

# Hampshire and Isle of Wight ICS Frimley ICS

## Update on System Design

16 June 2022

## What is happening...

From July 2022 Integrated Care Systems will take on the responsibility for improving health and care for residents. It will also be responsible for broader aims such as strategic planning for the area.

The NHS was set up primarily to provide episodic treatment for acute illness, but it now needs to deliver joined-up support for growing numbers of older people and people living with long-term conditions. As a result, the NHS and its partners need to work differently by providing more care in people's homes and the community and breaking down barriers between services.

- **The Hampshire & Isle of Wight Integrated Care System will serve a population of 1.9 million people in Portsmouth, Southampton, Isle of Wight and the majority of Hampshire.**
- **The Frimley Integrated Care System will serve a population of 800,000 people across Surrey Heath, Slough, Windsor & Maidenhead, Bracknell Forest and North East Hampshire**

# Two Integrated Care Systems

## Working together in the future

We have two integrated care systems in adjacent geographies, both of which are focused on improving population health and reducing health inequalities

Local Authority boundaries, combined with historical NHS commissioning arrangements, means that we have an opportunity to strengthen our joint approach to co-ordinating our aims, objectives and ways of working

Our systems are working ever more closely together to achieve this aim.

We have a long history of the two areas working together across both health but also with Local Authority partners and there are many services already jointly commissioned including Continuing Health Care, children's services and maternity.

We have also more recently strengthened our joint working through our Covid pandemic response and our focus on improving health inequalities

Between now and statutory transition in July 2022 we will:

- engage with our partners to find out how we can best work together
- identify key areas where joint working will have maximum impact
- design simplified governance and decision making structures

# How each aspect of our system functions – HIOW ICS

## Integrated Care Partnership

The Integrated Care Partnership is a statutory committee, building on existing partnerships and collaboration across the system statutory committee. It is an alliance of NHS, local government and other partners working jointly to improve the care, health and wellbeing of the population of Hampshire & Isle of Wight. The Integrated Care Partnership sets the overarching strategy for health and care in HIOW, built up from an assessment of need in each part of the area, and facilitates joint action to deliver that strategy .

## HIOW Integrated Care Board

The Integrated Care Board is the statutory organisation responsible for setting the strategic plan for the NHS to deliver its part of the health and care strategy. It allocates NHS resources and establishes system governance arrangements that support collective accountability. The Integrated Care Board will work through our four places and our transformation programmes (see below), and arranges for the provision of health services from our provider led healthcare delivery system.

## Four Place partnerships

In our four place partnerships - in Hampshire, Isle of Wight, Portsmouth and Southampton - integrated teams (including local authority, Integrated Care Board, provider, and voluntary partners) come together to understand the needs of the population, agree joined up local plans to meet those needs, develop strong broad local partnerships and implement local solutions. The Integrated Care Board delegates local decision making for key NHS services to these partnerships.

## Provider led healthcare delivery system

Health and care providers work individually and together through Primary Care Networks and provider collaboratives in each local delivery system (North & Mid Hampshire, Portsmouth & South East Hampshire, Southampton and South West Hampshire and IoW) and at the scale of Hampshire and IoW (e.g. the acute and mental health collaboratives) to plan, co-ordinate and deliver integrated care for the population. Over the next two years we see resources to enable local and at-scale collaboratives to succeed shifting from CCGs to the provider led delivery system.

## HIOW Transformation Programmes

ICS-wide transformation programmes in which system partners work together to transform health and care: agreeing the consistent care models and pathways based on best practice that we will deploy across Hampshire and Isle of Wight, identifying and minimising unwarranted variation and co-ordinating whole system action to implement the NHS Long Term Plan and Hampshire and Isle of Wight strategy across the Integrated Care System.

# Structure of our ICS

## Integrated Care Board

- Our Chair and Chief Executive, Lena Samuels & Maggie MacIsaac, have been appointed.
- Recruitment is underway for the ICB
- Nominations are underway for Five Local Authority partner members; including elected and officer appointments, drawn from the county council, unitary and district / borough councils
- Two Primary Care partner member
- Two NHS Provider partner members
- First meeting 1<sup>st</sup> July

## Place based partnerships

- We have been strengthening our place based arrangements by linking with key leaders across the NHS and Local Authorities at Place level ready for July, arrangements will continue to develop through 2022.
- We have reviewed principles for local decision making to ensure we are working as close to communities as possible.

## Integrated Care Partnership

- **Our strong preference is for an inclusive partnership, with broader representation, with clear linkages to the existing Health & Wellbeing Boards.**
- **Focus groups are meeting to design the model for the Partnership and how it can best build the Integrated care strategy**
- The proposed membership includes:
  - Integrated Care Board independent Chair & Chief Executive
  - City, county, district and borough councils, including Directors of Public Health, and representatives of Directors of Adult and Children's Services
  - Local Authority elected members
  - Representatives of: NHS provider chairs and Chief Executives
  - Primary Care
  - Representatives of the place partnerships in Hampshire, Southampton, Portsmouth, Isle of Wight
  - Healthwatch
  - Representatives of the Voluntary, Community and Social Enterprise (VCSE) sector; fire and police representatives; representatives of academic institutions and Wessex Academic Health Science Network.

## Update on Change and Transition

Following Royal Assent being given and the establishment of the Health and Care Act (2022) in law, work continues for the establishment of our future NHS organisations and constructs.

We are on track for the establishment of the Frimley Integrated Care Board (to be known as “NHS Frimley”) on the 1st July. Recruitment to Board level executive and non-executive positions is now complete and we are now in the final phase of working with partner organisations to identify a further eight colleagues to join the Board. These eight seats will be filled with members who are working in the Local Authority, Primary Care and NHS Provider sectors and will ensure we bring a true system partnership approach to how the ICB takes decisions for the benefit of our population.

## Update on Change and Transition

We continue to work with our broader system colleagues to design a vision for how the future partnership can operate effectively. Over the course of 2022 we will be refreshing the Frimley system strategy to ensure that we understand where our greatest challenges are for the 800,000 people who live in our system and to identify which areas of focus will form our collective priorities for 2023 onwards.

In April we submitted our system plan for 2022/23 which sets out our approach to meeting the main challenges of the year ahead. As a partnership we have submitted an ambitious plan which will ensure we can improve patient care and access throughout the year whilst living within the financial allocation which has been made available to us.
