Description of Service / Policy

This service involves the administration of the Hampshire Concessionary Fares scheme for public transport, affecting predominantly older people and those with disabilities.
Geographical impact* All Hampshire

Description of proposed change

The proposal is to capitalise upon changes in contract arrangements, national trends, and opportunities to reduce Council investment in the service or, subject to changes in the law, to introduce nominal charges to realise efficiencies and savings. Impacts upon service users should be minimal as they revolve around making more efficient use of existing budgets to reflect changing user trends. If, subject to legal changes, the County Council were to introduce a nominal charge, then there would be an impact upon some service users who would be obliged to make a small financial contribution to their journeys.

Engagement and consultation

Has engagement or consultation been carried out? No

No specific consultation has been carried out on this proposal, however, the County Council carried out a major public consultation exercise over the Summer 2017 on a range of options for finding further budget savings including increasing council tax, using reserves and making changes to the way in which services are delivered, which may mean reducing or withdrawing certain services. The outcome of this consultation will be presented to Cabinet in October 2017.

When decisions are made to pursue the options, further specific consultation will be carried out with stakeholders on the detailed options where required.
