IMPACT ASSESSMENTS:

Equality Duty

The County Council has a duty under Section 149 of the Equality Act 2010 ('the Act') to have due regard in the exercise of its functions to the need to:

- Eliminate discrimination, harassment and victimisation and any other conduct prohibited under the Act;
- Advance equality of opportunity between persons who share a relevant protected characteristic (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, gender and sexual orientation) and those who do not share it;
- Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Due regard in this context involves having due regard to:

- The need to remove or minimise disadvantages suffered by persons sharing a relevant characteristic connected to that characteristic;
- Take steps to meet the needs of persons sharing a relevant protected characteristic different from the needs of persons who do not share it;
- Encourage persons sharing a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

Equalities Impact Assessment:

The County Council has a programme of work in place to advance inclusion and diversity in line with its corporate Equality Objectives. This includes undertaking both internal and external assessment of its performance to identify areas of strength and for improvement. This report reviews past performance - the activities and services that are described were subject to appropriate equality impact assessment in accordance with this programme.

Climate Change Impact Assessment

Hampshire County Council utilises two decision-making tools to assess the carbon emissions and resilience impacts of its projects and decisions. These tools provide a clear, robust, and transparent way of assessing how projects, policies and initiatives contribute towards the County Council's climate change targets of being carbon neutral and resilient to the impacts of a 2°C temperature rise by 2050. This process ensures that climate change considerations are built into everything the Authority does.

The Carbon Mitigation Tool and/or Climate Change Adaptation Tool was not applicable to this report as it relates to performance against the County Council's overarching Strategic Plan rather than any specific interventions. It is expected that these tools will be applied to any relevant projects which support the delivery of the Strategic Plan outcomes.
