

**Hampshire and Isle of Wight  
Sustainability and Transformation Partnership**

# Sustainability and Transformation Partnership Update

**MOVING FORWARD TOGETHER**

- Inaugural meeting - 18<sup>th</sup> October
- Members:
  - Four Health and Wellbeing Board Chairs
  - Five Hampshire and Isle of Wight CCG Chairs
  - STP Independent Chair

# Purpose of the Alliance

---

To provide strategic oversight and to shape the collective programme of sustaining and transforming health and care across Hampshire and the Isle of Wight.

# Suggested priorities

---

- Build a collective understanding and ownership of the strategic 'case for change' and review and approve the STP Annual Delivery Plan
- Support the development of a system capacity and demand model for health and care across Hampshire and the Isle of Wight
- Shape the transformation programme for those clinical services deemed to be best planned and delivered at scale
- Shape the health and care workforce education and training priorities
- Have oversight and shape the strategic digital and customer insight transformation programme for health and care
- Shape the evolving commissioning and delivery arrangements across the area

**Hampshire and Isle of Wight**  
Sustainability and Transformation Partnership

# Communication and Community Involvement

MOVING FORWARD TOGETHER

## Sharing of intelligence, approaches and resources across the STP enabled by:

- monthly Hampshire and Isle of Wight communication and engagement meetings held with attendance from:
  - all partner organisations
  - lay and non-executive director community
  - Wessex Voices (representing Healthwatch)
  - STP programme team
- designated communications and engagement lead for every STP programme
- plans to ensure communications and engagement leads for each local delivery system

# Strategic planning

---

- Detailed resource planning and strategic development underway to refine and evolve the existing STP communications and engagement strategy
- Comms and engagement workshop with senior leaders to identify priorities and obtain system wide buy in for high quality public involvement - 21st November.
- Formation of a smaller task and finish groups (subset of the network) to develop approaches on behalf of the system

# Examples of recent activity

---

- Extensive engagement around extended GP opening hours
- Over 1100 people interviewed in north and mid Hampshire around hospital services in the area.
- Extensive public engagement taken place on the Isle of Wight to understand local views on service change
- Engagement around the future of Milford on Sea War Memorial Hospital
- Work underway with local BBC radio to promote service change and key priorities of STP
- Mental health acute pathway engagement across Hampshire and the Isle of Wight
- Lay members connected into quality and audit work streams
- Events planned to engage with local politicians, the first of which is in October
- Initial engagement around data sharing for the development of the Hampshire Health record
- Wessex Voices providing valuable support to digital and maternity work streams

- 
- Develop a system wide approach to consulting with local people around the proposed configuration of acute services in Hampshire and the Isle of Wight
  - Ongoing work to discuss the case for change with local people and obtain their thoughts on transformation
  - Collation of 'STP year one on' achievements and aspirations for the future
  - Development of our approach to more widespread stakeholder engagement including working with local politicians
  - Senior managers undertaking involvement training through Wessex Voices
  - Involvement around a variety of service reviews such as spinal and renal services
