

Safety Plan 2025-30 Report - Appendix B – Proposed Timeline for Stage Two of the Project

Note: Following completion of Stage 1, HIWFRS will progress to Stage 2, namely the identification of mitigations to meet the foreseeable fire and rescue related risk facing our communities. This will involve a public consultation to determine priorities and focus. The next Safety Plan will be ready by Spring 2025 for approval by HIWFRA covering the period 2025-2030.
