Annual Safeguarding Report Children Services 2021/22

Stuart Ashley Deputy Director

Purpose and agenda

To provide an annual update to Cabinet on safeguarding children activity within Children's Services during 2021/22.

- 1. Contextual Information
- 2. National Developments
- 3. Performance and Activity levels
- 4. Local Developments
- 5. Future Priorities

Contextual Information

November 2021

Hampshire County Council

Hampshire volunteered to pilot a new **Joint Targeted Area Inspection (JTAI)** of our multiagency Safeguarding arrangements across all partners, working **from initial contact to a Child Protection decision**.

Inspectors from Ofsted, CQC (Care Quality Commission) and HMICFRS (Her Majesty's Inspectorate of Constabulary and Fire and Rescue Services) gave **very positive feedback** following their visit.

National Developments

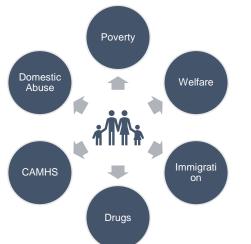

The Independent Review of Children's Social Care

The review is considered a **once in a generation opportunity for radical change** and calls on government to be ambitious for children and to play a more active role in creating the conditions for success. The Director of Children's Services is a member of the National Implementation Board in his role as President of the Association of Directors of Children's Services.

The review...

1. Recognises the **context** Children's Services operate within.

- 2. Emphasises:
- The importance of universal services
- Family help, which combines early help and lower level children's social care cares.

3. Calls for **investment** of £2.6bn to support transformation, which is expected to result in **savings** and a shift in the profile of spend from reactive, acute services, to early intervention.

Covid-19 — the new normal

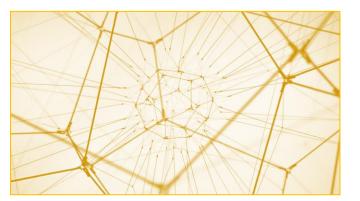

While Covid-19 may no longer be a visible impact in daily lives, the long-term impact remains.

Contacts have increased by 18%

Referrals to MASH have increased by 39%

An increase in the **complexity** of cases related to childhood anxiety, child and family/adult mental health issues as well as domestic abuse and neglect.

Homes for Ukrainians

Our district Family Support Service (FSS) teams are leading on supporting **2500 Ukrainian refugees**, and their host families.

Processes are well embedded, including support groups in most districts.

The government have opened the scheme to unaccompanied minors who will receive a social work assessment and ongoing social work support, comparable with Private Fostering regulations.

Only **3 arrangements** have been approved as of 9 September 2022, and future demand is unknown.

Child Exploitation

The reports reference to exploitation includes the following risk areas; child sexual exploitation (CSE), online exploitation, criminal exploitation (CCE) including 'County Lines', drug related harm, knife crime and serious violence; as well as other forms of exploitation that involve coercion and control such as radicalisation and extremism; forced marriage, female genital mutilation.

- The multi-agency Hampshire, Isle of Wight, Portsmouth & Southampton (HIPS) Child Exploitation Strategy sets out how all agencies will work together.
- Hampshire district led Missing Exploited and Trafficked (MET) operational sub groups ensure the identification, support, safeguarding and diversion of children who are at risk of, or being exploited within Hampshire's districts.

Hampshire

intv Counci

'County lines' and local drug peer networks remain an increasing concern

 Specialist work is undertaken by the pan-Hampshire Police Missing team, the Hampshire Children's Services specialist Willow team and Hampshire Constabulary to identify and disrupt County Lines networks, and safeguarding vulnerable children.

Children who go missing

Children who go missing from home or care, shows a **continued improving position.** Fewer children are going missing.

There is a **robust and effective response** from Children's Services and Hampshire Constabulary when they do go missing.

Hampshire have employed two specialist workers (based in Willow) who monitor missing children on a daily and weekly basis and work with district teams to **ensure appropriate safeguards** are in place to **prevent repeat occurrences**.

Performance and Activity Levels

Continuing increase in demand

Contacts and Referrals

• The total number of contacts as at 31 March 2022 is 21% higher than the total received at 31 March 2021.

Contact and Referrals	2017-18	2018-19	2019-20	2020-21	2021-22
Number of initial contacts	106010	117188	125413	126153	153033
Number of referrals	35953	40014	44434	48826	60761

Child and Family Assessments.

- The timeliness of completing a Child and Family Assessment is a very positive picture.
- Timeliness has not fallen from the high 80s for the last five years and is higher than the majority of other local authorities in the region.

Assessments	2017-18		2018-19		2019-20		2020-21		2021-22	
Assessment Timeliness	18496	87.90%	18003	90.90%	19712	92.61%	15924	95.30%	21188	95.90%

Child Protection Plans.

