

HAMPSHIRE COUNTY COUNCIL

Report

Committee:	Health and Adult Social Care Select Committee
Date:	28 June 2021
Title:	Proposals to Develop or Vary Services
Report From:	Chief Executive

Contact name: Members Services

Tel: 0370 779 0507 **Email:** members.services@hants.gov.uk

Purpose of this Report

1. The purpose of this report is to alert Members to proposals from the NHS or providers of health services to vary or develop health services provided to people living in the area of the Committee. At this meeting the Committee is receiving an update on the following topic:
 - Mental Health Inpatient Beds update (Southern Health NHS Foundation Trust)

Recommendations

That the Committee:

2. Note and welcome the update from Southern Health regarding the opening of the new Cherry Ward at Parklands Hospital in Basingstoke, providing 18 beds for female acute mental health patients.
3. Request written confirmation when the Abbey Ward at Antelope House in Southampton is opened, for circulation to the Committee.

Executive Summary

4. Proposals that are considered to be substantial in nature will be subject to formal public consultation. The nature and scope of this consultation should be discussed with the Committee at the earliest opportunity.
5. The response of the Committee will take account of the Framework for Assessing Substantial Change and Variation in Health Services (version agreed at January 2018 meeting [Framework for Assessing Substantial Change and Variation in Health Services](#)). This places particular emphasis on the duties imposed on the NHS by Sections 242 and 244 of the NHS Act 2006, includes new responsibilities

set out under the Health and Social Care Act 2012, and takes account of key criteria for service reconfiguration identified by the Department of Health.

6. This Report is presented to the Committee in three parts:
 - a. *Items for information*: these alert the Committee to forthcoming proposals from the NHS to vary or change services. This provides the Committee with an opportunity to determine if the proposal would be considered substantial and assess the need to establish formal joint arrangements
 - b. *Items for action*: these set out the actions required by the Committee to respond to proposals from the NHS or providers of health services to substantially change or vary health services.
 - c. *Items for monitoring*: these allow for the monitoring of outcomes from substantial changes proposed to the local health service agreed by the Committee.
7. This report and recommendations provide members with an opportunity to influence and improve the delivery of health services in Hampshire, and to support health and social care integration, and therefore assist in the delivery of the Joint Health and Wellbeing Strategy and Corporate Strategy aim that people in Hampshire live safe, healthy and independent lives.

Items for Information

Mental Health Inpatient Beds update: Southern Health NHS Foundation Trust

8. Over the past couple of years, the Committee has scrutinised use of Out of Area beds for mental health inpatients by Southern Health NHS Foundation Trust, a provider of mental health services providing services in Hampshire. The Trust last updated the Committee in January 2021 [2021-01-11 HASC SH OOA beds update.pdf \(hants.gov.uk\)](#) at which time it was reported that the Trust had maintained a low usage of out of area placements since September 2020. However, beds were being sub-contracted from private providers within Hampshire. The Trust notified the Committee of their intention to increase their in-house inpatient bed capacity, to reduce their reliance on other providers in future.
9. The Committee requested a further update in September 2021, as the new beds were planned to come onstream in the summer. The Trust have provided an update, see appendix to this report. This shows that a new 18 bed female acute mental health ward was opened in Basingstoke in August 2021, and the 10 bed female psychiatric intensive care unit in Southampton is likely to open at the end of 2021 or early 2022.

Finance

10. Financial implications of any proposals will be covered within the briefings provided by the NHS appended to this report.

Performance

11. Performance information will be covered within the briefings provided by the NHS appended to this report where relevant.

Consultation and Equalities

12. Details of any consultation and equalities considerations of any proposals will be covered within the briefings provided by the NHS appended to this report.

Climate Change Impact Assessment

13. Consideration should be given to any climate change impacts of proposals where relevant.

Conclusions

14. It is a positive development that Southern Health have created additional inpatient mental health bed capacity, to meet the demand and avoid the need to send patients to other providers or out of county.

EQUALITIES IMPACT ASSESSMENT:

1. Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited by or under the Act with regard to the protected characteristics as set out in section 4 of the Act (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation);
- Advance equality of opportunity between persons who share a relevant protected characteristic within section 149(7) of the Act (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic within section 149(7) of the Act (see above) and persons who do not share it.

Due regard in this context involves having due regard in particular to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant protected characteristic that are connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic that are different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

2. Equalities Impact Assessment:

This is a covering report which appends reports under consideration by the Committee, therefore this section is not applicable to this covering report. The Committee will request appropriate impact assessments to be undertaken should this be relevant for any topic that the Committee is reviewing.
