Where practical, care will be provided in people's homes or as close to them as possible

People will be empowered to self-manage wherever they can, with the information and support required to do so; including access to diagnostic tests and specialist advice when needed

Where necessary, services will be centralised to ensure the best possible care and outcomes

We will be able to live within the money allocated to our area; reducing duplication and inefficiency

We will ensure our healthcare facilities are accessible, fit for purpose and improve a sense of wellbeing for those using them and working there