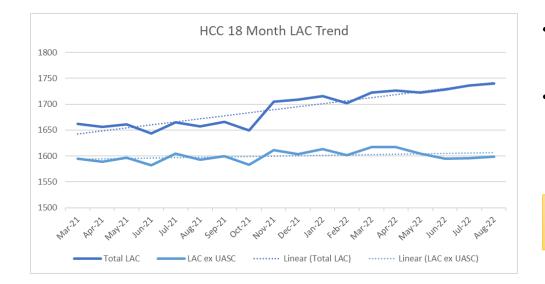

- Due to the short and long-term impact of the covid pandemic, numbers of children on a child protection plan have increased.
- The previous positive reduction is considered to be as a result of more effective interventions with children and families at the Child in Need level.
- A low percentage of child protection plans are lasting beyond two years indicating proactive work.
- Relatively few require a repeat plan within two years.

Child Protection Plans (CPP) and visits	2017-18		2019-20	2020-21	2021-22	
No of children on CPP	1293	1097	938	1000	1022	

Unaccompanied Asylum-Seeking Children (UASC)

- Numbers of children in care have **increased by 69 (4%)** over the past year **due to an increase in Unaccompanied Asylum Seeking Children** (UASC).
- UASC now make up 8% of children in care, compared to 4% 18 months ago

Given the rise in UASC a specialist UASC team will be set up, to support UASC and former care leaver UASC in Hampshire.

UASC Care	Apr-Jun	Jul-Sep	Oct-Dec	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	Jan-Mar	Apr-Jun
Leavers	2019	2019	2019	2020	2020	2020	2020	2021	2021	2021	2021	2022	2022
Period End	328	329	327	334	335	341	347	363	365	369	402	417	423

The average age of UASC arrivals is **17 years**. There has therefore been a **209% increase** in the number of UASC care leavers since June 2017 (137)

Local Developments

Recruitment and Retention

- The Independent Review of Children's Social Care provides the opportunity to consider use of differently qualified professionals to support children and families.
- ✓ We are planning pilots in Hampshire to consider the roles in our statutory teams.

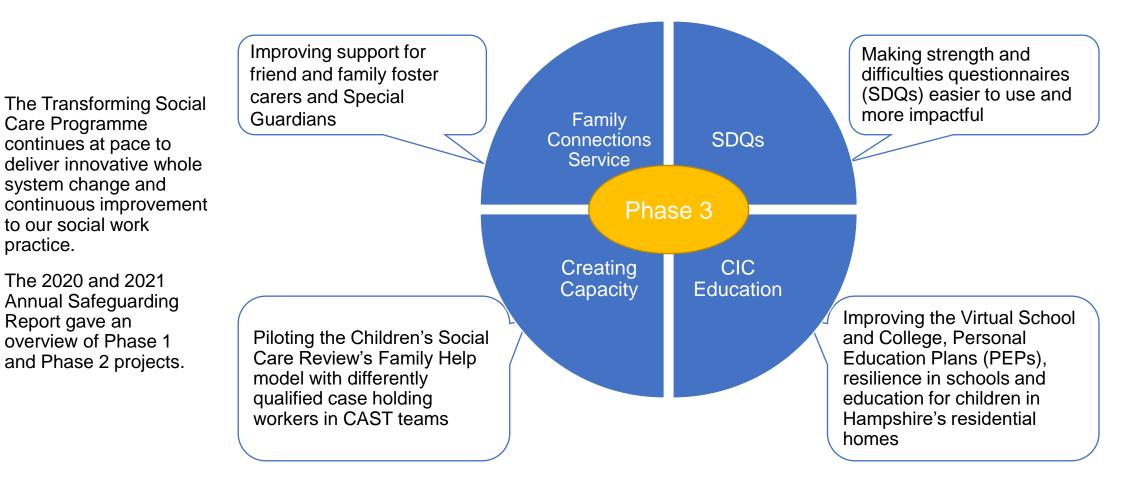

Our proactive recruitment strategy also...

- ✓ Utilises a positive partnership with Community Care for marketing and advertisements
- ✓ Targets graduates straight from universities to our highly regarded newly qualified worker programme.
- ✓ Includes oversees recruitment of 25 social workers this financial year.
- ✓ Will grow our own social workers. The first cohort of Social Work Apprentices graduated in August 2022, and 3 x more spaces will be offered this financial year.

Transforming Social Care

Youth Offending and Sector Led Improvement

Youth Offending Service

During the last year Hampshire Youth Offending Team (HYOT) has continued to deliver youth justice and youth crime prevention to the children of Hampshire, progressing against last year's plan.

Sector Led Improvement

- ✓ Hampshire and the Isle of Wight have received funding to deliver over 1000 days of support to other children's services per year through the DfE's newly established Sector Led Improvement Programme (SLIP).
- ✓ Hampshire continues to support the Foreign, Commonwealth and Development Office (FCDO) to undertake specific social work improvement support with the British Overseas Territories.
- ✓ Hampshire leads DfE funded improvement through the **South East Regional Improvement Alliance**.

This work is fully funded by the DfE and FCDO and Ofsted's most recent inspection report confirms that this work is **not detrimentally impacting oversight and management** of Hampshire Children's Services.

Future Challenges and Operational Priorities

The **escalating costs of placements** for children in care resulting from demand outstripping supply is a key area of focus, in addition to challenges and priorities already mentioned.

It is essential that our transformation work continues at pace to:

- 1. Keep more children at home, where it is safe and appropriate to do so.
- 2. Ensure children have the right placement to meet their needs.

Thank you
