

HAMPSHIRE COUNTY COUNCIL

Report

Committee:	Joint Health Overview and Scrutiny Committee – Hampshire Together
Date:	22 July 2024
Title:	Hampshire Together Consultation Findings
Report From:	Director of People and Organisation

Contact name: Marie Mannveille, Senior Democratic Services Officer

Email: marie.mannveille@hants.gov.uk

Purpose of this Report

1. Since the Joint Committee last met in October 2023, public consultation has been undertaken on the Hampshire Together proposals. At this meeting the Joint Committee is asked to review the consultation activity that took place and the findings from that consultation. The Joint Committee has a role to scrutinise whether sufficient consultation has been undertaken by the NHS in relation to the proposals (whether it has been adequate in relation to content and/or time allowed).
2. To enable the Joint Committee to consider this, the following are attached:
 - Appendix 1 – consultation document
 - Appendix 2 – consultation activity report
 - Appendix 3 – consultation feedback report

At the meeting a presentation will provide a summary of these documents.

3. The NHS Hampshire and Isle of Wight Integrated Care Board has complied with the requirements of the Local Authority (Public Health, Health and Wellbeing Boards and Health Scrutiny) Regulations 2013 and notified the Joint Committee of the date by which the Committee is requested to provide a response, see Appendix 4 – letter dated 8 July 2024.
4. The Joint Committee should come to a view regarding whether it considers that the proposals would be in the interests of the health service in its area or not. The Joint Committee may make recommendations to the health body/bodies consulting on the proposal.

Recommendations

That the Joint Committee:

1. Note the consultation activity report and the consultation feedback report on the Hampshire Together proposals.

-
2. Agree the Joint Committee's comments in response to the consultation for formal submission to NHS Hampshire and Isle of Wight Integrated Care Board.
