- Both leaders and practitioners are passionate about improving the lived experience for children and young people with SEND and their families.
- Good outcomes for children with SEND through inclusive school provision which benefits from strong LA support offer from early years to pathways to employment work
- Good multiagency working and investment in provision where needed
- Communication and co-production between parents, schools and services need to improve. Ensure that parents are aware of changes made and that they can see the good work that is going on.
