. The Committee received notification in October 2022 that, in January 2022, Hampshire and Isle of Wight Integrated Care System had commissioned an independent review of community and mental health services. The review had put forward five key recommendations which were being taken forward in a joint programme of work including the recommendation that a new organisation be

formed, bringing together all NHS community and mental health services provided in Hampshire and the Isle of Wight. A business case is being developed which will describe the rationale and benefits of the recommendation to create a single NHS organisation for these services.

Recommendations

- i. That the Committee note the progress made in developing the joint organisation.
- ii. That the Committee consider whether the proposals constitute a substantial change to health services.
- iii. That a further update be requested for the Committee in Spring 2023.

b) Building Better Emergency Care (Portsmouth Hospitals NHS Trust)

Context

8. The Committee has heard from Portsmouth Hospitals NHS Trust for a number of years regarding difficulties at the Accident and Emergency Department at the Queen Alexandra Hospital in Portsmouth. While this hospital is in the Portsmouth City Council area, a number of Hampshire residents from surrounding areas use these services. In late 2018 the Trust was awarded capital funding to develop new emergency care facilities. Since then, the Trust have been developing a new model of care and working on a business case for the necessary capital works. The Committee was last updated on progress in May 2022 and at that meeting Members requested a further update for the following Autumn.

Recommendation

9. That the Committee welcome the progress in the Building Better Emergency Care Programme and request a further update in Spring/Summer 2023 once construction has begun.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

This is a covering report which appends reports under consideration by the Committee, therefore this section is not applicable to this covering report. The Committee will request appropriate impact assessments to be undertaken should this be relevant for any topic that the Committee is reviewing.
